

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | PAM | Financial Services

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience protecting large, complex environments. I have deep expertise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations, Privileged Access Management (PAM), and vulnerability management. My background spans deploying and managing layered security controls across firewalls, web and email security gateways, Web Application Firewalls (WAF), Multi-Factor Authentication (MFA) and Single Sign-On (SSO) platforms, Mobile Device Management (MDM) and Mobile Application Management (MAM), and Identity and Access Management (IAM) using Microsoft Entra ID and Azure Active Directory (Azure AD). I have a track record of remediating penetration test findings, delivering security awareness training, and driving incident response in line with established frameworks. I am seeking a senior engineering role within a close-knit security team where I can apply my technical breadth to protect a fast-paced financial services environment.

CORE SKILLS AND TECHNICAL STACK

- **EDR and SIEM/SOAR:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) - Expert; Microsoft Sentinel with Kusto Query Language (KQL); SOAR playbook development and alert triage automation
- **Email and Web Security:** Mimecast email security gateway; Web Application Firewall (WAF) management; DDoS protection controls
- **Identity and Access Management:** Microsoft Entra ID / Azure Active Directory (Azure AD); Conditional Access policies; MFA/SSO configuration; BeyondTrust Privileged Access Management (PAM)
- **Endpoint and Device Management:** Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM); endpoint hardening across 8,000+ user estate
- **Vulnerability Management:** Tenable.io, AppCheck, Nessus; Pentera Breach and Attack Simulation (BAS); penetration test finding remediation
- **Firewall and Network Security:** Check Point Harmony firewall; Intrusion Detection System/Intrusion Prevention System (IDS/IPS) management; network segmentation
- **Microsoft Defender Suite:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Security Frameworks:** NIST 800-61 Incident Response, MITRE ATT&CK, NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials+
- **Scripting and Automation:** PowerShell scripting; SOAR automation; security certificate management
- **Security Awareness:** Designing and delivering staff security awareness training programmes

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Lead the operation and continuous improvement of CrowdStrike Falcon EDR across the university's endpoint estate, managing alert triage, threat hunting, and EDR policy tuning to reduce false positives and improve detection fidelity
- Administer SIEM/SOAR operations using Microsoft Sentinel with KQL-based detection rules, automated playbooks, and SOAR-driven response workflows to reduce mean time to respond
- Manage web and email security gateway controls including Mimecast, enforcing anti-phishing, anti-malware, and Data Loss Prevention (DLP) policies at scale
- Oversee MDM/MAM controls via Microsoft Intune, enforcing device compliance, conditional access, and mobile application policies across staff and student endpoints

- Administer BeyondTrust PAM to control, monitor, and audit privileged access across administrative accounts and critical infrastructure
- Conduct vulnerability management cycles using Tenable.io, AppCheck, and Nessus, coordinating penetration test remediation across business and technology teams
- Manage MFA/SSO controls through Microsoft Entra ID and Azure AD, configuring Conditional Access policies and enforcing Zero Trust principles across the hybrid estate
- Maintain IDS/IPS and firewall rule sets in collaboration with network teams, reviewing and remediating findings from internal and external security assessments
- Design and deliver staff security awareness training programmes, reducing phishing susceptibility across departments
- Contribute to incident response activities aligned with NIST 800-61, leading triage, containment, and post-incident review for security events

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Deployed and configured CrowdStrike Falcon across the UAL endpoint fleet, building detection policies, Indicator of Attack (IoA) rules, and response playbooks
- Managed day-to-day SIEM operations, monitoring dashboards, triaging alerts, and escalating incidents in line with defined runbooks and response timelines
- Supported the deployment of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across an 8,000-user Microsoft 365 environment
- Administered Mimecast email security, configuring anti-spoofing, URL rewriting, and attachment sandboxing controls to protect against phishing and malware campaigns
- Performed vulnerability scanning using Tenable.io and Nessus, prioritising findings by exploitability and business impact, and tracking remediation to closure
- Supported MFA rollout and SSO configuration via Microsoft Entra ID, helping migrate legacy authentication to modern identity standards
- Developed PowerShell automation scripts to streamline routine security operations tasks, reducing manual effort and improving consistency
- Maintained PAM policies and access reviews using BeyondTrust, enforcing least-privilege principles across privileged accounts
- Supported Cyber Essentials+ certification activities, compiling evidence and remediating control gaps

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Implemented and maintained security controls across the company's SaaS infrastructure, supporting firewall rule management, endpoint protection, and access control policies
- Administered MDM policies and endpoint security tooling, ensuring all company devices met minimum security baselines
- Supported vulnerability identification and remediation activities, working with engineering teams to apply patches and address configuration weaknesses
- Assisted with MFA implementation and user provisioning/deprovisioning workflows, reducing the risk of unauthorised access
- Contributed to security awareness initiatives and delivered user guidance on phishing and social engineering threats

KEY ACHIEVEMENTS

- Led CrowdStrike Falcon EDR deployment and tuning across a complex multi-site environment, achieving measurable improvements in alert fidelity and reducing security analyst workload through automated response
- Deployed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across an 8,000-user estate, delivering unified endpoint and identity threat detection under a single Microsoft 365 Defender platform
- Designed and automated SOAR playbooks in Microsoft Sentinel, reducing mean time to respond (MTTR) for high-priority security incidents by streamlining triage and containment workflows

- Delivered Cyber Essentials+ certification for UAL, coordinating evidence gathering and control remediation across IT and business teams
- Implemented Pentera Breach and Attack Simulation (BAS) to continuously validate security controls, enabling proactive identification and remediation of exploitable weaknesses before attackers could leverage them
- Developed PowerShell scripts to automate routine security operations tasks, reducing manual workload and improving operational consistency across the security team

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
