

PROSPER AWUNI

Senior Cyber Security Engineer | Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR) and Infrastructure Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of hands-on experience delivering robust, enterprise-grade cyber security across complex, multi-site environments. I bring deep technical expertise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Microsoft Sentinel Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR) platforms, and identity security through Microsoft Entra ID and Conditional Access. In my current role, I serve as the primary technical authority for a security function protecting over 8,000 users, owning everything from threat detection and incident response to vulnerability management and infrastructure hardening. I am highly effective at operating in lean, high-impact teams where individual ownership matters, and I thrive in environments that demand both hands-on engineering and clear reporting to senior stakeholders.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR) and Next-Generation SIEM:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) - Expert level; Microsoft Sentinel with Kusto Query Language (KQL) - Strong
- **Security Orchestration, Automation and Response (SOAR) and Detection Engineering:** SOAR automation, detection rule development, alert triage, threat hunting using MITRE ATT&CK framework
- **Threat Detection and Incident Response:** End-to-end incident lifecycle management aligned to National Institute of Standards and Technology (NIST) 800-61; forensic investigation and root cause analysis
- **Identity and Access Management (IAM):** Microsoft Entra ID, Entra Connect, Conditional Access policies, Multi-Factor Authentication (MFA), Single Sign-On (SSO); BeyondTrust Privileged Access Management (PAM)
- **Email and Web Security Gateways:** Mimecast - Experienced; anti-phishing, safe links, attachment scanning and quarantine management
- **Endpoint and Device Management:** Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM); Microsoft Defender for Endpoint (MDE)
- **Vulnerability Management:** Pentera Breach and Attack Simulation (BAS), Tenable.io, AppCheck, Nessus; remediation tracking and reporting
- **Firewall and Network Security:** Check Point Harmony; network segmentation, firewall policy review and hardening
- **Scripting and Automation:** PowerShell - Strong; SOAR playbook development and automation workflows
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), Center for Internet Security (CIS) Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Additional Tools:** Microsoft Defender for Identity (MDI), Microsoft 365 Defender, Tanium, Splunk/Security Processing Language (SPL)

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Serve as the technical security lead for an 8,000-user environment, owning the full lifecycle of threat detection, EDR alert response and Security Information and Event Management (SIEM) platform optimisation across CrowdStrike Falcon NG-SIEM and Microsoft Sentinel
- Manage and continuously harden email and web security gateways including Mimecast, ensuring robust protection against phishing, malware and data exfiltration attempts

- Administer Microsoft Entra ID, Conditional Access policies and Multi-Factor Authentication (MFA) across hybrid on-premises and cloud infrastructure, reducing identity-based attack surface
- Deliver end-to-end incident response aligned to National Institute of Standards and Technology (NIST) 800-61 and MITRE ATT&CK, including forensic investigation, containment, eradication and post-incident reporting to senior leadership
- Manage endpoint security through CrowdStrike Falcon EDR and Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), enforcing device compliance and configuration baselines
- Lead vulnerability management programme using Pentra Breach and Attack Simulation (BAS), Tenable.io and AppCheck; track remediation to closure and produce executive-level reporting
- Design and implement SOAR automation playbooks and detection engineering rules, reducing mean time to detect and respond across SIEM/EDR alerts
- Maintain BeyondTrust Privileged Access Management (PAM) solution and enforce least-privilege access controls across administrators and service accounts
- Produce risk assessments, security roadmaps and governance artefacts aligned to ISO 27001, Cyber Essentials Plus and CIS Controls frameworks

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Performed daily alert triage, threat hunting and investigation across CrowdStrike Falcon and Microsoft Sentinel SIEM, escalating and leading on significant incidents
- Implemented and maintained Mimecast email security configuration including anti-spoofing, Domain-based Message Authentication Reporting and Conformance (DMARC), DomainKeys Identified Mail (DKIM) and Sender Policy Framework (SPF) controls
- Managed Entra ID and Conditional Access policies for identity governance, overseeing MFA rollout and SSO integrations across business applications
- Conducted vulnerability scanning using Tenable.io and Nessus, prioritising remediation based on exploitability and business impact
- Developed PowerShell scripts to automate repetitive security tasks including log ingestion, alerting workflows and compliance reporting
- Assisted in deploying Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the organisation
- Supported penetration test engagements, co-ordinating remediation of findings and tracking closure through to sign-off

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Maintained security controls and infrastructure for a SaaS/FinTech platform, including firewall management, endpoint security and identity access provisioning
- Carried out vulnerability assessments and patch management across on-premises and cloud-hosted systems
- Contributed to ISO 27001 compliance activities including evidence gathering, risk register maintenance and audit preparation
- Provided 2nd and 3rd line technical support for security-related incidents, collaborating with development and infrastructure teams to resolve issues promptly
- Managed user provisioning and access reviews to enforce least-privilege principles across SaaS applications and internal systems

KEY ACHIEVEMENTS

- Designed and deployed a CrowdStrike Falcon EDR and Sentinel SIEM integration, improving mean time to detect (MTTD) by automating correlation rules and SOAR-driven response workflows across an 8,000-user estate
- Led the organisation-wide deployment of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI) and Microsoft 365 Defender, delivering consolidated visibility across endpoint, identity and

email threat vectors

- Implemented BeyondTrust Privileged Access Management (PAM) to enforce least-privilege access across administrator accounts, eliminating standing administrative privileges and reducing the risk of credential compromise
- Reduced vulnerability remediation backlog by 60% through a structured Pentera BAS and Tenable.io programme, enabling risk-prioritised patching aligned to business impact
- Achieved and maintained Cyber Essentials Plus certification, leading the technical preparation, evidence collection and assessor engagement
- Developed a library of PowerShell automation scripts that streamlined alert triage, log ingestion and compliance reporting, saving an estimated 10+ hours per week across the security team

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
