PROSPER AWUNI

Senior Cyber Security Engineer | SIEM / SOAR | EDR / XDR | Identity and Access Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of experience in security engineering, Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations, and Endpoint Detection and Response (EDR) and Extended Detection and Response (XDR) management. In my current role at the University of the Arts London, I lead security operations across an estate of more than 8,000 users, engineering detection content, managing EDR and XDR alert triage, and driving incident response using CrowdStrike Falcon and Microsoft Sentinel. I have hands-on experience administering identity and access management platforms including Microsoft Entra ID (Azure Active Directory) and Conditional Access policies, deploying Microsoft Intune for Mobile Device Management (MDM), and configuring Mimecast for enterprise email gateway security. I am experienced in vulnerability management using Tenable.io and Pentera Breach and Attack Simulation (BAS), and in remediating penetration test findings to reduce organisational risk. I am seeking to bring this breadth of security engineering expertise to a high-performing, focused security team in a fast-paced financial services environment.

CORE SKILLS AND TECHNICAL STACK

- **SIEM / SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (KQL), Splunk (SPL), SOAR playbook development and automation
- **EDR / XDR:** CrowdStrike Falcon Prevent, Insight, Discover; Microsoft Defender for Endpoint (MDE); Microsoft Defender for Identity (MDI); Microsoft 365 Defender
- **Identity and Access Management:** Microsoft Entra ID (Azure Active Directory), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM)
- **Email and Web Security:** Mimecast (anti-phishing, anti-malware, Data Loss Prevention), web proxy security
- **Endpoint Management:** Microsoft Intune MDM / MAM, Tanium
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera BAS; penetration test finding remediation
- **Firewall and Network Security:** Check Point Harmony, firewall policy review and management, network segmentation
- **Incident Response:** NIST 800-61, MITRE ATT&CK, root cause analysis, containment and eradication procedures
- **Scripting and Automation:** PowerShell, KQL (Kusto Query Language)
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) *March 2025 - Present*

Senior Cyber Security Analyst / Engineer

- Lead security operations for an estate of more than 8,000 users, overseeing SIEM and SOAR platforms including CrowdStrike Falcon NG-SIEM and Microsoft Sentinel to detect, triage, and respond to security incidents.
- Engineer and tune detection content, writing KQL analytics rules in Microsoft Sentinel and managing CrowdStrike Falcon detection policies to reduce false positive rates and improve coverage against the MITRE ATT&CK framework.
- Administer CrowdStrike Falcon Prevent (next-generation antivirus), Insight (threat hunting), and Discover (asset visibility) modules, ensuring full endpoint telemetry coverage and rapid containment of threats.
- Manage Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the full estate, configuring policies and investigating advanced persistent threat (APT) indicators.
- Oversee Microsoft Entra ID (Azure Active Directory) identity security controls, including Conditional Access policies, MFA enforcement, and Privileged Identity Management (PIM).
- Administer BeyondTrust Privileged Access Management (PAM) to control, monitor, and audit privileged account activity.

- Manage Mimecast email security platform, tuning anti-phishing, anti-malware, and Data Loss Prevention (DLP) policies to reduce email-borne threats.
- Lead vulnerability management programme using Tenable.io and Pentera BAS, producing risk-prioritised remediation reports and coordinating remediation with infrastructure teams.
- Develop and maintain SOAR automation playbooks in Microsoft Sentinel to automate alert enrichment, containment actions, and ticketing workflows, reducing mean time to respond.
- Conduct proactive threat hunting campaigns using MITRE ATT&CK and CrowdStrike Falcon Insight, identifying and remediating undetected threats across endpoint and identity layers.

University of the Arts, London (UAL) *March 2022 - March 2025*

Cyber Security Analyst, Cyber Security and Identity

- Monitored and triaged SIEM alerts across CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, escalating and managing security incidents through to resolution using NIST 800-61 procedures.
- Participated in the deployment and configuration of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across an estate of 8,000+ users, the largest single security platform rollout in UAL history.
- Configured and maintained Check Point Harmony firewall policies, reviewing rule sets and performing access control list (ACL) audits to reduce the network attack surface.
- Administered Mimecast email security, tuning policies and performing investigations into phishing campaigns and business email compromise (BEC) attempts.
- Deployed and managed Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM) policies across managed and bring-your-own-device (BYOD) endpoints.
- Conducted vulnerability assessments using Tenable.io, AppCheck, and Nessus, and coordinated remediation of critical and high-severity findings with system owners.
- Developed PowerShell scripts to automate routine security operations tasks, including automated alert enrichment and account lifecycle management workflows.
- Supported Azure Active Directory (Azure AD) / Entra ID identity governance, reviewing Conditional Access policies and auditing privileged role assignments.

HICX Solutions Ltd (SaaS / FinTech) *February 2021 - March 2022*

IT Engineer: Security, Quality and Infrastructure

- Provided end-to-end IT infrastructure and security support for a Software-as-a-Service (SaaS) FinTech organisation, supporting compliance with ISO 27001 and Cyber Essentials Plus.
- Administered Microsoft Azure Active Directory (Azure AD) and Microsoft 365 environments, managing user identities, access controls, and group policy configuration.
- Configured and maintained network security controls including firewall rules, VPN access policies, and network monitoring.
- Managed endpoint security including antivirus deployment, patch management, and device compliance policies.
- Participated in third-party vendor risk assessments and supported procurement-stage security reviews.

KEY ACHIEVEMENTS

- Deployed and operationalised Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across a 8,000+ user estate at UAL - the largest security platform rollout in the university's history.
- Authored over 20 KQL (Kusto Query Language) detection rules in Microsoft Sentinel, improving threat detection coverage for identity-based attacks, lateral movement, and data exfiltration scenarios.
- Reduced alert triage time by approximately 35% through SOAR automation and detection tuning in Microsoft Sentinel and CrowdStrike Falcon NG-SIEM.
- Led UAL's Cyber Essentials Plus certification renewal, remediating over 150 identified vulnerabilities within the required timeframe.
- Implemented BeyondTrust PAM across UAL, significantly reducing standing privileged access and improving audit trails for all privileged account activity.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
