PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | Security Information and Event Management (SIEM) | Endpoint Detection and Response (EDR)

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of hands-on experience in cyber security engineering and operations. I bring expert-level proficiency in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) alert triage, vulnerability management, and identity and access management. I have successfully delivered security operations across large, complex environments of up to 8,000 users, and I have a strong track record in incident response, threat hunting, and remediating penetration test findings. I am confident working within small, focused security teams where breadth of expertise is valued, and I am equally comfortable owning technical security controls across firewalls, email security gateways, endpoint protection, and multi-factor authentication (MFA) and single sign-on (SSO) platforms.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Falcon Discover (Expert)
- **SIEM and SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL), Splunk with Search Processing Language (SPL), alert triage and SOAR automation
- **Email Security Gateway:** Mimecast email security and threat protection
- **Identity and Access Management:** Microsoft Azure Active Directory (Azure AD) / Entra ID, Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM)
- **Mobile Device Management:** Microsoft Intune, Mobile Device Management (MDM), Mobile Application Management (MAM)
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; vulnerability remediation and pen test finding remediation
- **Endpoint and Network Security:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Check Point Harmony firewall, Web Application Firewall (WAF) / Distributed Denial of Service (DDoS) protection
- **Scripting and Automation:** PowerShell scripting for security automation and incident response playbooks
- **Security Frameworks:** National Institute of Standards and Technology (NIST) Cybersecurity Framework (CSF), NIST 800-61 Incident Response, MITRE ATT&CK, Center for Internet Security (CIS) Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) *March 2025 - Present*

Senior Cyber Security Analyst / Engineer

- Operate as a senior member of the cyber security team, owning SIEM and SOAR alert triage and response across CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, handling high-fidelity alerts and reducing mean time to respond.
- Lead CrowdStrike Falcon EDR operations including policy configuration, Prevent detections, Insight investigations, and Discover asset visibility across the enterprise estate.
- Manage endpoint security across Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) for a user base of approximately 8,000 accounts, including alert tuning and threat intelligence enrichment.
- Conduct proactive threat hunting using MITRE ATT&CK tactics, techniques, and procedures (TTPs), developing KQL-based detection rules in Microsoft Sentinel and custom indicators of compromise (IOCs).
- Administer Mimecast email security gateway, including anti-phishing, anti-spoofing, and impersonation protection policies; investigate and respond to email-borne threat campaigns.

- Manage MFA and SSO using Azure AD / Entra ID Conditional Access policies, enforcing zero-trust access controls and reducing risk from compromised credentials.
- Oversee Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, enforcing compliance policies across corporate and Bring Your Own Device (BYOD) endpoints.
- Drive vulnerability management using Tenable.io and Pentera Breach and Attack Simulation (BAS), prioritising critical remediation and tracking progress against agreed Service Level Agreements (SLAs).
- Develop and deliver organisation-wide security awareness training, reducing phishing susceptibility and improving security culture.
- Investigate and remediate penetration test findings, coordinating with technical teams to close vulnerabilities within risk-accepted timescales.

University of the Arts, London (UAL) *March 2022 - March 2025*

Cyber Security Analyst, Cyber Security and Identity

- Performed daily SIEM alert triage, incident investigation, and escalation using Microsoft Sentinel (KQL) and CrowdStrike Falcon, reducing alert fatigue through detection rule refinement and SOAR automation.
- Supported the deployment and ongoing management of Microsoft Defender for Endpoint across 8,000 users, including onboarding, policy management, and automated investigation and response (AIR) configuration.
- Managed Azure AD / Entra ID identity lifecycle including Conditional Access policies, privileged identity management, and MFA enrolment campaigns.
- Administered BeyondTrust Privileged Access Management (PAM) to enforce least-privilege access and audit privileged account activity.
- Contributed to vulnerability management assessments using Tenable.io, AppCheck, and Nessus, providing remediation guidance aligned to CIS Controls and Cyber Essentials Plus.
- Responded to cyber security incidents following the NIST 800-61 Incident Response lifecycle, producing incident reports and post-incident lessons-learned documentation.
- Authored PowerShell automation scripts to streamline security operations tasks, including bulk user account remediation and automated threat response playbooks.
- Supported the management of Check Point Harmony firewall policies, including rule reviews and change management processes.

HICX Solutions Ltd (Software as a Service / FinTech) *February 2021 - March 2022*

IT Engineer: Security, Quality and Infrastructure

- Delivered end-to-end IT security, quality assurance, and infrastructure support for a cloud-native SaaS and FinTech organisation.
- Implemented and managed endpoint protection solutions, MDM/MAM policies via Microsoft Intune, and email security controls including anti-phishing configuration.
- Configured and maintained Azure AD identity and access controls including user provisioning, MFA enforcement, and SSO integrations for third-party SaaS platforms.
- Performed vulnerability assessments and supported internal security audits, contributing to the organisation's compliance with ISO 27001 and internal security policies.
- Authored PowerShell scripts to automate routine infrastructure and security tasks, improving operational efficiency.

KEY ACHIEVEMENTS

- Led the enterprise-wide deployment of Microsoft Defender for Endpoint and Microsoft Defender for Identity across 8,000 users, delivering full endpoint visibility and identity threat detection coverage within a defined project timeline.
- Reduced mean time to detect and respond to security alerts by engineering SOAR automation playbooks within CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, automating containment and enrichment workflows.
- Developed a CrowdStrike Falcon EDR detection rule library aligned to MITRE ATT&CK, improving threat hunting capability and reducing false positives by over 30%.
- Achieved Cyber Essentials Plus certification for the organisation through structured vulnerability remediation, patching campaigns, and access control hardening.
- Delivered security awareness training to over 500 staff, achieving measurable reduction in successful phishing simulation click rates.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
