PROSPER AWUNI

Senior Security Engineer | SIEM | Endpoint Detection and Response (EDR) | Identity and Access Management (IAM)

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) and Senior Security Engineer with over five years of experience designing, implementing, and managing security controls across enterprise technology estates. I have expert-level proficiency in Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR) using CrowdStrike Falcon, and Identity and Access Management (IAM) through Microsoft Azure Active Directory (Azure AD) / Entra ID and BeyondTrust Privileged Access Management (PAM). I am highly experienced in vulnerability management, incident response, and Security Orchestration, Automation and Response (SOAR) automation, and I have a strong background in designing and implementing security controls that reduce organisational risk and improve security posture across complex, multi-platform environments of up to 8,000 users.

CORE SKILLS AND TECHNICAL STACK

- **Security Information and Event Management (SIEM):** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL), Splunk with Search Processing Language (SPL); detection rule engineering, log management, alert triage
- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Falcon Discover (Expert); Microsoft Defender for Endpoint (MDE)
- **Identity and Access Management (IAM):** Microsoft Azure AD / Entra ID, Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM), Microsoft Defender for Identity (MDI)
- **Security Orchestration, Automation and Response (SOAR):** Automated playbook design, alert enrichment, containment workflows, PowerShell scripting for security automation
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; risk-based prioritisation and remediation tracking
- **Mobile Device and Application Management:** Microsoft Intune, Mobile Device Management (MDM), Mobile Application Management (MAM), Tanium endpoint management
- **Network and Perimeter Security:** Check Point Harmony firewall, Web Application Firewall (WAF) / Distributed Denial of Service (DDoS) controls, Mimecast email security gateway
- **Frameworks:** NIST CSF, NIST 800-61 Incident Response, MITRE ATT&CK, CIS Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) *March 2025 - Present*

Senior Cyber Security Analyst / Engineer

- Design, implement, and manage security controls across the organisation's technology estate, covering SIEM, EDR, IAM, vulnerability management, and perimeter security.
- Operate as the primary technical owner of CrowdStrike Falcon EDR across the enterprise, managing policy configuration, detection tuning, Prevent exclusions, and Insight investigations to ensure comprehensive endpoint visibility and response capability.
- Administer Microsoft Azure AD / Entra ID IAM controls including Conditional Access policies, Privileged Identity Management (PIM), MFA enforcement, and SSO integrations; manage BeyondTrust PAM to enforce least-privilege access across privileged accounts.
- Engineer and maintain SIEM analytics rules and detection logic in Microsoft Sentinel and CrowdStrike Falcon NG-SIEM, aligned to MITRE ATT&CK tactics, techniques, and procedures (TTPs).
- Manage Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across approximately 8,000 users, including advanced hunting, automated investigation and response (AIR), and Microsoft 365 (M365) Defender integration.

- Oversee vulnerability management using Tenable.io and Pentera Breach and Attack Simulation (BAS), managing the full remediation lifecycle from identification to verification.
- Develop SOAR playbooks using PowerShell and Logic Apps to automate incident containment, enrichment, and notification workflows, reducing mean time to respond (MTTR).
- Conduct proactive threat hunting across the SIEM and EDR platforms, producing threat hunt reports and converting findings into new detection rules.
- Manage Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, enforcing device compliance policies across corporate and Bring Your Own Device (BYOD) endpoints.

University of the Arts, London (UAL) *March 2022 - March 2025*

Cyber Security Analyst, Cyber Security and Identity

- Implemented and managed security controls spanning SIEM (Microsoft Sentinel), EDR (CrowdStrike Falcon), and IAM (Azure AD / Entra ID, BeyondTrust PAM) to protect the organisation's technology estate.
- Administered CrowdStrike Falcon EDR and Microsoft Defender for Endpoint, managing onboarding, policy enforcement, and alert response across the enterprise endpoint estate.
- Managed Azure AD / Entra ID IAM controls including Conditional Access policies, group policy management, MFA, and SSO configurations; maintained BeyondTrust PAM to enforce privileged access governance.
- Performed SIEM alert triage and threat hunting using Microsoft Sentinel (KQL) and CrowdStrike Falcon NG-SIEM, developing detection rules aligned to the MITRE ATT&CK framework.
- Managed Microsoft Intune MDM/MAM policies for corporate and BYOD devices, ensuring compliance with security baselines and enforcing data loss prevention (DLP) policies.
- Conducted vulnerability assessments using Tenable.io, AppCheck, and Nessus, producing risk-prioritised remediation reports and tracking remediation progress against agreed timescales.
- Responded to security incidents following the NIST 800-61 Incident Response lifecycle, performing containment, eradication, and recovery and producing post-incident lessons-learned documentation.
- Authored PowerShell automation scripts to streamline security operations tasks and incident response workflows.

HICX Solutions Ltd (Software as a Service / FinTech) *February 2021 - March 2022*

IT Engineer: Security, Quality and Infrastructure

- Designed and implemented security controls across a cloud-native SaaS and FinTech environment, covering endpoint protection, IAM, MDM/MAM, and perimeter security.
- Configured and managed Azure AD / Entra ID identity controls including user provisioning, MFA enforcement, Conditional Access policies, and SSO integrations for third-party SaaS applications.
- Managed Microsoft Intune MDM and MAM policies for corporate device fleet, enforcing security baselines and compliance policies.
- Administered email security and endpoint protection solutions, including anti-phishing configuration and EDR policy management.
- Performed vulnerability assessments and contributed to ISO 27001-aligned internal security audits, supporting the organisation's risk management and compliance programme.
- Authored PowerShell scripts to automate routine security and infrastructure operations tasks, improving operational efficiency.

KEY ACHIEVEMENTS

- Led the enterprise-wide deployment and management of CrowdStrike Falcon EDR and Microsoft Defender for Endpoint across 8,000 users, delivering full endpoint detection and response coverage and reducing mean time to detect (MTTD) across the estate.
- Redesigned the Azure AD / Entra ID Conditional Access framework, implementing zero-trust IAM controls that reduced identity-related security incidents and achieved compliance with Cyber Essentials Plus access control requirements.
- Engineered SOAR automation playbooks that automated tier-1 alert triage and containment actions in Microsoft Sentinel and CrowdStrike Falcon NG-SIEM, reducing analyst workload and improving MTTR.
- Implemented BeyondTrust Privileged Access Management (PAM) across privileged accounts, enforcing least-privilege access and providing full audit trail visibility for privileged sessions.

- Achieved Cyber Essentials Plus certification through structured vulnerability management and IAM hardening, demonstrating robust control implementation across SIEM, EDR, and IAM domains.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
