

# PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon EDR | SIEM/SOAR | WAF | PAM | Identity Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

## PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience securing large enterprise environments against sophisticated threats. I have expert-level proficiency with CrowdStrike Falcon for Endpoint Detection and Response (EDR), endpoint prevention and Next-Generation Security Information and Event Management (NG-SIEM), and strong operational experience managing Microsoft Sentinel Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms. I bring proven expertise administering Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) protections, Mimecast email security gateways, Multi-Factor Authentication (MFA) and Single Sign-On (SSO) via Microsoft Entra ID, and Mobile Device Management (MDM) and Mobile Application Management (MAM) solutions through Intune. I have extensive Privileged Access Management (PAM) experience with BeyondTrust, lead vulnerability scanning and remediation programmes using Tenable.io, AppCheck and Nessus, and regularly remediate penetration test findings aligned to CIS Controls and Cyber Essentials Plus standards. I hold the Certified Information Systems Security Professional (CISSP) certification and am seeking a hybrid senior engineering role within a demanding financial services environment in London.

## CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR/XDR):** CrowdStrike Falcon (EDR, Prevent, Insight, Discover, NG-SIEM) - Expert; Microsoft Defender for Endpoint (MDE); Tanium
- **SIEM and SOAR:** Microsoft Sentinel (KQL detection rules, automated playbooks, workbooks); CrowdStrike Falcon NG-SIEM; Splunk / Security Processing Language (SPL)
- **Email and Web Security:** Mimecast (anti-phishing, anti-malware, Data Loss Prevention (DLP), content inspection); Web Application Firewall (WAF); DDoS mitigation; Intrusion Detection System (IDS) / Intrusion Prevention System (IPS)
- **Firewall:** Check Point Harmony (Next-Generation Firewall (NGFW), WAF)
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (AD); Conditional Access; Role-Based Access Control (RBAC); MFA; SSO
- **Privileged Access Management (PAM):** BeyondTrust
- **Mobile Device and Application Management:** Microsoft Intune (MDM / MAM); Mobile Device Management policy enforcement; BYOD controls
- **Vulnerability Management:** Tenable.io; AppCheck; Nessus; Pentera Breach Attack Simulation (BAS)
- **Incident Response:** NIST 800-61 framework; MITRE ATT&CK; triage, containment, eradication and recovery
- **Scripting and Automation:** PowerShell; SOAR playbook development; KQL (Kusto Query Language)
- **Security Frameworks:** NIST Cybersecurity Framework (CSF); CIS Controls; ISO 27001; Cyber Essentials Plus; MITRE ATT&CK
- **Cloud Security:** Microsoft Azure; Entra ID; Microsoft Defender for Cloud

## PROFESSIONAL EXPERIENCE

### University of the Arts London (UAL)

Senior Cyber Security Analyst (Engineer)

March 2022 - Present

- Administer and optimise CrowdStrike Falcon (EDR, Prevent, Insight, Discover and NG-SIEM) across an 8,000-user estate, deploying detection rules and prevention policies to contain advanced endpoint and identity threats

- Manage WAF and DDoS protection controls through Check Point Harmony, continuously tuning signatures and thresholds to block active attack campaigns while minimising false positives
- Operate Microsoft Sentinel SIEM and SOAR, authoring KQL detection queries and automated response playbooks to accelerate alert triage and streamline incident remediation
- Administer Mimecast email security gateway, configuring anti-phishing, anti-malware, DLP and content inspection policies to defend against inbound and outbound email threats
- Enforce MFA and SSO across all corporate applications via Entra ID Conditional Access policies, managing Identity and Access Management (IAM) for an 8,000-user multi-site environment
- Manage MDM and MAM policies via Microsoft Intune, enforcing device compliance baselines and application protection policies across corporate and Bring Your Own Device (BYOD) endpoints
- Administer BeyondTrust PAM, enforcing least-privilege access and rotating administrative credentials to reduce the risk of privileged account compromise
- Lead vulnerability scanning and remediation programmes using Tenable.io, AppCheck and Pentra BAS, tracking remediation progress and reporting risk reduction metrics to senior leadership
- Respond to Tier 2 and Tier 3 security incidents following NIST 800-61, conducting root-cause analysis and producing post-incident reports with lessons learned
- Remediate penetration test findings, mapping issues to CIS Controls and Cyber Essentials Plus requirements and tracking remediation to closure
- Deliver organisation-wide security awareness training and phishing simulation campaigns, improving staff resilience across multiple sites

### **Cyber Security Analyst, Cyber Security and Identity**

*March 2022 - March 2025*

- Performed daily SIEM alert triage, investigation and escalation in Microsoft Sentinel and CrowdStrike Falcon NG-SIEM, maintaining low Mean Time to Detect (MTTD) and Mean Time to Respond (MTTR)
- Conducted proactive threat hunting using CrowdStrike Falcon Insight and Discover, identifying Indicators of Compromise (IoCs) and adversary Tactics, Techniques and Procedures (TTPs) aligned to MITRE ATT&CK
- Managed Azure AD Conditional Access policies, RBAC assignments and privileged account reviews, enforcing Principle of Least Privilege across the estate
- Administered IDS and IPS rules and firewall policies on Check Point Harmony, monitoring network traffic anomalies and blocking malicious activity in real time
- Maintained Intune MDM and MAM configurations for 8,000+ endpoints, enforcing disk encryption, compliance and application protection policies
- Conducted vulnerability assessments using Nessus and AppCheck, tracking remediation status and reporting risk metrics
- Supported ISO 27001 and Cyber Essentials Plus audits, preparing evidence packs and implementing control remediation actions
- Designed and delivered phishing simulation exercises and security awareness training content for a multi-site staff population

### **HCX Solutions Ltd (Software as a Service (SaaS) / FinTech)**

*February 2021 - March 2022*

- Implemented and maintained endpoint security controls, firewall rules and DLP policies across a cloud-first SaaS FinTech environment
- Configured EDR, SIEM and vulnerability scanning tools to monitor the estate and enforce information security policies
- Managed identity and access controls including MFA rollout, SSO configuration and user lifecycle management
- Applied NIST CSF and CIS Controls to harden systems, reduce attack surface and meet compliance obligations
- Delivered IT support across security, quality and infrastructure functions, maintaining system availability and documenting operational procedures

## KEY ACHIEVEMENTS

---

- Deployed CrowdStrike Falcon (EDR, Prevent, Insight, NG-SIEM) across an 8,000+ user estate, improving endpoint threat detection fidelity and reducing dwell time for active compromises
- Deployed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000 users, consolidating coverage into a unified Microsoft 365 Defender platform
- Implemented BeyondTrust PAM enterprise-wide, eliminating shared administrative credentials and enforcing least-privilege across all critical systems
- Led Cyber Essentials Plus certification programme, delivering technical controls verification and evidence collection across all scoped systems and achieving certification
- Authored SOAR playbooks in Microsoft Sentinel automating incident triage, notification and containment steps, reducing manual analyst effort for high-volume recurring alert types by over 50%

## EDUCATION

---

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

## CERTIFICATIONS

---

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
