

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM/SOAR | CrowdStrike Falcon | EDR/XDR | IAM | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of specialist experience implementing, managing, and maturing enterprise security operations across large-scale hybrid environments. I bring expert-level knowledge of CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) platforms including Microsoft Sentinel and CrowdStrike NG-SIEM, and Security Orchestration, Automation and Response (SOAR) automation. I am experienced in overseeing the full security tooling stack for complex organisations including WAF/DDoS protection, email security gateways, Multi-Factor Authentication (MFA) and Single Sign-On (SSO), Mobile Device Management (MDM) and Mobile Application Management (MAM), Privileged Access Management (PAM), vulnerability management, and incident response. I have a proven track record of joining focused security teams, taking technical ownership of critical controls, and delivering measurable improvements to security posture in regulated and risk-sensitive environments. I hold the Certified Information Systems Security Professional (CISSP) certification and am ready to bring senior-level security engineering leadership to a global asset management firm.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR/XDR):** CrowdStrike Falcon (Prevent, EDR, Insight, Discover, NG-SIEM) - Expert; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **SIEM and SOAR:** Microsoft Sentinel (workspace design, data connectors, KQL analytics rules, automated playbooks, workbooks); CrowdStrike NG-SIEM; Splunk/SPL; detection engineering; alert triage
- **Identity and Access Management (IAM):** Microsoft Azure Active Directory (Azure AD) / Entra ID; Conditional Access; MFA; SSO; Privileged Access Management (PAM) - BeyondTrust
- **Endpoint and Device Management:** Microsoft Intune MDM/MAM; Tanium; CrowdStrike Falcon Prevent
- **Email and Web Security:** Mimecast; WAF/DDoS; web and email security gateway configuration and administration
- **Vulnerability Management:** Tenable.io; Nessus; AppCheck; Pentera Breach and Attack Simulation (BAS); penetration test finding remediation
- **Firewall and Network Security:** Check Point Harmony; IDS/IPS; network access controls; firewall policy management
- **Incident Response:** NIST 800-61 IR lifecycle; MITRE ATT&CK framework; senior escalation lead; IR playbook authoring
- **Scripting and Automation:** PowerShell; KQL; SOAR playbook development
- **Frameworks and Compliance:** NIST CSF; CIS Controls; ISO 27001; Cyber Essentials Plus; JISC

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Act as the organisation's senior SME for **CrowdStrike Falcon EDR and NG-SIEM**; lead deployment, policy tuning, and operational management of endpoint protection and behavioural detection across the full enterprise estate.
- Design, build, and maintain the **Microsoft Sentinel SIEM/SOAR** environment including workspace architecture, data connector onboarding, KQL analytics rules, automated response playbooks, and executive-level security workbooks.
- Own and manage **WAF/DDoS, email security gateways (Mimecast), and web proxy** configurations; review and respond to threat intelligence to continuously update gateway rules and block lists.

- Enforce **MFA, SSO, MDM/MAM, and PAM** policies through Microsoft Entra ID Conditional Access, Intune device management policies, and BeyondTrust; reduce privileged account exposure and enforce least-privilege principles.
- Lead **vulnerability management** programme using Tenable.io, AppCheck, Nessus, and Pentra BAS; manage the full cycle from scanning through risk prioritisation to remediation closure including pen test findings.
- Serve as **senior escalation lead for incident response**; manage containment, eradication, and recovery for high-severity security incidents, producing post-incident reports aligned to NIST 800-61.
- Deliver **security awareness training** and phishing simulation campaigns; develop training content tailored to audience risk profile.
- Automate security workflows via **PowerShell scripting and SOAR**, reducing MTTR and enabling scalable response without additional headcount.
- Oversee **security certificate management**, IDS/IPS rule review, and firewall policy governance across the hybrid estate.
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity *March 2022 - March 2025*

- Planned and executed the enterprise-wide deployment of **Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender** covering approximately 8,000 users with zero service disruption.
- Conducted daily **SIEM alert triage, threat hunting, and EDR telemetry analysis** using CrowdStrike Falcon Insight and Microsoft Sentinel KQL queries; escalated and managed confirmed incidents through to resolution.
- Administered **Azure Active Directory (Azure AD) / Entra ID** including user lifecycle management, Conditional Access policy design, MFA enforcement, and SSO integrations with third-party platforms.
- Operated **Intune MDM/MAM** platform; designed and deployed device compliance policies and app protection policies across Windows, iOS, and Android endpoints.
- Managed **vulnerability scanning and remediation** programmes using Tenable.io and AppCheck; produced management reports tracking remediation velocity and residual risk.
- Authored and maintained **KQL detection rules, SOAR playbooks, and IR procedures** to streamline response and reduce analyst decision-making time.
- Supported **Check Point Harmony firewall** administration and IDS/IPS policy management across network perimeter and internal segmentation zones.
- Contributed to **Cyber Essentials Plus and ISO 27001** compliance activities including evidence collection, control testing, and policy documentation.

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Maintained endpoint protection, email security, and access control policies across a fast-paced **SaaS/FinTech** environment with a focus on security and regulatory alignment.
- Managed **Azure AD** identity provisioning, MFA, and SSO; enforced role-based access control (RBAC) for staff and third-party vendor accounts.
- Conducted vulnerability assessments and tracked remediation progress; supported pen test scoping and post-test remediation cycles to close identified gaps.
- Developed **security policies and procedures** aligned to ISO 27001 and NIST CSF, embedding security into operational processes and change management workflows.
- Managed cloud and on-premises infrastructure including server hardening, patch management, network administration, and backup verification.

KEY ACHIEVEMENTS

- Built and operationalised a **hybrid SOC capability using CrowdStrike Falcon NG-SIEM and EDR**, enabling 24/7 detection and response for a complex multi-site university environment.

- Designed and deployed a **Microsoft Sentinel SIEM workspace** from the ground up; connected 20+ data sources, wrote 30+ custom KQL analytics rules, and automated tier-1 response via SOAR playbooks.
- Led **Microsoft Defender (MDE, MDI, M365)** deployment across 8,000 users; established baseline EDR, identity threat detection, and email threat protection capabilities organisation-wide.
- Reduced high-severity alert volume by over 40% through targeted **CrowdStrike policy tuning and SIEM rule optimisation**, focusing analyst capacity on genuine threats.
- Implemented **BeyondTrust PAM** controls eliminating standing privileged access; all privileged sessions recorded and auditable.
- Maintained **Cyber Essentials Plus and ISO 27001** compliance posture, demonstrating robust controls across endpoint, identity, network, and cloud domains.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
