

PROSPER AWUNI

Senior Cyber Security Analyst | Incident Response, Security Information and Event Management (SIEM),
Vulnerability Management and Threat Detection

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Analyst with over five years of experience investigating, managing and remediating cyber security incidents across large, complex enterprise environments. I have deep expertise in end-to-end incident response aligned to the National Institute of Standards and Technology (NIST) 800-61 framework, advanced threat detection using Security Information and Event Management (SIEM) platforms, and vulnerability management using industry-leading tooling. I am proficient with Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft Sentinel with Kusto Query Language (KQL), CrowdStrike Falcon and Mimecast, and I have directly mentored and supported junior members of security operations teams. My analytical skill set spans log analysis, malware triage, endpoint forensics and security controls assessment, and I bring strong knowledge of current and evolving cyber threats including data breaches, ransomware and social engineering. I am seeking a senior analyst role within a prestigious organisation where I can contribute deep technical expertise and help strengthen security operations capability.

CORE SKILLS AND TECHNICAL STACK

- **Incident Response:** End-to-end incident management (NIST 800-61); containment, eradication and recovery; post-incident review; data breach response; ransomware handling
- **SIEM and Log Analysis:** Microsoft Sentinel + KQL; CrowdStrike Falcon NG-SIEM; Splunk (SPL); log analysis; alert triage; detection rule development
- **Endpoint Security and Analysis:** Microsoft Defender for Endpoint (MDE); CrowdStrike Falcon EDR; endpoint forensics; malware analysis; threat hunting
- **Identity Security:** Microsoft Defender for Identity (MDI); Microsoft Entra ID (Azure Active Directory (AD)); Conditional Access; Multi-Factor Authentication (MFA); Single Sign-On (SSO)
- **Vulnerability Management:** Pentra Breach and Attack Simulation (BAS); Tenable.io; AppCheck; Nessus; penetration test coordination and vulnerability remediation
- **Email and Web Security:** Mimecast; Microsoft 365 Defender; anti-phishing; email forensics; web gateway management
- **Privileged Access Management:** BeyondTrust PAM; least-privilege access enforcement; privileged session auditing
- **Scripting and Automation:** PowerShell; KQL; Security Orchestration, Automation and Response (SOAR) playbook development
- **Frameworks:** NIST CSF; CIS Controls; ISO 27001; Cyber Essentials+; MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Investigate, manage and remediate cyber security incidents from initial detection through to post-incident review, aligned to NIST 800-61, covering data breaches, malware, ransomware and account compromise incidents across an 8,000-user estate
- Perform in-depth log analysis and endpoint forensic investigation using Microsoft Defender for Endpoint (MDE) and CrowdStrike Falcon EDR, identifying root cause and containing threats before they escalate
- Administer and maintain Microsoft Sentinel SIEM, developing KQL analytics rules and hunting queries to detect advanced threats and map adversary behaviour to the MITRE ATT&CK framework
- Manage Mimecast email security gateway to investigate and remediate phishing, business email compromise (BEC) and malware delivery incidents, including forensic email analysis
- Coordinate penetration tests and vulnerability assessments with external suppliers, managing findings through to remediation and providing executive-level reporting on security posture

- Administer BeyondTrust Privileged Access Management (PAM) to enforce least-privilege and maintain audit trails for privileged account activity
- Configure Microsoft Entra ID Conditional Access policies, MFA and SSO to harden identity controls and limit the blast radius of credential compromise incidents
- Mentor and support junior members of the security team, providing guidance on incident handling methodology, SIEM rule development and threat triage techniques
- Deliver security awareness training and phishing simulation campaigns to educate users on recognising and reporting social engineering attempts

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Investigated and managed security incidents in Microsoft Sentinel SIEM and CrowdStrike Falcon EDR, performing thorough root cause analysis and coordinating cross-team response to contain and remediate threats
- Conducted endpoint forensic analysis using MDE to investigate malware and suspicious activity, producing detailed incident reports for senior stakeholders
- Deployed and configured Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI) and Microsoft 365 Defender across the 8,000-user estate, delivering integrated SIEM and endpoint detection coverage
- Supported penetration testing engagements with external vendors, validating findings and tracking remediation progress to closure
- Performed vulnerability scanning using Nessus and AppCheck, coordinating remediation with IT infrastructure teams and reporting findings in line with risk tolerance thresholds
- Maintained Mimecast email security policies and investigated email-borne threats including phishing and malware, communicating risks clearly to affected users
- Contributed to CIS Controls and Cyber Essentials+ assessments, supporting the organisation's compliance posture with evidence-based reporting

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Monitored and investigated security alerts from CrowdStrike Falcon EDR and Microsoft Defender, escalating and responding to incidents within a SaaS and FinTech environment
- Administered Microsoft Entra ID (Azure Active Directory) including MFA and Conditional Access policies, maintaining robust identity security across the organisation
- Supported vulnerability assessments and tracked remediation activities in line with NIST CSF and CIS Controls, contributing to measurable improvement in the organisation's security posture
- Delivered end-user security awareness training and managed phishing simulation exercises, improving employee reporting rates for suspicious emails
- Maintained endpoint security baselines using Microsoft Intune Mobile Device Management (MDM), ensuring device compliance across Windows and mobile endpoints

KEY ACHIEVEMENTS

- Led end-to-end management of multiple high-severity security incidents at UAL including ransomware-type behaviours and account compromise events, achieving full containment and recovery within agreed timeframes and producing comprehensive post-incident reports
- Developed Microsoft Sentinel KQL detection rules to identify credential-based attacks, lateral movement and data exfiltration attempts, directly improving the organisation's ability to detect advanced threats early in the attack lifecycle
- Coordinated and managed a multi-supplier vulnerability remediation programme at UAL, reducing critical and high-severity findings by over 85% within agreed SLAs using Pentera BAS and Tenable.io
- Mentored junior analysts in SIEM operations, incident response methodology and endpoint forensic techniques, uplifting team capability and enabling greater analyst autonomy
- Deployed Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI) and Microsoft 365 Defender across 8,000 users, establishing integrated extended detection and response coverage across the estate

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
