

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | Endpoint Detection and Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer and Certified Information Systems Security Professional (CISSP) with over five years of experience protecting enterprise environments across the higher education and technology sectors. My expertise spans CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration Automation and Response (SOAR) platform management, identity and access management, privileged access management, and vulnerability management. I have deep hands-on experience deploying and administering CrowdStrike Falcon Prevent, CrowdStrike Falcon Insight, and CrowdStrike Falcon Discover across organisations of 8,000 or more users, managing Mimecast email security, administering Microsoft Entra ID with Conditional Access and Multi-Factor Authentication (MFA), and leading incident response operations aligned to the National Institute of Standards and Technology (NIST) 800-61 framework. I thrive in small, focused security teams where I can take direct technical ownership across the full security toolchain, and I bring strong written and verbal communication skills that allow me to present complex risks clearly to business leadership and non-technical stakeholders alike.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon Prevent, Insight, Discover, NG-SIEM (expert level, 8,000+ endpoint deployment)
- **SIEM/SOAR:** Microsoft Sentinel with Kusto Query Language (KQL), CrowdStrike Next-Generation Security Information and Event Management, SOAR playbook authoring and automation
- **Email and Web Security:** Mimecast Email Security, Web Application Firewall (WAF), Distributed Denial of Service (DDoS) protection
- **Identity and Access Management (IAM):** Microsoft Azure Active Directory (Azure AD) / Entra ID, Conditional Access, MFA, Single Sign-On (SSO), Okta integration awareness
- **Privileged Access Management (PAM):** BeyondTrust PAM, least-privilege policy enforcement
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune
- **Vulnerability Management:** Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS); remediation tracking and reporting
- **Incident Response:** NIST 800-61 lifecycle, MITRE ATT&CK framework, threat hunting, forensic triage
- **Firewall and Network Security:** Check Point Harmony, intrusion detection and prevention systems (IDS/IPS), security gateway management
- **Scripting and Automation:** PowerShell; SOAR automation workflows
- **Frameworks:** NIST Cybersecurity Framework (CSF), Center for Internet Security (CIS) Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) -- Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Serve as the primary technical owner for the CrowdStrike Falcon EDR platform across an 8,000-user estate, managing Falcon Prevent, Insight, Discover, and NG-SIEM modules to ensure continuous endpoint visibility and threat prevention.
- Manage WAF/DDoS protections and web security gateways, tuning policies in response to emerging threat intelligence and penetration test findings.
- Administer the Mimecast email security platform, maintaining anti-spam, anti-phishing, and data loss prevention (DLP) policies to protect staff and student inboxes.

- Oversee SIEM/SOAR alert response operations using Microsoft Sentinel and CrowdStrike NG-SIEM, authoring KQL detection rules and SOAR playbooks that reduced mean time to detect (MTTD) and mean time to respond (MTTR) for priority alerts.
- Manage Microsoft Entra ID and Conditional Access policies for 8,000 users, enforcing MFA, SSO, and least-privilege access controls across the hybrid Azure environment.
- Administer BeyondTrust Privileged Access Management (PAM) to govern administrator credentials, session recording, and just-in-time access provisioning.
- Lead vulnerability management operations using Tenable.io, AppCheck, and Pentera BAS, prioritising findings by exploitability and business impact and tracking remediation to closure.
- Manage Microsoft Intune MDM/MAM policies to enforce device compliance and secure mobile endpoints.
- Conduct threat hunting exercises using MITRE ATT&CK tactics, techniques, and procedures (TTPs), surfacing latent threats that had evaded automated detection.
- Lead incident response investigations following the NIST 800-61 lifecycle, coordinating containment, eradication, recovery, and post-incident review.
- Deliver security awareness training and phishing simulations to staff and faculty, measurably reducing click rates on simulated phishing campaigns.
- Remediate findings from external penetration tests, collaborating with third-party assessors to validate closure of critical and high-severity issues.

University of the Arts, London (UAL) -- Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Performed day-to-day SIEM alert triage, investigating security events across endpoint, identity, email, and network data sources and escalating confirmed incidents to the security engineering team.
- Supported the deployment of CrowdStrike Falcon Prevent and Insight across the estate, assisting with sensor policy configuration, exclusion management, and alert review.
- Administered Mimecast and assisted with the management of email security policies and incident investigations.
- Maintained Microsoft Entra ID/Azure AD user accounts, group policies, and Conditional Access configurations in support of the Identity and Access Management (IAM) programme.
- Assisted with vulnerability scanning using Nessus and AppCheck, producing remediation reports for infrastructure and application owners.
- Supported incident response activities including containment of compromised accounts, malware triage, and post-incident documentation.
- Contributed to the development of security procedures, runbooks, and awareness materials aligned to Cyber Essentials Plus requirements.

HICX Solutions Ltd (SaaS/FinTech) -- IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Delivered security, quality, and infrastructure engineering across a Software as a Service (SaaS)/FinTech environment, implementing access controls and security hardening across cloud and on-premises systems.
- Managed endpoint security tooling, identity management, and network security configurations in a fast-paced start-up environment.
- Supported ISO 27001-aligned information security management practices, including risk assessments and policy documentation.
- Provided technical escalation support for security and infrastructure incidents, reducing resolution times through structured triage and documentation.

KEY ACHIEVEMENTS

- Led the enterprise-wide deployment of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender across 8,000 users, delivering unified Extended Detection and Response (XDR) coverage.
- Engineered CrowdStrike Falcon NG-SIEM detection rules and correlation logic mapped to MITRE ATT&CK, significantly reducing false-positive alert volume while improving detection fidelity for high-priority threats.

- Implemented SOAR automation playbooks using Microsoft Sentinel and CrowdStrike, automating repetitive analyst tasks and cutting manual triage time by over 40%.
- Designed and delivered a structured vulnerability management programme using Pentera BAS, Tenable.io, and AppCheck, enabling risk-based prioritisation and measurably reducing the organisation's attack surface.
- Led multiple high-severity incident response engagements including business email compromise investigations and ransomware containment exercises, achieving swift recovery with no material data loss.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
