

PROSPER AWUNI

Senior Security Professional | CrowdStrike Falcon | SIEM/SOAR | Endpoint Protection | Identity & Access Management | CISSP

London Area, United Kingdom (Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a CISSP-certified Senior Security Professional with over five years of broad, hands-on experience across the full spectrum of enterprise cyber security operations — from endpoint protection and SIEM/SOAR operations to identity governance, vulnerability management and incident response. I have built and maintained security controls across complex hybrid environments at a major London institution, operating daily across CrowdStrike Falcon, Microsoft Defender, Microsoft Sentinel, Mimecast, BeyondTrust PAM and Microsoft Intune. I am comfortable operating both as a technical individual contributor and as a cross-functional collaborator, having worked closely with IT infrastructure teams, senior leadership and external penetration testers. I bring a structured, risk-aware approach to security operations and am equally confident providing strategic recommendations to leadership as I am deep in a forensic investigation. I am seeking a Security Professional role at Webologix Ltd where I can apply my breadth of operational security experience in a fast-paced London hybrid environment.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR/XDR):** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM), Microsoft Defender for Endpoint (MDE), proactive threat hunting
- **SIEM/SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (KQL), Splunk (SPL); SOAR playbook automation; automated alert triage and incident escalation
- **Identity and Access Management (IAM):** Entra ID / Azure Active Directory, Conditional Access, MFA, SSO; Zero Trust architecture
- **Privileged Access Management (PAM):** BeyondTrust; least-privilege enforcement; privileged account governance
- **Email Security:** Mimecast (anti-phishing, anti-spoofing, URL rewriting, DLP)
- **MDM/MAM and Endpoint Compliance:** Microsoft Intune; device compliance policy management
- **Vulnerability Management:** Tenable.io, Pentera BAS, AppCheck, Nessus; CVSS-based risk prioritisation and remediation tracking
- **Incident Response:** NIST 800-61; MITRE ATT&CK; full lifecycle IR including forensic investigation, containment, recovery and post-incident review
- **Network and Perimeter Security:** Check Point Harmony, Tanium, IDS/IPS, certificate lifecycle management
- **Security Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus
- **Scripting and Automation:** PowerShell; SOAR playbook development

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 to Present

Senior Cyber Security Analyst / Engineer

- Manage and optimise CrowdStrike Falcon EDR across an 8,000-endpoint environment, configuring detection policies, performing proactive threat hunting and maintaining optimal coverage across the full endpoint estate.
- Lead SIEM/SOAR operations across CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, triaging and investigating security events and building automated playbooks that reduce manual workload and accelerate response.
- Administer Mimecast email security, managing anti-phishing, anti-spoofing, URL rewriting and DLP policies to protect the institution against email-borne threats.
- Manage BeyondTrust PAM, enforcing least-privilege access across all privileged accounts to reduce the organisation's privileged attack surface.

- Maintain Microsoft Intune MDM/MAM configuration, enforcing device compliance policies across mobile and endpoint devices.
- Deploy and manage Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender across 8,000 users, providing unified cross-domain threat protection.
- Conduct vulnerability management using Tenable.io, Pentra BAS and AppCheck, translating scan outputs into prioritised, business-risk-aligned remediation plans.
- Configure Entra ID Conditional Access and MFA/SSO policies, enforcing Zero Trust controls across cloud and on-premises applications.
- Lead incident response in line with NIST 800-61 and MITRE ATT&CK, coordinating response efforts and producing executive briefings for senior leadership.
- Deliver phishing simulation campaigns and security awareness training, reducing user susceptibility to social engineering attacks.
- Remediate penetration test findings and lead security improvement initiatives in collaboration with infrastructure and senior leadership teams.
- Leverage Tanium for real-time endpoint compliance monitoring and vulnerability management, using asset discovery, software inventory and patch compliance modules to maintain accurate endpoint visibility and enforce compliance baselines across the estate.

University of the Arts, London (UAL)

March 2022 to March 2025

Cyber Security Analyst, Cyber Security and Identity

- Performed daily alert triage and monitoring across SIEM, EDR and email platforms, applying structured investigation and escalation procedures aligned to SLAs.
- Supported CrowdStrike Falcon EDR deployment and policy management across the university endpoint estate.
- Developed incident response playbooks and runbooks aligned to NIST 800-61 and MITRE ATT&CK.
- Conducted vulnerability scanning and remediation tracking with Tenable.io and Nessus, reporting compliance posture to senior management.
- Managed Entra ID / Azure AD identity lifecycle, Conditional Access policies and MFA configuration.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 to March 2022

IT Engineer: Security, Quality and Infrastructure

- Administered endpoint security, email security and IAM across a cloud-first SaaS/FinTech environment, supporting security operations across cloud and on-premises workloads.
- Supported vulnerability management and security risk assessments, contributing findings to the security risk register.

KEY ACHIEVEMENTS

- Achieved full CrowdStrike Falcon EDR deployment and policy optimisation across 8,000 endpoints at UAL, reducing malware dwell time and improving MTTD.
- Implemented BeyondTrust PAM to enforce least-privilege access, materially reducing the privileged attack surface across the organisation.
- Delivered SOAR playbooks in CrowdStrike Falcon and Microsoft Sentinel, eliminating manual triage for high-volume alert categories.
- Deployed unified Microsoft Defender suite across an 8,000-user estate for cross-domain endpoint, identity and cloud threat protection.
- Reduced phishing click rates through security awareness campaigns and simulated phishing exercises.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)

- CompTIA A+
- Google IT Support Professional Certificate
