

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR/EDR | Vulnerability Management | IAM
United Kingdom (Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer and Certified Information Systems Security Professional (CISSP) with over five years of hands-on experience in endpoint detection and response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations, vulnerability management, and security infrastructure administration. I specialise in CrowdStrike Falcon, having led enterprise-wide deployments and managed detection tuning across 8,000+ endpoints. I have extensive experience managing email security via Mimecast, identity and access management (IAM) including Multi-Factor Authentication (MFA) and Single Sign-On (SSO) via Azure Entra ID, Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, Privileged Access Management (PAM) via BeyondTrust, and vulnerability management using Tenable.io, Pentera Breach and Attack Simulation (BAS), and AppCheck. I am experienced in remediating penetration testing findings and delivering security awareness programmes across complex enterprise environments.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon EDR (deployment, prevention policy management, detection tuning, threat hunting), CrowdStrike Falcon NG-SIEM, CrowdStrike Discover, CrowdStrike Insight
- **SIEM/SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (KQL, analytics rules, playbooks), alert triage and response
- **Email Security:** Mimecast (policy management, anti-phishing, impersonation protection, threat intelligence)
- **Identity and Access Management (IAM):** Azure Entra ID, Azure Active Directory (AAD), Conditional Access, MFA, SSO, Group Policy
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune, device compliance policy management
- **Privileged Access Management (PAM):** BeyondTrust Password Safe, Privileged Remote Access, session recording
- **Vulnerability Management:** Tenable.io, Pentera BAS, AppCheck, Nessus; penetration test finding remediation
- **Network and Perimeter Security:** Check Point Harmony firewall, IDS/IPS, WAF/DDoS, web gateway security
- **Microsoft Defender:** Defender for Endpoint (MDE), Defender for Identity (MDI), Defender for Office 365 (M365)
- **Security Awareness:** Phishing simulation, security training design and delivery
- **Scripting/Automation:** PowerShell, SOAR playbook development
- **Frameworks:** NIST 800-61, MITRE ATT&CK, ISO 27001, Cyber Essentials Plus (CE+), NIST CSF, CIS Controls

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Lead enterprise-wide deployment, configuration, and management of CrowdStrike Falcon Endpoint Detection and Response (EDR) across 8,000+ endpoints, including prevention policy design and ongoing detection tuning
- Manage SIEM/SOAR/EDR alert triage and incident response end-to-end, acting as senior escalation point for high-priority security events; lead containment and remediation activities
- Administer Mimecast email security gateway including anti-phishing policies, impersonation protection, URL filtering, and threat intelligence integration

- Manage Multi-Factor Authentication (MFA), Single Sign-On (SSO), and Conditional Access policies in Azure Entra ID, enforcing least-privilege access and identity-based controls across 8,000-user estate
- Administer Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM) policies; enforce device compliance and manage conditional access for mobile endpoints
- Oversee BeyondTrust Privileged Access Management (PAM) programme including privileged account lifecycle, session recording, and just-in-time (JIT) access workflows
- Lead vulnerability management programme using Tenable.io, Pentera BAS, and AppCheck; prioritise findings by risk severity and track remediation to verified closure
- Manage Check Point Harmony firewall and IDS/IPS policies; review network-layer security alerts and respond to perimeter incidents
- Remediate penetration testing findings, coordinating with infrastructure and development teams to validate and close identified vulnerabilities
- Design and deliver security awareness training, including phishing simulation campaigns, targeted team training, and organisation-wide security communications
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

University of the Arts London (UAL) — Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Performed daily alert triage and incident response using CrowdStrike Falcon and Microsoft Sentinel, escalating and documenting confirmed security incidents
- Managed Intune MDM/MAM policies and Conditional Access rules in Entra ID; enforced device and identity compliance controls
- Conducted vulnerability scanning using Nessus and AppCheck; raised and tracked remediation tickets with infrastructure teams
- Supported Mimecast email security administration and phishing simulation campaign management
- Assisted in BeyondTrust PAM implementation including account onboarding, access reviews, and policy configuration
- Contributed to ISO 27001 and Cyber Essentials Plus (CE+) compliance activities including gap analysis and technical evidence gathering

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Implemented and maintained security policies, endpoint protection, and access controls within a SaaS/FinTech environment
- Conducted vulnerability assessments and coordinated remediation of identified infrastructure security risks
- Managed network access controls, firewall rules, and security configuration hardening across the technology estate
- Supported identity and access management initiatives including account provisioning and access reviews

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR across 8,000+ endpoints achieving 99% agent coverage enterprise-wide, reducing endpoint-based security incidents by 65%
- Implemented BeyondTrust PAM solution eliminating standing privileged access for 200+ administrator accounts, materially reducing privilege escalation attack surface
- Built hybrid Security Operations Centre (SOC) integrating CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, delivering 24/7 security monitoring and alert triage capability
- Reduced vulnerability remediation backlog by 70% through automated scanning workflows using Tenable.io and Pentera BAS and a risk-prioritised remediation programme
- Achieved Cyber Essentials Plus (CE+) certification; led technical remediation across identity, endpoint, network, patch management, and access control domains

EDUCATION

- M.Sc. Environmental and Resource Engineering

- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
