

PROSPER AWUNI

Senior Security Consultant | Microsoft 365 & Azure Security | Sentinel | Defender | Entra | Purview

United Kingdom (Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer and Certified Information Systems Security Professional (CISSP) with over five years of enterprise-level experience designing, implementing, and operationalising Microsoft security solutions across Microsoft 365, Azure, Entra ID, Microsoft Defender, and Microsoft Sentinel Security Information and Event Management (SIEM) / Extended Detection and Response (XDR). I am passionate about helping organisations strengthen their security posture by embracing the latest in Microsoft cloud and AI-driven security technologies. I have led end-to-end Microsoft security deployments including Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Conditional Access frameworks, Microsoft Purview data governance, and Microsoft Sentinel analytics design across complex enterprise environments. I thrive on solving complex security challenges, translating technical requirements into scalable, secure-by-design solutions, and communicating clearly with both technical teams and senior leadership to drive secure, compliant outcomes.

CORE SKILLS AND TECHNICAL STACK

- **Microsoft 365 Security:** Microsoft Defender for Endpoint (MDE), Defender for Office 365, Defender for Identity (MDI), Microsoft Defender XDR
- **Azure Security:** Entra ID, Conditional Access, Privileged Identity Management (PIM), Identity Protection, Azure Active Directory (AAD) design and hardening
- **Microsoft Sentinel SIEM/XDR:** Workspace design, data connector configuration, KQL analytics rules, Logic Apps playbooks, workbooks, MITRE ATT&CK coverage
- **Microsoft Purview:** Data classification, sensitivity labels, compliance policies, data governance
- **Identity and Access Management (IAM):** MFA, SSO, Conditional Access, Privileged Access Management (PAM) via BeyondTrust
- **Security Architecture:** Secure-by-design solution design, NIST CSF, ISO 27001, CIS Controls, Cyber Essentials Plus (CE+)
- **Security Orchestration, Automation and Response (SOAR):** Sentinel playbooks, Logic Apps, PowerShell scripting
- **Endpoint Security:** Microsoft Intune MDM/MAM, CrowdStrike Falcon EDR, Windows/Linux endpoint hardening
- **Vulnerability Management:** Tenable.io, Pentera BAS, AppCheck, Nessus
- **Communication:** Technical documentation, security architecture design documents, executive reporting, stakeholder engagement

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Design, implement, and operationalise Microsoft security solutions including Defender for Endpoint, Defender for Identity, Defender for Office 365, Microsoft Sentinel SIEM/XDR, Entra ID, Conditional Access, and Privileged Identity Management (PIM) across an 8,000-user enterprise estate
- Architect and deliver Microsoft Sentinel workspace including data connector configuration, KQL analytics rule authoring, Logic Apps-based SOAR playbooks, and workbooks; serve as subject matter expert on Sentinel and Defender XDR
- Implement Microsoft Purview data classification, sensitivity labelling, and compliance policies across Microsoft 365 to strengthen data governance posture
- Provide technical leadership and guidance on Microsoft 365 and Azure security best practices, translating business requirements into secure, scalable technical solutions aligned to industry standards
- Act as escalation point for complex Microsoft security incidents, leading investigations using Defender XDR and Sentinel; deliver remediation recommendations and lessons learned to senior stakeholders

- Author comprehensive security documentation including design documents, SOC runbooks, IR playbooks, and remediation guidance for technical and non-technical audiences
- Manage enterprise-wide vulnerability management programme using Tenable.io and Pentera BAS; coordinate remediation with infrastructure and engineering teams
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

University of the Arts London (UAL) — Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Configured and managed Entra ID Conditional Access, MFA, and SSO policies across Microsoft 365 environment, enforcing zero-trust access controls
- Built and tuned Microsoft Sentinel KQL analytics rules, playbooks, and workbooks; maintained dashboards for SOC visibility and management reporting
- Supported Microsoft Defender for Endpoint deployment and policy management including attack surface reduction (ASR) rules and endpoint baseline hardening
- Administered Microsoft Intune MDM/MAM compliance policies and device configuration profiles
- Contributed to ISO 27001 and Cyber Essentials Plus (CE+) documentation, technical assessments, and evidence preparation
- Supported BeyondTrust PAM implementation including privileged account onboarding, policy configuration, and access reviews

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Implemented and maintained Microsoft 365 security configurations, access controls, and identity management within a SaaS/FinTech environment
- Supported cloud security posture management and infrastructure security hardening initiatives
- Conducted vulnerability assessments and coordinated remediation of identified security risks

KEY ACHIEVEMENTS

- Delivered end-to-end Microsoft Sentinel deployment from zero to operational SOC integration, including 15+ data connectors, 30+ KQL analytics rules aligned to MITRE ATT&CK, and Logic Apps SOAR playbooks
- Led Microsoft Defender for Endpoint (MDE) deployment across 8,000+ endpoints (Windows and macOS) achieving full enterprise coverage and integration with Sentinel for unified XDR
- Implemented enterprise-wide Conditional Access and Multi-Factor Authentication (MFA) policy framework via Entra ID, eliminating password-only authentication and significantly reducing identity-based attack surface
- Achieved Cyber Essentials Plus (CE+) certification through Microsoft 365 and Azure security hardening across identity, endpoint, and access control domains
- Implemented BeyondTrust PAM solution securing privileged access for 200+ administrator accounts, integrating with Entra ID for just-in-time (JIT) access workflows

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
-
