

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM / SOAR / EDR | CrowdStrike | Mimecast | PAM | Hybrid
(London)

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience managing and optimising the full security technology stack across enterprise environments. I have deep expertise in Security Information and Event Management (SIEM), Security Orchestration Automation and Response (SOAR), Endpoint Detection and Response (EDR), Privileged Access Management (PAM), vulnerability management, email security, and identity platforms. At the University of the Arts London, I manage security operations across an estate of over 8,000 users, covering CrowdStrike Falcon EDR, Microsoft Sentinel, Mimecast, BeyondTrust PAM, Entra ID / Azure Active Directory (Azure AD), Microsoft Intune, and vulnerability management tooling. I am seeking a focused senior security engineering role within a small, expert team where I can deliver robust and resilient security across a complex financial services infrastructure.

CORE SKILLS AND TECHNICAL STACK

- CrowdStrike Falcon: Endpoint Detection and Response (EDR), Prevent, Insight, Discover, Next-Generation Security Information and Event Management (NG-SIEM) - Expert
- SIEM / SOAR alert response, detection tuning and automation (Microsoft Sentinel, CrowdStrike NG-SIEM)
- Web Application Firewall (WAF) / Distributed Denial of Service (DDoS) protection management
- Web and email security gateways: Mimecast email security
- Firewall management: Check Point Harmony
- Intrusion Detection System (IDS) / Intrusion Prevention System (IPS)
- Multi-Factor Authentication (MFA) / Single Sign-On (SSO): Entra ID / Azure Active Directory (Azure AD) / Conditional Access
- Mobile Device Management (MDM) / Mobile Application Management (MAM): Microsoft Intune
- Vulnerability scanning and remediation: Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS)
- Digital certificate and PKI management
- Privileged Access Management (PAM): BeyondTrust
- Security awareness training delivery and phishing simulation
- Penetration test findings remediation and tracking
- Kusto Query Language (KQL) / PowerShell scripting / SOAR automation
- Frameworks: NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Manage and optimise CrowdStrike Falcon Endpoint Detection and Response (EDR), NG-SIEM, and Falcon Prevent across an enterprise estate of 8,000+ users, triaging and responding to security alerts and conducting threat investigations.
- Administer Mimecast email security gateway, tuning policies and managing quarantine queues to block phishing, malware, and spam and maintain robust email security posture.
- Manage Multi-Factor Authentication (MFA), Single Sign-On (SSO), and Microsoft Entra ID / Azure Active Directory (Azure AD) Conditional Access policies, enforcing identity and access controls across the estate.
- Administer Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM), enforcing device compliance policies across the organisation.

- Conduct vulnerability management using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), prioritising remediation activities with infrastructure teams and tracking findings through to closure.
- Manage BeyondTrust Privileged Access Management (PAM), overseeing privileged account provisioning, session recording, and periodic access reviews to enforce least-privilege principles.
- Deliver security awareness training and phishing simulation campaigns to staff, measurably reducing susceptibility to social engineering attacks.
- Remediate penetration test findings, managing the remediation register and providing regular progress reports to the security leadership team.
- Manage security certificates and PKI lifecycle, ensuring timely renewal and compliance across all systems.
- Maintain Check Point Harmony firewall and Intrusion Detection and Prevention System (IDS/IPS) rules, applying timely updates and responding to network-level threats.
- Develop SOAR automation playbooks and PowerShell scripts to streamline alert response and reduce manual effort across security operations.
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

University of the Arts London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Administered CrowdStrike Falcon EDR and Microsoft Sentinel SIEM, carrying out alert triage, incident investigation, and response aligned to NIST 800-61 and MITRE ATT&CK.
- Managed Mimecast email security, configuring transport rules and responding to email-borne threats including phishing, business email compromise, and malware campaigns.
- Administered Entra ID / Azure Active Directory (Azure AD), Conditional Access policies, and MFA/SSO configurations, enforcing identity controls for all 8,000 users.
- Supported BeyondTrust PAM operations, managing privileged account provisioning and access reviews in line with least-privilege principles.
- Performed vulnerability assessments using Tenable.io and Nessus, prioritising and coordinating remediation with infrastructure teams.
- Managed Microsoft Intune MDM/MAM policies to ensure endpoint and application compliance across the fleet.
- Delivered phishing simulation campaigns and security awareness training, contributing to measurable improvements in staff security behaviour.
- Assisted in remediating penetration test findings, tracking the risk register and reporting on progress to the Security Manager.
- Managed digital certificate renewals and PKI compliance across the estate.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Managed end-to-end security operations within a regulated SaaS/FinTech environment, covering email security, endpoint protection, identity access management, and vulnerability management.
- Administered network firewalls, web security gateways, and Intrusion Detection and Prevention (IDS/IPS) systems, applying policy updates and monitoring for anomalies.
- Managed Azure Active Directory (Azure AD) identity provisioning, MFA, and SSO policies for the organisation's workforce.
- Conducted vulnerability scans and supported patch compliance activities, coordinating remediation with the infrastructure team.
- Managed MDM device compliance policies and contributed to security awareness training for staff.
- Supported ISO 27001 and Cyber Essentials+ compliance activities, contributing to internal audits and security documentation.

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR and NG-SIEM enterprise-wide at UAL across 8,000+ users, delivering a full-coverage Endpoint Detection and Response capability from ground up.
- Implemented Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI), consolidating the organisation's EDR and identity threat detection into a unified Microsoft security platform.
- Implemented BeyondTrust Privileged Access Management (PAM), achieving measurable reduction in privileged access risk and full visibility over privileged sessions.
- Built and deployed SOAR automation playbooks in CrowdStrike and Microsoft Sentinel, reducing mean time to respond (MTTR) to security incidents by automating repetitive triage and response tasks.
- Delivered sustained Cyber Essentials+ certification for UAL, demonstrating robust preventative and protective controls across a complex hybrid infrastructure.
- Led a vulnerability management programme using Tenable.io, AppCheck, and Pentra BAS, systematically reducing the organisation's exploitable attack surface.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
