

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | EDR/XDR | Email Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) and Senior Cyber Security Engineer with over five years of hands-on experience securing enterprise environments. I specialise in managing and optimising CrowdStrike Falcon across its full platform suite, including Falcon Prevent, Falcon Endpoint Detection and Response (EDR), Falcon Insight, and Falcon Discover, alongside Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms. I have deep practical experience in EDR and Extended Detection and Response (XDR) alert triage and investigation, managing enterprise email and web security gateways including Mimecast, and delivering incident response across the full lifecycle in line with NIST 800-61. I bring a proven track record of operating effectively within lean, high-impact security teams, consistently improving detection, response, and remediation capabilities while maintaining robust control across complex enterprise estates.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (Prevent, EDR, Insight, NG-SIEM, Discover), Microsoft Defender for Endpoint (MDE), Rapid7 IDR
- **SIEM/SOAR:** Microsoft Sentinel (KQL), CrowdStrike Falcon NG-SIEM, SOAR playbook development and automation
- **Email and Web Security:** Mimecast, Menlo Security, Check Point Harmony (web filtering and DNS protection)
- **Firewalls and Network Security:** Check Point Harmony, Palo Alto, Cisco; WAF and DDoS protection (Imperva)
- **Incident Response:** NIST 800-61 lifecycle, MITRE ATT&CK framework, threat hunting, IOC analysis
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus
- **Identity and Access:** Azure Active Directory (Entra ID), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO)
- **PAM:** BeyondTrust Privileged Access Management (PAM)
- **MDM/UEM:** Microsoft Intune, Mobile Device Management (MDM), Mobile Application Management (MAM), Tanium
- **Microsoft Security:** Microsoft Defender for Identity (MDI), Microsoft Defender for M365, Microsoft Entra ID
- **Scripting and Automation:** PowerShell, KQL (Kusto Query Language)
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Lead the management and optimisation of CrowdStrike Falcon (Prevent, EDR, Insight, and Discover) across an enterprise estate of 8,000+ endpoints, ensuring comprehensive Endpoint Detection and Response coverage and high-fidelity alert triage across the full platform
- Administer and tune Mimecast enterprise email security gateway, configuring advanced anti-phishing, impersonation protection, and malware sandboxing policies to reduce email-borne threats across the organisation
- Manage and operate SIEM platforms including Microsoft Sentinel and CrowdStrike NG-SIEM, developing Kusto Query Language (KQL) detection rules and threat hunting queries to surface adversary activity
- Oversee SOAR playbook development and automation to streamline repetitive alert handling, reducing mean time to respond (MTTR) across the security operations function

- Administer enterprise firewall solutions (Check Point Harmony) and manage web filtering, DNS protection, and network security controls aligned to organisational policy
- Lead EDR and XDR alert response and investigation workflows, triaging CrowdStrike Falcon and Microsoft Defender detections, conducting root-cause analysis, and coordinating remediation across IT teams
- Drive incident response activities across the full NIST 800-61 lifecycle, from initial detection and containment through eradication, recovery, and post-incident review
- Manage BeyondTrust Privileged Access Management (PAM) to enforce least-privilege principles and audit privileged account activity across the enterprise
- Administer vulnerability management programmes using Tenable.io, Pentra BAS, and AppCheck, prioritising remediation based on risk exposure and threat intelligence

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Administered and tuned CrowdStrike Falcon EDR and Prevent policies across 8,000 endpoints, delivering consistent detection analysis and response workflows and supporting security operations maturity
- Deployed and managed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000 users, significantly improving the organisation's endpoint and identity threat detection posture
- Administered Mimecast email security, applying threat-informed policy tuning to block advanced phishing campaigns, business email compromise (BEC) attempts, and malware delivery
- Managed Check Point Harmony firewall and web security gateway, maintaining access control rules and ensuring web filtering aligned to security policy
- Delivered Level 2/3 Security Operations Centre (SOC) alert triage and investigation across SIEM and SOAR platforms, reducing false positive rates and improving detection fidelity
- Conducted threat hunts using CrowdStrike Falcon Insight and Microsoft Sentinel KQL queries, proactively identifying indicators of compromise (IoCs) and previously undetected intrusion attempts
- Administered Azure Active Directory (Entra ID) including Conditional Access policies, MFA rollout for the full user base, and SSO configuration across corporate applications
- Managed Microsoft Intune MDM and MAM policies to enforce endpoint compliance across managed and unmanaged devices
- Contributed to incident response exercises and live IR events, supporting containment and recovery in line with NIST 800-61 procedures and documenting lessons learned

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Engineered and maintained security controls across a SaaS/FinTech environment, including firewall rule management, endpoint protection, and email gateway configuration
- Administered email security and web security gateways, applying threat-informed configurations to mitigate phishing, malware, and data loss risks
- Managed endpoint protection and EDR/XDR tooling, administering policies and investigating alerts through to resolution
- Implemented identity and access management controls including MFA and Privileged Access Management (PAM) policies across the organisation
- Conducted vulnerability assessments and produced risk-based remediation reports, communicating findings to IT and infrastructure teams
- Supported cloud security operations within a hybrid on-premises and cloud environment, contributing to security control improvements and compliance activities

KEY ACHIEVEMENTS

- Led the enterprise-wide deployment and operationalisation of CrowdStrike Falcon (Prevent, EDR, Insight, Discover) across 8,000+ endpoints at UAL, establishing comprehensive EDR and XDR alert response workflows and measurably reducing attacker dwell time
- Delivered the Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) deployment across an 8,000-user environment, improving mean time to detect (MTTD) for endpoint and identity-based threats

- Developed SOAR automation playbooks that reduced manual alert handling time significantly, allowing the security team to focus on higher-complexity investigations
- Tuned Mimecast email security gateway policies that blocked advanced phishing and business email compromise (BEC) campaigns targeting the organisation, achieving a measurable reduction in successful email-borne attacks
- Designed and implemented KQL detection rules in Microsoft Sentinel aligned to MITRE ATT&CK, expanding detection coverage across endpoint, identity, and cloud telemetry sources
- Managed BeyondTrust PAM deployment to enforce least-privilege access across privileged accounts, reducing the organisation's attack surface and improving audit trail capability

EDUCATION

- **M.Sc.** Environmental and Resource Engineering
- **B.Sc.** Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
