

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM/SOAR/EDR | Hybrid

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a senior cyber security engineer with over five years of hands-on experience managing and operating security platforms across large enterprise environments, including Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), web and email security gateways, Mobile Device Management (MDM), Privileged Access Management (PAM), and firewall administration. I hold the Certified Information Systems Security Professional (CISSP) certification and bring deep technical expertise in CrowdStrike Falcon, Microsoft Sentinel, Microsoft Entra ID (formerly Azure Active Directory), Mimecast, Intune, and BeyondTrust PAM. In my current and previous senior roles at the University of the Arts London (UAL), I have led day-to-day security operations across an 8,000-user estate, delivered vulnerability management programmes, coordinated incident response, and driven security awareness initiatives. I thrive in small, high-impact security teams where I can take operational ownership across the full security platform stack and contribute directly to the protection of business-critical infrastructure.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, Insight, Discover, Next-Generation SIEM) - Expert level
- **Security Information and Event Management (SIEM) / SOAR:** CrowdStrike NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL); SOAR alert response, playbook automation
- **Email and Web Security Gateways:** Mimecast (anti-phishing, anti-malware, data loss prevention policy management)
- **Firewall and Network Security:** Check Point Harmony (firewall administration, policy management, IDS/IPS); WAF and DDoS concepts
- **Identity, Access Management and MFA/SSO:** Microsoft Entra ID / Azure Active Directory, Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Privileged Identity Management
- **Privileged Access Management (PAM):** BeyondTrust PAM (session management, privileged user lifecycle)
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune (device compliance, policy enforcement, application management)
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus (scanning, reporting, remediation tracking)
- **Endpoint and M365 Security:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Incident Response:** NIST SP 800-61, MITRE ATT&CK framework (detection, containment, eradication, recovery, lessons learned)
- **Scripting and Automation:** PowerShell (security automation, reporting, orchestration)
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer - University of the Arts London (UAL) *March 2025 - Present*

- Lead end-to-end security operations for an 8,000-user enterprise, with direct ownership of CrowdStrike Falcon EDR, CrowdStrike NG-SIEM, and Microsoft Sentinel as the primary SIEM and endpoint security platforms.
- Administer and tune CrowdStrike Falcon Prevent, Insight, and Discover modules; build and review detections, manage policy configurations, and investigate endpoint alerts to containment and remediation.

- Author and maintain KQL-based detection rules and threat hunting queries in Microsoft Sentinel; investigate SIEM alerts across cloud and on-premises log sources including Microsoft 365 and Entra ID signals.
- Manage Mimecast email security gateway policies (anti-phishing, anti-malware, URL rewriting, data loss prevention) and lead email-based incident response investigations.
- Administer Microsoft Entra ID (Azure Active Directory) including Conditional Access policies, MFA enforcement, Single Sign-On (SSO) configuration, and Privileged Identity Management (PIM).
- Manage BeyondTrust Privileged Access Management (PAM) platform covering privileged account lifecycles, session recording, and access reviews.
- Oversee Intune MDM and MAM policies for 8,000 devices, enforcing device compliance baselines and application controls across Windows, iOS, and Android endpoints.
- Lead vulnerability management programme using Tenable.io and Pentera Breach and Attack Simulation (BAS), driving risk-based remediation cycles with infrastructure and application teams.
- Deliver security awareness training and phishing simulation campaigns using KnowBe4-aligned approaches, tracking and reporting engagement metrics to senior stakeholders.
- Coordinate incident response activities in line with NIST SP 800-61 and MITRE ATT&CK, acting as senior technical escalation point for analysts and third-party responders.
- Administer Check Point Harmony firewall rule sets and network security policies; manage IDS/IPS configurations and review firewall logs for anomalous activity.
- Build PowerShell automation scripts and SOAR playbooks to reduce manual alert response time and improve analyst efficiency.
- Support remediation of penetration test findings and coordinate follow-up validation with internal teams and external test providers.

Cyber Security Analyst, Cyber Security and Identity - University of the Arts London (UAL)

March 2022 - March 2025

- Performed SIEM alert triage, event correlation, and incident investigation using CrowdStrike Falcon NG-SIEM and Microsoft Sentinel across an 8,000-user environment.
- Conducted daily threat hunting in CrowdStrike Falcon Insight and Discover, identifying and containing threats including credential abuse, lateral movement, and malware infections.
- Managed vulnerability scanning and remediation tracking using Tenable.io, AppCheck, and Nessus; produced risk-prioritised reports and tracked remediation to closure with asset owners.
- Deployed and maintained Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the full 8,000-user estate, including policy management and alert investigation.
- Administered Microsoft Entra ID identity security controls, including Conditional Access policy creation, MFA rollout and troubleshooting, and SSO integrations.
- Configured and managed Mimecast email gateway anti-phishing, anti-malware, and impersonation protection policies; conducted investigation and remediation of email-based threats.
- Supported BeyondTrust PAM platform administration, including onboarding privileged accounts, configuring session policies, and running access certification reviews.
- Maintained Intune MDM/MAM device compliance policies and managed application deployment and restriction profiles across the endpoint fleet.
- Contributed to Cyber Essentials Plus certification activities and ISO 27001 gap assessments, producing supporting evidence and updating control documentation.
- Delivered internal security awareness content and contributed to phishing simulation campaigns targeting staff and student populations.
- Developed PowerShell scripts to automate repetitive security tasks, including account review exports, log collection, and alert enrichment.

IT Engineer: Security, Quality and Infrastructure - HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

- Managed endpoint security tooling and Group Policy configurations across the organisation's Windows infrastructure, supporting a SaaS-based fintech product environment.

- Administered Microsoft Active Directory, Group Policy Objects (GPO), and identity lifecycle processes including user provisioning, access reviews, and offboarding.
- Monitored security events using SIEM tooling, escalating confirmed incidents to senior stakeholders and assisting with initial investigation and containment.
- Contributed to infrastructure security hardening initiatives aligned with CIS Controls and organisational security baselines.
- Managed Microsoft 365 security configurations, including Exchange Online protection policies and SharePoint access controls.
- Supported vulnerability scanning activities and assisted with remediation prioritisation across the technology estate.

KEY ACHIEVEMENTS

- Deployed and operationalised CrowdStrike Falcon EDR and NG-SIEM as the primary endpoint and SIEM platform across UAL's 8,000-user estate, establishing comprehensive detection coverage and real-time threat visibility.
- Led the Microsoft Defender for Endpoint (MDE) rollout across all 8,000 managed devices, improving endpoint detection and response capability and eliminating legacy antivirus dependencies.
- Built a structured vulnerability management programme using Tenable.io and Pentera Breach and Attack Simulation (BAS), enabling continuous risk identification and evidence-based remediation prioritisation.
- Automated SOAR-driven alert response workflows using PowerShell and playbooks, significantly reducing mean time to respond (MTTR) for high-volume, lower-severity alerts and freeing analyst capacity for complex investigations.
- Successfully supported UAL's Cyber Essentials Plus certification, producing control evidence across access management, patch management, malware protection, firewalls, and secure configuration.
- Administered BeyondTrust PAM for privileged accounts across the estate, eliminating standing privileged access and ensuring all administrative sessions were recorded and auditable.
- Identified and coordinated remediation of critical penetration test findings, liaising with infrastructure, application, and vendor teams to close high-severity vulnerabilities within agreed SLAs.

EDUCATION

- Master of Science (M.Sc.) - Environmental and Resource Engineering
- Bachelor of Science (B.Sc.) - Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
