PROSPER AWUNI

Senior Cyber Security Engineer | SIEM/SOAR | EDR | Identity & Access Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience protecting enterprise environments through Security Information and Event Management (SIEM), Security Orchestration Automation and Response (SOAR), and Endpoint Detection and Response (EDR) operations. I specialise in alert triage, threat hunting, and incident response across large-scale Microsoft environments, and I hold the Certified Information Systems Security Professional (CISSP) certification. I have extensive experience with CrowdStrike Falcon, Microsoft Entra ID (formerly Azure Active Directory), Intune Mobile Device Management (MDM), and Mimecast email security. I am highly capable of operating within fast-paced financial services security teams and thrive when collaborating closely with IT operations and wider business stakeholders to reduce risk and respond to threats efficiently.

CORE SKILLS AND TECHNICAL STACK

- **SIEM/SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel, Splunk (Security Information and Event Management/Security Orchestration, Automation and Response)
- **EDR/XDR:** CrowdStrike Falcon Prevent, Insight, Discover; Microsoft Defender for Endpoint (MDE); Microsoft Defender for Identity (MDI)
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (Azure AD), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM)
- **Email Security:** Mimecast email security platform administration and policy management
- **Mobile Device Management (MDM):** Microsoft Intune (MDM/Mobile Application Management), Tanium endpoint management
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS)
- **Firewalls and Network Security:** Check Point Harmony firewall, WAF/DDoS protection, network security monitoring
- **Incident Response:** NIST 800-61 incident response lifecycle, MITRE ATT&CK framework, digital forensics, threat hunting
- **Scripting and Automation:** PowerShell scripting, SOAR playbook automation
- **Frameworks and Standards:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Cloud:** Microsoft Azure, Microsoft 365 (M365) security, cloud security architecture

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)
Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Lead SIEM/SOAR operations using CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, managing alert triage, investigation, and escalation across an 8,000-user estate.
- Conduct proactive threat hunting using CrowdStrike Falcon Insight and KQL-based queries in Microsoft Sentinel, identifying and containing advanced threats before escalation.
- Manage and optimise CrowdStrike Falcon EDR policies (Prevent, Discover, Insight) to strengthen endpoint protection and reduce attack surface.
- Administer Microsoft Entra ID (Azure AD) Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO) configurations to enforce Zero Trust principles.
- Oversee vulnerability management programme using Tenable.io, Nessus, and AppCheck, prioritising remediation based on risk scoring and business impact.
- Drive incident response activities following the NIST 800-61 framework, from detection and containment through to eradication, recovery, and post-incident review.
- Manage Mimecast email security platform, configuring policies to reduce phishing, impersonation, and malware threats.

- Maintain Intune MDM/Mobile Application Management (MAM) policies to ensure secure device enrolment and compliance across the user fleet.
- Develop and automate SOAR playbooks, reducing mean time to respond (MTTR) for common alert categories by 40 per cent.
- Engage in security risk assessments and governance activities aligned to ISO 27001, NIST Cybersecurity Framework (CSF), and Cyber Essentials Plus.

University of the Arts, London (UAL)
Cyber Security Analyst, Cyber Security and Identity *March 2022 - March 2025*

- Monitored SIEM/SOAR platforms (CrowdStrike Falcon NG-SIEM, Microsoft Sentinel) for security events, triaging and investigating alerts in line with defined runbooks.
- Supported the deployment and configuration of CrowdStrike Falcon across 8,000 endpoints, establishing EDR telemetry baselines and detection rules.
- Administered BeyondTrust Privileged Access Management (PAM) solution, managing privileged account lifecycle, session recording, and least-privilege access policies.
- Supported Microsoft Entra ID (Azure AD) administration including user lifecycle, Conditional Access policy management, and MFA rollout.
- Conducted regular vulnerability assessments using Tenable.io and AppCheck, reporting findings to technical and non-technical stakeholders.
- Contributed to incident response investigations, gathering forensic artefacts, mapping activity to MITRE ATT&CK tactics and techniques, and documenting lessons learned.
- Administered Mimecast email security, tuning policies to address evolving phishing and business email compromise (BEC) threats.
- Maintained Intune MDM/MAM policies and collaborated with the infrastructure team on endpoint compliance and patch management.
- Assisted with Check Point Harmony firewall rule reviews and network security monitoring tasks.

HICX Solutions Ltd (SaaS/FinTech)
IT Engineer: Security, Quality and Infrastructure *February 2021 - March 2022*

- Implemented and maintained security controls across cloud and on-premises infrastructure, including endpoint security, Identity and Access Management (IAM), and network security.
- Managed Microsoft Azure Active Directory (Azure AD) and MFA configurations to enforce access control policies across the SaaS platform.
- Administered Microsoft Intune MDM policies to secure company and Bring Your Own Device (BYOD) endpoints.
- Supported SIEM log ingestion and alert monitoring, responding to security events and escalating where required.
- Conducted vulnerability scans and assisted with patch management to maintain a reduced attack surface.
- Collaborated with development and quality assurance teams to embed security controls within the Software Development Lifecycle (SDLC).
- Contributed to ISO 27001 audit preparation and internal security policy documentation.

KEY ACHIEVEMENTS

- Led the full deployment and optimisation of CrowdStrike Falcon EDR across an 8,000-user university estate, achieving full endpoint visibility and a significant reduction in dwell time.
- Designed and implemented Microsoft Sentinel detection rules and SOAR automation playbooks that reduced alert triage time by 40 per cent.
- Deployed BeyondTrust Privileged Access Management (PAM) across the UAL environment, eliminating standing privileged access for over 200 administrative accounts.
- Achieved and maintained Cyber Essentials Plus certification, leading the technical remediation programme and cross-departmental stakeholder engagement.
- Delivered a comprehensive vulnerability management programme integrating Tenable.io and Pentera Breach and Attack Simulation (BAS), reducing critical vulnerabilities by 60 per cent within 12 months.
- Rolled out Multi-Factor Authentication (MFA) to all 8,000 users via Microsoft Entra ID Conditional Access, eliminating password-only authentication across the estate.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
