

PROSPER AWUNI

Senior Microsoft Security Consultant | Microsoft Sentinel | Defender XDR | Entra ID | Remote

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of deep, hands-on experience implementing, managing, and optimising the Microsoft security stack across large enterprise environments. My expertise spans Microsoft Sentinel (Security Information and Event Management (SIEM) with Kusto Query Language (KQL)), Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft Defender XDR, Microsoft Entra ID and Azure Active Directory (Azure AD), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM), and security posture management. At the University of the Arts London (UAL), I have designed and delivered Microsoft security architectures across a hybrid 8,000-user environment, built detection analytics, automated response workflows, and guided the organisation to Cyber Essentials Plus certification. I am a confident communicator with experience translating security risk and technical complexity for stakeholders at all levels, and I am well-positioned to deliver transformational Microsoft security, compliance, identity, and management solutions for enterprise clients in a remote-first consulting role.

CORE SKILLS AND TECHNICAL STACK

- **Microsoft SIEM/SOAR:** Microsoft Sentinel (analytics rules, KQL, workbooks, automation playbooks, Logic Apps) - Strong; CrowdStrike Falcon NG-SIEM - Expert
- **Microsoft Defender XDR:** Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), Microsoft 365 (M365) Defender, Defender for Cloud - Strong
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (Azure AD), Conditional Access, MFA, SSO, Privileged Identity Management (PIM), Group Policy - Strong; 8,000-user deployment
- **Endpoint and Device Management:** Microsoft Intune (MDM/MAM) - Experienced; Tanium - Experienced
- **Threat Protection:** CrowdStrike Falcon EDR (Prevent, Insight, Discover) - Expert; Mimecast email security - Experienced
- **Privileged Access Management (PAM):** BeyondTrust - Strong
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS) - Strong
- **Scripting and Automation:** PowerShell - Strong; KQL - Strong
- **Security Frameworks:** NIST CSF, NIST 800-61, CIS Controls, ISO 27001, Cyber Essentials+, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Design and deliver Microsoft Sentinel Security Information and Event Management (SIEM) analytics rules, Kusto Query Language (KQL) detection queries, workbooks, and Logic Apps automation playbooks across a complex hybrid enterprise environment
- Administer and optimise Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), and Microsoft 365 (M365) Defender to protect a hybrid 8,000-user environment, centralising Extended Detection and Response (XDR) visibility
- Manage Microsoft Entra ID / Azure Active Directory (Azure AD) Conditional Access policies, MFA, SSO, and Privileged Identity Management (PIM), significantly reducing the organisation's identity attack surface
- Administer Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM) policies across Windows, iOS, and Android fleets
- Lead security architecture reviews and recommend improvements to identity, endpoint, cloud, and email security controls for stakeholders across IT and senior leadership

- Conduct threat hunting and incident investigations using MITRE ATT&CK framework, Microsoft Sentinel, and CrowdStrike Falcon
- Manage BeyondTrust Privileged Access Management (PAM) and implement least-privilege access governance
- Oversee vulnerability management using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), driving risk-based remediation
- Support ISO 27001 and Cyber Essentials Plus compliance, translating framework controls into technical security configurations
- Deliver security awareness training and phishing simulation campaigns across the organisation
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

University of the Arts, London (UAL) — Cyber Security Analyst, Cyber Security and Identity *March 2022 – March 2025*

- Built and managed Microsoft Sentinel analytics rules, automation playbooks, and workbooks, improving detection coverage and alert fidelity across the hybrid estate
- Monitored and investigated alerts across Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), and Microsoft 365 (M365) security centre
- Configured and maintained Azure Active Directory (Azure AD) / Entra ID Conditional Access policies, MFA, and identity governance controls
- Administered Microsoft Intune MDM and MAM configuration, compliance policies, and application deployment
- Tracked and actioned Microsoft Secure Score recommendations, improving the organisation's Microsoft security posture
- Supported incident response activities including triage, investigation, containment, eradication, and root cause analysis
- Contributed to security architecture documentation and the development of security standards and procedures

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure *February 2021 – March 2022*

- Configured and maintained endpoint security, Microsoft 365 security settings, and Azure Active Directory (Azure AD) identity management within a SaaS/FinTech cloud environment
- Managed MDM and MAM configuration, certificate lifecycle, and VPN infrastructure
- Supported vulnerability scanning, compliance reporting, and infrastructure security hardening
- Assisted in security incidents, change management, and policy enforcement across cloud and on-premises systems

KEY ACHIEVEMENTS

- Designed and deployed Microsoft Sentinel detection rules and Security Orchestration, Automation and Response (SOAR) playbooks across a hybrid 8,000-user environment, measurably improving mean time to detect (MTTD) and mean time to respond (MTTR)
- Deployed Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), and M365 Defender across the full UAL estate, achieving centralised XDR visibility and replacing fragmented point tools
- Implemented Conditional Access and MFA policies in Microsoft Entra ID, eliminating legacy authentication flows across the organisation and reducing identity-based risk
- Delivered a full Breach and Attack Simulation (BAS) programme using Pentera, validating Microsoft Defender detection coverage and remediating identified gaps before exploitation
- Led the BeyondTrust Privileged Access Management (PAM) deployment, achieving full privileged account lifecycle governance and eliminating unmanaged administrative credentials
- Supported ISO 27001 and Cyber Essentials Plus certification through gap analysis, technical control implementation, and audit evidence preparation

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
