

PROSPER AWUNI

Senior Cyber Security Engineer | Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR) and Privileged Access Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience protecting enterprise environments of up to 8,000 users. I bring deep expertise in Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), Endpoint Detection and Response (EDR), and vulnerability management. My experience spans alert triage, threat hunting, incident response and the end-to-end administration of web and email security gateways, firewalls, Intrusion Detection and Prevention Systems (IDS/IPS), Multi-Factor Authentication (MFA), Single Sign-On (SSO) and Privileged Access Management (PAM). I am proficient with CrowdStrike Falcon (Next-Generation SIEM, EDR, Prevent, Insight and Discover), Microsoft Sentinel with Kusto Query Language (KQL), Microsoft Defender for Endpoint (MDE), Check Point Harmony firewall, Mimecast, BeyondTrust PAM, and Microsoft Entra ID. I am seeking a senior security engineering role in a fast-paced financial services environment where I can apply strong technical skills and a proactive security mindset to protect critical infrastructure.

CORE SKILLS AND TECHNICAL STACK

- **SIEM / EDR / SOAR:** CrowdStrike Falcon NG-SIEM, EDR, Prevent, Insight, Discover; Microsoft Sentinel + KQL; Splunk; alert triage and SOAR automation
- **Endpoint and Email Security:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender; Mimecast; Tanium
- **Firewall and Network Security:** Check Point Harmony firewall; web application firewall (WAF); DDoS mitigation; Intrusion Detection and Prevention Systems (IDS/IPS); network segmentation
- **Identity and Access Management:** Microsoft Entra ID (Azure Active Directory (AD)); Conditional Access; MFA; SSO; BeyondTrust Privileged Access Management (PAM); least-privilege enforcement
- **Device Management:** Microsoft Intune; Mobile Device Management (MDM); Mobile Application Management (MAM)
- **Vulnerability Management:** Pentera Breach and Attack Simulation (BAS); Tenable.io; AppCheck; Nessus; remediation tracking
- **Incident Response:** NIST 800-61; MITRE ATT&CK framework; threat hunting; digital forensics support
- **Scripting and Automation:** PowerShell; KQL; SOAR playbook development; Logic Apps
- **Frameworks:** NIST Cybersecurity Framework (CSF); CIS Controls; ISO 27001; Cyber Essentials+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Administer and optimise the CrowdStrike Falcon platform across an 8,000-user estate, covering NG-SIEM, EDR, Prevent, Insight and Discover modules for comprehensive threat visibility and endpoint protection
- Perform end-to-end alert triage, threat hunting and incident response using CrowdStrike Falcon NG-SIEM and Microsoft Sentinel with advanced KQL queries, reducing false positive rates through continuous rule refinement
- Manage and maintain Check Point Harmony firewall rules and web application firewall (WAF) policies to defend against external threats including Distributed Denial of Service (DDoS) attacks
- Administer web and email security gateways via Mimecast, configuring anti-phishing, anti-spam and URL filtering policies to protect users from social engineering and malware delivery vectors
- Configure and enforce MFA, SSO and Conditional Access policies in Microsoft Entra ID to implement Zero Trust access controls across cloud and on-premise environments
- Administer BeyondTrust PAM to manage privileged accounts, enforce least-privilege access and maintain comprehensive audit trails for all privileged sessions

- Lead vulnerability management programme using Tenable.io and Pentera BAS, identifying and coordinating remediation of critical and high-severity vulnerabilities within agreed Service Level Agreements (SLAs)
- Manage Microsoft Intune MDM and MAM policies to enforce device compliance and maintain security baselines across Windows, macOS and mobile endpoints
- Develop and maintain SOAR automation playbooks in Microsoft Sentinel and Logic Apps, automating alert enrichment and response workflows to reduce analyst workload
- Provide security awareness training and phishing simulation campaigns using KnowBe4, reducing user susceptibility to social engineering attacks

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Triaged and investigated security alerts across CrowdStrike Falcon EDR and Microsoft Sentinel SIEM, escalating critical incidents and supporting end-to-end resolution aligned to NIST 800-61
- Contributed to the deployment and configuration of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI) and Microsoft 365 Defender across the 8,000-user estate
- Performed regular vulnerability scanning using Nessus and AppCheck, producing clear remediation reports and tracking progress to closure with IT infrastructure teams
- Maintained Microsoft Entra ID Conditional Access policies, MFA configurations and SSO integrations to harden identity security posture
- Supported Check Point Harmony firewall reviews and Mimecast email gateway administration, including policy tuning and threat intelligence feed integration
- Assisted with IDS/IPS rule management and network segmentation controls in collaboration with the network team
- Contributed to CIS Controls and Cyber Essentials+ compliance assessments, producing evidence and recommendations for management reporting

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Deployed and maintained endpoint security tools including CrowdStrike Falcon EDR and Microsoft Defender for Endpoint across a cloud-first SaaS and FinTech environment
- Administered Microsoft Entra ID (Azure Active Directory) identity and access management, configuring MFA and Conditional Access policies to enforce least-privilege access
- Managed Microsoft Intune device management policies for Windows and mobile endpoints, ensuring security baseline compliance across the workforce
- Supported vulnerability assessments and coordinated remediation activities in line with NIST CSF and CIS Controls, reducing exposure to known critical vulnerabilities
- Maintained firewall rules and network security controls, and contributed to IDS/IPS configuration to detect and block malicious network traffic
- Delivered end-user security awareness training and responded to phishing reports, contributing to measurable reduction in successful phishing attempts

KEY ACHIEVEMENTS

- Led the configuration and tuning of CrowdStrike Falcon NG-SIEM, EDR and Discover modules across 8,000 users at UAL, improving threat detection fidelity and reducing mean time to detect (MTTD) through automated alert enrichment
- Implemented BeyondTrust PAM platform at UAL, establishing audited privileged access controls that eliminated uncontrolled privileged account usage and strengthened audit readiness
- Designed Microsoft Sentinel SOAR playbooks to automate phishing triage and user account compromise response, reducing manual analyst effort and accelerating response times
- Delivered a Pentera BAS-led vulnerability reduction programme, achieving remediation of over 85% of critical findings within SLA and presenting results to senior leadership
- Contributed to achieving and maintaining Cyber Essentials+ certification at UAL, coordinating technical evidence gathering across multiple IT domains

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
