

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM | EDR | Incident Response

United Kingdom (Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience protecting enterprise environments through Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR), and Security Orchestration, Automation and Response (SOAR). I have deep expertise in CrowdStrike Falcon across its full suite including Next-Generation SIEM (NG-SIEM), EDR, Prevent, Insight, and Discover, and I have designed and implemented security controls across multi-thousand-user environments. My background spans vulnerability management, firewall administration, email and web gateway security, Multi-Factor Authentication (MFA) and Single Sign-On (SSO) platforms, Mobile Device Management (MDM), and Privileged Access Management (PAM). I am experienced working in both structured Security Operations Centre (SOC) environments and as an embedded security engineer, and I bring strong skills in alert triage, incident response, penetration test remediation, and security awareness delivery. I thrive in fast-paced financial-services-adjacent and enterprise environments and am comfortable working directly with IT security officers and small, focused security teams.

CORE SKILLS AND TECHNICAL STACK

- **EDR and Endpoint Security:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) - Expert; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **SIEM and SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (KQL query development, alert rules, workbooks, playbooks), Splunk (SPL)
- **Email and Web Security:** Mimecast (email security gateway); web gateway and WAF/DDoS mitigation tooling
- **Identity, Access and MFA:** Microsoft Entra ID (formerly Azure Active Directory), Conditional Access policies, MFA enforcement, SSO federation, Group Policy; Microsoft Intune (MDM/MAM)
- **Privileged Access Management:** BeyondTrust PAM platform
- **Vulnerability Management:** Pentra Breach and Attack Simulation (BAS), Tenable.io, AppCheck, Nessus; vulnerability remediation programme management
- **Firewall and Network Security:** Check Point Harmony firewall, Intrusion Detection and Prevention Systems (IDS/IPS), network security monitoring
- **Incident Response and Threat Hunting:** NIST 800-61, MITRE ATT&CK framework, threat hunting, digital forensics, security incident lifecycle management
- **Compliance and Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Scripting and Automation:** PowerShell scripting, SOAR playbook automation, API integrations
- **Tanium:** Endpoint management and real-time threat response

PROFESSIONAL EXPERIENCE

Senior Cyber Security Engineer

March 2025 - Present

University of the Arts London (UAL) - London, UK

- Lead day-to-day security engineering operations across SIEM, EDR, SOAR, and endpoint security platforms serving an 8,000-user environment, including CrowdStrike Falcon NG-SIEM and Microsoft Defender suite.
- Manage CrowdStrike Falcon platform end-to-end including Prevent, Insight, Discover, EDR, and NG-SIEM modules; tune detection policies, respond to security alerts, and conduct proactive threat hunting.
- Administer Microsoft Sentinel (KQL-based alert rules, analytics, workbooks and SOAR playbooks) and Microsoft Defender for Endpoint, Identity, and Microsoft 365 to detect, investigate, and remediate security incidents.

- Oversee email and web security gateway administration including Mimecast configuration, anti-phishing policy tuning, and threat intelligence integration.
- Manage MFA, Conditional Access policies, SSO, and identity lifecycle within Microsoft Entra ID (formerly Azure Active Directory); enforce Zero Trust access principles.
- Administer BeyondTrust Privileged Access Management (PAM) platform; onboard privileged accounts, enforce least-privilege, and audit privileged sessions.
- Run vulnerability management programme using Tenable.io, AppCheck, and Nessus; manage remediation priorities and report to IT Security leadership.
- Conduct penetration test scoping, coordinate third-party testing engagements, and lead internal remediation of findings.
- Manage Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Intune across corporate and BYOD fleets.
- Deliver internal security awareness training and phishing simulation campaigns to raise organisational resilience.
- Respond to incidents following NIST 800-61 methodology; contain, eradicate, and recover from security events; produce post-incident reports.
- Contribute to security certificate lifecycle management (PKI, TLS) and administer Check Point Harmony firewall rules and IDS/IPS policies.

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

University of the Arts London (UAL) - London, UK

- Performed alert triage, investigation, and response across SIEM and EDR platforms in a structured SOC-style function, handling security events from ingestion through resolution.
- Deployed and managed CrowdStrike Falcon EDR across the 8,000-user endpoint estate; built detection policies, managed exclusions, and conducted threat hunting using Falcon Insight and Discover.
- Developed KQL queries and analytics rules in Microsoft Sentinel to improve detection coverage; maintained SOAR playbooks for automated alert triage and incident routing.
- Administered Microsoft Defender for Endpoint and Identity across the Microsoft 365 estate; tuned alert policies and remediated incidents end-to-end.
- Managed Mimecast configuration including anti-spam, DLP, and URL protection policies; investigated and blocked malicious email campaigns.
- Supported IAM operations within Microsoft Entra ID including Conditional Access, MFA rollout, and SSO federation with third-party applications.
- Conducted vulnerability scanning with Tenable.io and AppCheck; triaged findings, tracked remediation with asset owners, and reported risk posture to management.
- Administered Tanium for endpoint hygiene, patch compliance assessment, and real-time threat response.
- Contributed to Cyber Essentials Plus certification process, ISO 27001 controls review, and NIST CSF gap analysis.
- Responded to phishing, malware, and account compromise incidents; produced incident timelines and lessons-learned documentation.

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (SaaS/FinTech) - London, UK

- Managed end-to-end IT security, quality, and infrastructure operations for a SaaS/FinTech organisation, implementing security controls aligned with ISO 27001 and CIS benchmarks.
- Administered cloud identity and access management including MFA, SSO, and Active Directory/Azure AD policies for remote workforce.
- Maintained MDM/MAM policies for corporate device fleet; enforced security baselines and patch compliance using PowerShell automation.
- Supported vulnerability management and patch cadence; tracked and remediated findings across cloud and on-premises infrastructure.
- Responded to security incidents, produced incident reports, and contributed to security awareness training initiatives.

- Delivered infrastructure improvements, supported penetration test engagements, and contributed to quality management system (ISO 9001) activities.

KEY ACHIEVEMENTS

- Deployed and operationalised CrowdStrike Falcon across an 8,000-user enterprise, covering EDR, NG-SIEM, Prevent, Insight, and Discover modules, achieving full endpoint visibility and significantly reducing mean time to detect (MTTD).
- Implemented Microsoft Defender for Endpoint, Identity, and Microsoft 365 Defender across the full UAL estate, consolidating endpoint and identity threat detection into a unified Extended Detection and Response (XDR) platform.
- Built and tuned over 50 KQL analytics rules in Microsoft Sentinel, reducing alert noise by approximately 40% and improving SOC triage efficiency through automated SOAR playbooks.
- Led end-to-end Cyber Essentials Plus certification, driving remediation of all critical control gaps within an 8-week programme.
- Delivered vulnerability management programme via Pentera BAS, Tenable.io, and AppCheck; reduced critical/high finding backlog by over 60% within 12 months through targeted remediation prioritisation.
- Automated repetitive SOAR workflows using PowerShell and CrowdStrike APIs, reducing manual analyst time on routine triage tasks by an estimated 30%.
- Managed BeyondTrust PAM rollout for privileged account onboarding, reducing standing privileged access by enforcing just-in-time (JIT) provisioning across 200+ privileged accounts.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
