

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | Endpoint, Identity and Network Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am an accomplished Senior Cyber Security Engineer with more than five years of experience safeguarding complex enterprise environments across endpoint, identity, email, network, and cloud domains. I hold the Certified Information Systems Security Professional (CISSP) certification and bring deep hands-on expertise in deploying and optimising CrowdStrike Falcon for Endpoint Detection and Response (EDR), managing Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, and administering core security controls including Web Application Firewalls (WAF), Privileged Access Management (PAM), Multi-Factor Authentication (MFA), Single Sign-On (SSO), and Mobile Device and Application Management (MDM/MAM). I am a collaborative technical leader equally at home triaging and investigating alerts, proactively hunting threats, driving vulnerability scanning and remediation, or delivering security awareness training to non-technical audiences.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Falcon Prevent, Falcon Insight, Falcon Discover, CrowdStrike NG-SIEM) - Expert
- **SIEM / SOAR:** Microsoft Sentinel, CrowdStrike NG-SIEM, alert triage, detection rule tuning, Kusto Query Language (KQL), automated response playbooks
- **Identity and Access Management (IAM):** Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, MFA, SSO, Group Policy
- **Endpoint and Mobile Management:** Microsoft Intune (MDM/MAM), Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI)
- **Privileged Access Management (PAM):** BeyondTrust
- **Email Security Gateway:** Mimecast - anti-phishing, URL rewriting, attachment sandboxing
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus
- **Firewall and Network Security:** Check Point Harmony, IDS/IPS, WAF/DDoS protection
- **Scripting and Automation:** PowerShell, SOAR workflow automation
- **Incident Response:** NIST 800-61 methodology, MITRE ATT&CK framework, threat hunting
- **Security Awareness:** Security awareness training design and delivery, phishing simulation campaigns
- **Frameworks:** NIST Cybersecurity Framework (NIST CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer

March 2025 - Present

University of the Arts, London (UAL)

- Lead administration and optimisation of CrowdStrike Falcon across the enterprise estate, leveraging Falcon Prevent, Falcon Insight (Extended Detection and Response - XDR), Falcon Discover, and CrowdStrike NG-SIEM to protect over eight thousand endpoints against advanced and persistent threats
- Manage SIEM and SOAR operations including daily alert triage, detection rule tuning, and threat correlation using Microsoft Sentinel and CrowdStrike NG-SIEM, reducing mean time to detect (MTTD) and mean time to respond (MTTR) across the security function
- Administer Mimecast as the organisation's primary email security gateway, configuring anti-phishing, URL rewriting, attachment sandboxing, and Data Loss Prevention (DLP) policies
- Manage WAF, DDoS protection, IDS/IPS, and firewall policies via Check Point Harmony, maintaining network perimeter and boundary security

- Oversee BeyondTrust PAM for just-in-time privileged access governance across IT staff and third-party supplier accounts, enforcing least-privilege access principles
- Administer Microsoft Entra ID (formerly Azure Active Directory), Conditional Access policies, MFA, and SSO configurations for over eight thousand user identities
- Manage Microsoft Intune MDM/MAM deployment, ensuring mobile and endpoint device compliance and enforcing application management controls
- Conduct regular vulnerability assessments using Tenable.io, Pentera BAS, AppCheck, and Nessus, producing risk-prioritised remediation reports and coordinating remediation with infrastructure and application teams
- Design and deliver security awareness training and phishing simulation campaigns, building human-layer security culture across the organisation
- Write PowerShell automation scripts to streamline repetitive security operations and reporting tasks
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

University of the Arts, London (UAL)

- Deployed and configured CrowdStrike Falcon EDR across eight thousand-plus endpoints, establishing the enterprise's primary endpoint detection and prevention capability
- Onboarded and tuned Microsoft Sentinel SIEM/SOAR from initial deployment through to production operations, writing KQL analytics rules and building automated response playbooks aligned to MITRE ATT&CK tactics
- Managed Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender across the full estate, centralising Extended Detection and Response (XDR) alerting
- Administered BeyondTrust PAM platform, governing privileged account lifecycle and enforcing zero standing privilege policies
- Operated Mimecast email security gateway, tuning inbound threat filtering, DLP controls, and end-user quarantine workflows
- Conducted regular vulnerability scanning and remediation tracking using Tenable.io and Nessus, producing risk-prioritised reports for senior stakeholders
- Supported incident response processes in line with the NIST 800-61 Computer Security Incident Handling Guide, documenting lessons learned and driving post-incident improvements
- Managed Microsoft Intune MDM/MAM rollout and ongoing device compliance policy enforcement across mobile and endpoint estate

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (SaaS/FinTech)

- Implemented and maintained security controls across a SaaS/FinTech infrastructure environment covering endpoint security, network segmentation, and Identity and Access Management (IAM)
- Administered MFA enforcement, SSO configurations, and access governance policies to secure developer and customer-facing systems
- Supported vulnerability assessment activities and coordinated remediation of identified security weaknesses across cloud and on-premises systems
- Assisted in design and delivery of security awareness programmes, promoting a security-first culture across engineering and operations teams
- Contributed to ISO 27001 audit readiness activities, maintaining security controls documentation and evidence packs

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR across eight thousand-plus endpoints at UAL, achieving full endpoint visibility and significantly reducing critical alert dwell time

- Engineered and onboarded Microsoft Sentinel SIEM/SOAR from initial setup through to production, delivering custom KQL detection rules and automated SOAR playbooks aligned to the MITRE ATT&CK framework
- Deployed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across eight thousand users, centralising XDR alerting within the Microsoft 365 Defender console
- Implemented BeyondTrust PAM to govern all privileged access across the IT estate, eliminating shared administrative credentials and enforcing zero standing privilege
- Managed end-to-end vulnerability management lifecycle using Tenable.io, Pentera BAS, AppCheck, and Nessus, reducing critical and high vulnerability exposure through tracked remediation to closure
- Delivered security awareness training and phishing simulation programme, measurably reducing simulated phishing click-through rates across the organisation

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
