

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM/SOAR | CrowdStrike Falcon | Detection Engineering | Infrastructure Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of experience implementing and maintaining robust security across complex enterprise infrastructure. I have deep expertise across Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR), including Microsoft Sentinel and CrowdStrike Falcon Next-Generation SIEM (NG-SIEM), and bring strong detection engineering skills built on Kusto Query Language (KQL) and MITRE ATT&CK aligned threat modelling. I am comfortable operating within a small, focused security team and reporting to a senior security officer, taking broad ownership of the security toolset from Endpoint Detection and Response (EDR) through to vulnerability management, identity security and firewall administration. My experience spans CrowdStrike Falcon, Mimecast, BeyondTrust Privileged Access Management (PAM), Microsoft Entra ID, Intune and Tenable.io, giving me the breadth to implement and maintain security holistically across a company's infrastructure. I am a Certified Information Systems Security Professional (CISSP) and am seeking a senior hybrid role in a high-performing asset management or financial services environment.

CORE SKILLS AND TECHNICAL STACK

- **SIEM and SOAR:** Microsoft Sentinel (KQL, detection rules, automated response playbooks, workbooks); CrowdStrike Falcon NG-SIEM; Splunk / Security Processing Language (SPL)
- **Endpoint Detection and Response (EDR/XDR):** CrowdStrike Falcon (EDR, Prevent, Insight, Discover, NG-SIEM) - Expert; Microsoft Defender for Endpoint (MDE); Tanium
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (AD); Conditional Access; Role-Based Access Control (RBAC); Multi-Factor Authentication (MFA); Single Sign-On (SSO)
- **Privileged Access Management (PAM):** BeyondTrust
- **Vulnerability Management:** Tenable.io; AppCheck; Nessus; Pentera Breach Attack Simulation (BAS)
- **Email Security:** Mimecast (anti-phishing, anti-malware, Data Loss Prevention (DLP))
- **Firewall and Perimeter Security:** Check Point Harmony (Next-Generation Firewall (NGFW), Web Application Firewall (WAF)); Intrusion Detection System (IDS) / Intrusion Prevention System (IPS)
- **Endpoint and Device Management:** Microsoft Intune (Mobile Device Management (MDM) / Mobile Application Management (MAM))
- **Incident Response:** NIST 800-61 framework; MITRE ATT&CK; triage, containment, eradication and recovery
- **Scripting and Automation:** PowerShell; SOAR playbook development; KQL
- **Security Frameworks:** NIST Cybersecurity Framework (CSF); CIS Controls; ISO 27001; Cyber Essentials Plus; MITRE ATT&CK
- **Cloud Security:** Microsoft Azure; Entra ID; Defender for Cloud

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)
Senior Cyber Security Analyst / Engineer
March 2025 - Present

March 2022 - Present

- Own and operate the SIEM and SOAR capability in Microsoft Sentinel, building and maintaining a library of KQL detection rules aligned to MITRE ATT&CK, automating triage playbooks and producing dashboards for the Head of Cyber Security
- Administer CrowdStrike Falcon NG-SIEM alongside EDR, Prevent, Insight and Discover modules across an 8,000-user estate, ensuring comprehensive endpoint visibility and behavioural threat prevention
- Maintain and improve robust security across the organisation's hybrid infrastructure, spanning on-premises systems, Microsoft Azure cloud and remote user environments

- Administer Mimecast email security gateway, managing anti-phishing, anti-malware, Data Loss Prevention (DLP) and content inspection policies
- Manage Multi-Factor Authentication (MFA) and Single Sign-On (SSO) policies through Entra ID Conditional Access, enforcing least-privilege identity access across all corporate systems
- Administer BeyondTrust PAM, managing privileged account lifecycles, session recording and credential rotation across critical infrastructure
- Lead vulnerability scanning and remediation cycles using Tenable.io, AppCheck and Pentera BAS, reporting risk reduction to the IT Security Officer
- Respond to Tier 2 and Tier 3 incidents following NIST 800-61, owning investigation, containment and post-incident review
- Manage MDM and MAM configurations in Microsoft Intune, enforcing device compliance across 8,000+ endpoints
- Support ISO 27001 and Cyber Essentials Plus compliance, preparing evidence and implementing remediation actions

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Performed daily SIEM alert triage and investigation in Microsoft Sentinel and CrowdStrike Falcon NG-SIEM, maintaining low Mean Time to Detect (MTTD) and Mean Time to Respond (MTTR)
- Conducted proactive threat hunting in CrowdStrike Falcon Insight and Discover, surfacing hidden threats and building detection logic from emerging intelligence
- Managed Entra ID and Azure Active Directory (AD) Conditional Access policies, RBAC and privileged account reviews across the estate
- Administered Check Point Harmony firewall and IDS/IPS rules, monitoring traffic patterns and responding to anomalies
- Managed vulnerability lifecycle using Nessus and AppCheck, tracking findings from discovery through to remediation closure
- Maintained Intune MDM and MAM policies for 8,000+ corporate and BYOD endpoints, enforcing encryption, compliance baselines and application controls
- Supported ISO 27001 and Cyber Essentials Plus audit preparation and control implementation

HEX Solutions Ltd (Software as a Service (SaaS) / FinTech)

February 2021 - March 2022

- Implemented and maintained endpoint security controls, firewall policies and DLP rules across a cloud-first SaaS FinTech infrastructure
- Configured SIEM, EDR and vulnerability scanning tools, monitoring the estate and responding to security events
- Managed identity controls including MFA rollout, SSO configuration and user provisioning/deprovisioning
- Applied NIST CSF and CIS Controls to harden systems, reduce attack surface and achieve compliance goals

KEY ACHIEVEMENTS

- Rebuilt the SIEM detection rule library in Microsoft Sentinel with 60+ KQL queries mapped to MITRE ATT&CK, improving high-fidelity alert coverage and reducing false positive volume
- Deployed CrowdStrike Falcon (EDR, Prevent, Insight, NG-SIEM) across 8,000+ endpoints, replacing legacy tooling and providing a single pane of glass for endpoint and SIEM visibility
- Deployed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000 users, centralising detection into the Microsoft 365 Defender platform
- Implemented BeyondTrust PAM organisation-wide, enforcing least-privilege access and eliminating shared administrative credentials across all critical systems
- Led Cyber Essentials Plus certification programme end-to-end, achieving certification through rigorous controls verification and remediation

EDUCATION

- M.Sc. Environmental and Resource Engineering

- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
