PROSPER AWUNI

Senior Security Operations Centre (SOC) Analyst | L3 Threat Detection, Incident Response and SIEM Engineering

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Security Operations Centre (SOC) Analyst operating at Level 3 (L3), with over five years of experience across threat detection, Security Information and Event Management (SIEM) engineering, and end-to-end Incident Response (IR). I bring expert-level hands-on proficiency with CrowdStrike Falcon (including NG-SIEM, Endpoint Detection and Response (EDR), Insight threat hunting and Prevent) and strong capability in Microsoft Sentinel with Kusto Query Language (KQL), Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI). My background spans enterprise-scale SOC operations in complex hybrid environments, detection engineering aligned to the MITRE ATT&CK framework, and IR lifecycle management following the National Institute of Standards and Technology (NIST) 800-61 standard. I am seeking a senior L3 SOC analyst position in the financial services sector where I can apply deep technical expertise to advance detection capability and lead complex investigations.

CORE SKILLS AND TECHNICAL STACK

- **SIEM and Detection Engineering:** CrowdStrike Falcon NG-SIEM (Expert); Microsoft Sentinel with Kusto Query Language (KQL); Splunk / Security Processing Language (SPL); MITRE ATT&CK-aligned detection rule development; custom alert logic and correlation tuning
- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon Prevent, Insight, Discover; Microsoft Defender for Endpoint (MDE); real-time threat hunting and behavioural analysis
- **Incident Response:** NIST 800-61 IR lifecycle (preparation, detection, containment, eradication, recovery, post-incident review); root-cause analysis; stakeholder reporting; playbook development
- **Threat Hunting:** Proactive hunting using CrowdStrike Falcon Insight and Microsoft Sentinel; adversary TTP (Tactics, Techniques and Procedures) identification; MITRE ATT&CK Navigator mapping
- **Identity and Access:** Azure Active Directory (Entra ID); Conditional Access; Multi-Factor Authentication (MFA); BeyondTrust Privileged Access Management (PAM)
- **Vulnerability Management:** Pentera Breach and Attack Simulation (BAS); Tenable.io; AppCheck; Nessus
- **Security Tooling:** Microsoft 365 Defender; Microsoft Defender for Identity (MDI); Mimecast; Tanium; Check Point Harmony; Microsoft Intune
- **Automation and Scripting:** PowerShell; Security Orchestration, Automation and Response (SOAR) playbook development
- **Frameworks:** NIST Cybersecurity Framework (CSF); CIS Controls; ISO 27001; Cyber Essentials Plus; MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) *March 2025 - Present*

Senior Cyber Security Analyst / Engineer

- Function as the L3 escalation point for complex Security Operations Centre (SOC) investigations, providing expert-level triage, analysis and decisive response actions across the SIEM, EDR and identity stack.
- Engineer and maintain detection content in CrowdStrike Falcon NG-SIEM and Microsoft Sentinel using Kusto Query Language (KQL), developing correlation rules and custom analytics aligned to the MITRE ATT&CK framework to maximise threat coverage.
- Lead proactive threat hunting operations using CrowdStrike Falcon Insight and Microsoft Sentinel, identifying latent adversary activity and translating findings into new detection logic to harden the security posture.
- Manage the full Incident Response (IR) lifecycle for high-severity events following NIST 800-61: triage, containment, forensic investigation, eradication, recovery and post-incident review with documented lessons-learned outcomes.
- Operate Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI) and Microsoft 365 Defender, performing deep-dive investigations into endpoint, identity and email threat alerts.
- Oversee BeyondTrust Privileged Access Management (PAM), ensuring privileged account controls are enforced and audit trails support forensic investigations.

- Develop and maintain SOAR automation playbooks to accelerate routine response actions, reducing analyst workload and improving consistency of containment activities.
- Produce concise, accurate incident reports and security metrics for senior stakeholders, communicating technical findings in accessible business language.

University of the Arts, London (UAL) *March 2022 - March 2025*
Cyber Security Analyst, Cyber Security and Identity

- Performed L2 and L3 SOC operations: alert triage, investigation and escalation across CrowdStrike Falcon, Microsoft Sentinel and Microsoft Defender, handling a broad range of attack types including phishing, malware, lateral movement and credential compromise.
- Deployed and operationalised Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across an 8,000-user enterprise, including onboarding, policy configuration and ongoing alert investigation.
- Conducted threat hunting operations using CrowdStrike Falcon Insight, identifying indicators of compromise (IOCs) and adversary Tactics, Techniques and Procedures (TTPs) across the endpoint estate.
- Authored and tuned KQL-based detection rules in Microsoft Sentinel, reducing false-positive rates and improving signal fidelity for the SOC team.
- Managed vulnerability scanning cycles using Tenable.io and Nessus, performing risk-based triage of findings and coordinating remediation with infrastructure and operations teams.
- Automated recurring SOC tasks using PowerShell scripting, including automated indicator lookups, enrichment workflows and reporting.
- Supported the delivery of Azure Active Directory Conditional Access and Identity Protection policies, strengthening authentication controls and reducing identity-based attack surface.

HICX Solutions Ltd (SaaS/FinTech) *February 2021 - March 2022*
IT Engineer: Security, Quality and Infrastructure

- Delivered security engineering and operational support across the HICX SaaS and FinTech infrastructure, including EDR management, endpoint protection policy configuration and security event monitoring.
- Investigated security alerts and infrastructure anomalies, escalating confirmed incidents and maintaining documentation aligned to ISO 27001 requirements.
- Managed identity and access administration tasks, supporting the roll-out of Multi-Factor Authentication (MFA) and user access reviews across the corporate estate.
- Conducted security quality assurance reviews and contributed to the organisation's internal risk assessment programme.
- Provided third-line technical support for security infrastructure, including firewall policy queries, endpoint agent issues and access control troubleshooting.

KEY ACHIEVEMENTS

- Deployed Microsoft Defender for Endpoint (MDE) and Defender for Identity (MDI) across an 8,000-user estate at UAL, materially improving endpoint and identity threat coverage and reducing mean time to detect.
- Developed expert-level CrowdStrike Falcon NG-SIEM and Microsoft Sentinel detection content aligned to MITRE ATT&CK, improving SOC detection coverage and threat hunting efficiency.
- Led L3 Incident Response (IR) investigations using the NIST 800-61 framework, successfully containing and eradicating multiple high-severity incidents with full post-incident documentation.
- Implemented BeyondTrust Privileged Access Management (PAM) to enforce least-privilege controls, significantly reducing the organisation's privileged account attack surface.
- Built SOAR automation playbooks to reduce analyst repetitive workload, enabling the security team to scale response capacity without additional headcount.
- Conducted proactive threat hunting operations identifying previously undetected adversary activity, resulting in new detection rules and improved security posture.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)

- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
