

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR/EDR | Vulnerability Management | IAM

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a senior cyber security engineer with more than five years of hands-on experience protecting enterprise environments using Security Information and Event Management (SIEM), Security Orchestration Automation and Response (SOAR) and Endpoint Detection and Response (EDR) platforms. In my current role at the University of the Arts London I lead the full engineering and operational lifecycle of CrowdStrike Falcon (Next-Generation SIEM, EDR, Prevent, Insight and Discover) across an 8,000-user estate, administer Microsoft Sentinel with Kusto Query Language (KQL) for detection rule creation and alert response, and manage Mimecast for email security and anti-phishing. I oversee vulnerability management using Tenable.io, AppCheck and Pentera Breach and Attack Simulation (BAS), administer Privileged Access Management (PAM) via BeyondTrust, and manage Multi-Factor Authentication (MFA), Single Sign-On (SSO), Conditional Access and Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Entra ID, Azure Active Directory (Azure AD) and Microsoft Intune. I have first-hand experience remediating penetration testing findings, operating Intrusion Detection and Prevention Systems (IDS/IPS) and delivering security awareness training to large user populations. I hold the Certified Information Systems Security Professional (CISSP) certification and work to the National Institute of Standards and Technology (NIST) Cybersecurity Framework, CIS Controls and Cyber Essentials Plus.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) -- Expert
- **SIEM/SOAR:** Microsoft Sentinel + KQL, CrowdStrike NG-SIEM, SOAR automation and playbook development
- **Endpoint and Identity Security:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 (M365) Defender
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera BAS, Nessus
- **Privileged Access Management (PAM):** BeyondTrust
- **Email Security:** Mimecast (anti-phishing, data loss prevention, gateway)
- **Identity and Access Management (IAM):** Microsoft Entra ID, Azure AD, Conditional Access, MFA, SSO
- **MDM/MAM:** Microsoft Intune
- **Firewall and Perimeter Security:** Check Point Harmony, WAF/DDoS, IDS/IPS
- **Incident Response:** NIST 800-61, MITRE ATT&CK, root cause analysis, evidence gathering, containment
- **Scripting and Automation:** PowerShell, SOAR Logic Apps
- **Security Awareness Training** and penetration testing findings remediation
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer -- University of the Arts, London (UAL) *March 2025 -- Present*

- Lead engineering and operational management of CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) protecting the entire university estate; own platform configuration, policy tuning and alert response.
- Administer Microsoft Sentinel using KQL-based analytics rules, workbooks and SOAR automation workflows; manage log source onboarding and data collection rules.
- Operate Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI) and M365 Defender; investigate and respond to endpoint, identity and cloud security alerts at scale.
- Lead incident response (IR) activities aligned to NIST 800-61: detection, analysis, containment, eradication, recovery and post-incident review; develop and maintain IR playbooks.

- Manage vulnerability management lifecycle using Tenable.io, AppCheck and Pentera Breach and Attack Simulation; track and remediate findings from penetration tests and continuous BAS exercises.
- Administer BeyondTrust Privileged Access Management (PAM) to control and audit privileged account access across hybrid infrastructure.
- Manage Mimecast email security gateway: configure anti-phishing, anti-spoofing, secure messaging and data loss prevention policies.
- Administer Microsoft Entra ID, Azure AD, Conditional Access and MFA/SSO policies; manage Microsoft Intune for MDM and MAM across faculty and staff devices.
- Operate and maintain Check Point Harmony firewall, WAF/DDoS and IDS/IPS controls; oversee security certificate lifecycle management.
- Conduct proactive threat hunts using MITRE ATT&CK framework; deliver security awareness training to staff and faculty.
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

Cyber Security Analyst, Cyber Security and Identity -- University of the Arts, London (UAL)

March 2022 -- March 2025

- Led deployment and configuration of Microsoft Defender (MDE, MDI, M365 Defender) to an estate of 8,000 users; established detection policies and automated response workflows.
- Performed daily SIEM alert triage, investigation and escalation across Microsoft Sentinel and CrowdStrike Falcon NG-SIEM platforms.
- Conducted vulnerability assessments using Nessus and AppCheck; produced remediation reports and tracked closure of findings.
- Supported incident response activities: documented evidence, performed root cause analysis and contributed to post-incident reviews.
- Maintained Azure AD security posture; configured Conditional Access, MFA and role-based access control (RBAC) policies.
- Administered Mimecast email security, Intune MDM/MAM and BeyondTrust PAM environments.
- Contributed to Cyber Essentials Plus certification and internal ISO 27001 audit activities.
- Delivered phishing simulation campaigns and security awareness training programmes to 8,000+ users.
- Created and maintained SIEM detection rules, alert tuning documentation and incident response runbooks.

IT Engineer: Security, Quality and Infrastructure -- HICX Solutions Ltd (SaaS/FinTech)

February 2021 -- March 2022

- Managed IT security operations, infrastructure hardening and quality assurance within a Software as a Service (SaaS)/FinTech environment.
- Configured and maintained Microsoft 365 security controls, Azure AD, MFA, RBAC and MDM/MAM policies via Microsoft Intune.
- Monitored and investigated security events; escalated confirmed incidents per defined IR procedures and contributed to remediation.
- Conducted vulnerability scanning and tracked remediation of findings from internal assessments and penetration tests.
- Managed email security gateway configuration and endpoint protection policies; ensured all systems met defined security baselines.
- Supported security awareness training delivery and policy development activities.

KEY ACHIEVEMENTS

- Expert operational ownership of CrowdStrike Falcon (EDR, NG-SIEM) protecting 8,000+ endpoints across a complex hybrid university environment; reduced false positive alert volume through precision policy and detection tuning.
- Led end-to-end deployment of Microsoft Defender (MDE, MDI, M365 Defender) for an 8,000-user estate, achieving enterprise-grade endpoint, identity and cloud threat protection.

- Implemented Pentera Breach and Attack Simulation programme, enabling continuous automated security validation and closing MITRE ATT&CK coverage gaps identified through threat hunting.
- Deployed and operationalised BeyondTrust Privileged Access Management platform, significantly reducing privileged account exposure and meeting internal audit requirements.
- Achieved Cyber Essentials Plus certification and led security framework compliance activities aligned to NIST CSF and ISO 27001 controls.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
