

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | Hybrid London

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience securing complex enterprise environments. I specialise in administering and optimising Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, managing Endpoint Detection and Response (EDR) tools including CrowdStrike Falcon, and delivering robust Privileged Access Management (PAM), vulnerability management, and Identity and Access Management (IAM) programmes. In my current role at the University of the Arts London (UAL), I have deployed and managed CrowdStrike Falcon across an 8,000-user environment, triaged and responded to SIEM alerts, conducted threat hunting, and remediated vulnerability findings including penetration test outcomes. I am highly experienced in email gateway security via Mimecast, Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Intune, Multi-Factor Authentication (MFA) and Single Sign-On (SSO), Intrusion Detection and Prevention Systems (IDS/IPS), and cloud identity via Microsoft Entra ID and Azure Active Directory (Azure AD). I bring strong communication skills and a meticulous, proactive approach to protecting critical infrastructure in both financial and regulated environments.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) - Expert; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 (M365) Defender - Strong
- **SIEM/SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL), SOAR automation and playbook development - Strong
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (Azure AD), Conditional Access, MFA, SSO, Group Policy - Strong
- **Privileged Access Management (PAM):** BeyondTrust - Strong
- **Email and Web Security:** Mimecast - Experienced; IDS/IPS, WAF/DDoS awareness
- **Endpoint and Device Management:** Microsoft Intune (MDM/MAM), Tanium - Experienced
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS) - Strong
- **Firewall and Network Security:** Check Point Harmony - Experienced; Palo Alto awareness
- **Scripting and Automation:** PowerShell - Strong; KQL - Strong
- **Frameworks:** NIST 800-61, MITRE ATT&CK, NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Manage and optimise CrowdStrike Falcon Endpoint Detection and Response (EDR) across an 8,000-user enterprise, maintaining prevention policies, detection rules, and response playbooks
- Lead Security Information and Event Management (SIEM) alert triage and investigation using CrowdStrike Falcon NG-SIEM and Microsoft Sentinel with Kusto Query Language (KQL), improving detection coverage and reducing false positive rates
- Administer Security Orchestration, Automation and Response (SOAR) workflows and playbooks, automating repetitive triage tasks and accelerating incident resolution
- Oversee BeyondTrust Privileged Access Management (PAM), managing privileged account lifecycle, access reviews, and least-privilege enforcement across the estate
- Conduct vulnerability assessments using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), prioritising findings by risk and tracking remediation to closure
- Remediate penetration test findings, working with infrastructure and development teams to close identified gaps and validate fixes

- Administer Mimecast email gateway, responding to phishing campaigns, malware attachments, and email-borne threats
- Manage Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM) policies across Windows, iOS, and Android endpoints
- Implement and maintain Microsoft Entra ID / Azure Active Directory (Azure AD) Conditional Access policies, MFA, SSO, and Privileged Identity Management (PIM)
- Monitor Intrusion Detection and Prevention System (IDS/IPS) alerts and contribute to firewall rule reviews and network segmentation improvements
- Deliver security awareness training and phishing simulation campaigns to a user base of 8,000
- Manage and investigate Tier 3 security incidents end-to-end following NIST 800-61 incident response procedures
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

University of the Arts, London (UAL) — Cyber Security Analyst, Cyber Security and Identity *March 2022 – March 2025*

- Triaged and investigated security alerts across SIEM and EDR platforms including CrowdStrike Falcon, Microsoft Defender for Endpoint (MDE), and Microsoft Defender for Identity (MDI)
- Supported vulnerability management operations including Nessus scanning, report generation, and remediation tracking across enterprise systems
- Administered Microsoft Entra ID / Azure AD identity controls, Conditional Access policies, and MFA roll-out across the organisation
- Contributed to IDS/IPS monitoring, firewall rule reviews, and network threat analysis
- Supported full incident response lifecycle including triage, containment, eradication, recovery, and root cause analysis documentation
- Administered Mimecast email security platform and managed email-borne threat investigations
- Managed Microsoft Intune MDM and MAM policies for devices across the institution
- Contributed to security awareness training campaigns and phishing simulations

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure *February 2021 – March 2022*

- Deployed and maintained endpoint security controls, network firewalls, VPN, and identity management platforms within a SaaS/FinTech environment
- Managed MDM/MAM configuration and certificate lifecycle management for cloud and on-premises systems
- Supported vulnerability scanning and compliance reporting activities
- Contributed to infrastructure hardening, security policy enforcement, and security certificate management
- Delivered security incident triage and escalation support for a regulated cloud environment

KEY ACHIEVEMENTS

- Deployed and managed CrowdStrike Falcon EDR across an 8,000-user enterprise, significantly improving endpoint visibility, threat detection, and response capability at scale
- Reduced mean time to respond (MTTR) to security incidents by designing and deploying SOAR automation playbooks within CrowdStrike Falcon and Microsoft Sentinel
- Led a full Breach and Attack Simulation (BAS) programme using Pentera, identifying and remediating critical attack paths before they could be exploited
- Delivered the BeyondTrust PAM deployment, replacing unmanaged privileged accounts and achieving full privileged account visibility and lifecycle governance
- Supported ISO 27001 and Cyber Essentials Plus certification processes through evidence gathering, gap analysis, and technical control implementation
- Deployed MFA and Conditional Access policies in Microsoft Entra ID, eliminating legacy authentication flows and strengthening identity security across the estate

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
