

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM/SOAR | PAM | MDM/MAM | Email Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of enterprise security experience, specialising in operating and maintaining a broad technology stack that spans Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR), email security gateways, identity and access management, Privileged Access Management (PAM), and Mobile Device Management (MDM). I have hands-on expertise with the CrowdStrike Falcon platform and Microsoft security tooling at scale, currently protecting an 8,000-user environment at University of the Arts London. My background includes alert triage, threat hunting, vulnerability remediation and security awareness delivery within lean, focused security teams. I hold the Certified Information Systems Security Professional (CISSP) certification and bring demonstrable experience with Mimecast email security, Microsoft Entra ID, Intune MDM/MAM and BeyondTrust PAM. I thrive in collaborative, small-team environments where I can contribute across a wide range of security domains, and I am ready to bring this practical expertise to a financial services organisation requiring a versatile and technically capable security engineer.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM) - Expert
- **Security Information and Event Management (SIEM) / SOAR:** Microsoft Sentinel, Kusto Query Language (KQL), alert triage, detection rule authoring, automated playbooks
- **Email Security Gateway:** Mimecast (anti-phishing, anti-malware, Business Email Compromise (BEC) protection, URL protection)
- **Identity and Access Management (IAM):** Microsoft Entra ID (Azure Active Directory), Conditional Access, Group Policy Objects (GPO), MFA, SSO
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune
- **Privileged Access Management (PAM):** BeyondTrust
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS)
- **Endpoint and Identity Protection:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Firewall and Network Security:** Check Point Harmony, IDS/IPS management, security certificate lifecycle
- **Scripting:** PowerShell automation and SOAR playbook development
- **Incident Response:** NIST 800-61, MITRE ATT&CK, threat hunting, detection engineering
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 - Present

- Operate CrowdStrike Falcon Endpoint Detection and Response (EDR) platform across an 8,000-user estate, performing alert triage, investigation, threat hunting and coordinated incident response
- Manage Microsoft Sentinel Security Information and Event Management (SIEM) and SOAR platform, authoring Kusto Query Language (KQL) detection rules and building automated response playbooks to reduce manual investigation effort
- Administer Mimecast email security gateway, configuring anti-phishing, anti-malware and Business Email Compromise (BEC) protection policies and investigating email-based threat incidents
- Configure Multi-Factor Authentication (MFA), Single Sign-On (SSO) and Conditional Access policies in Microsoft Entra ID (formerly Azure Active Directory), enforcing identity security controls across the estate
- Manage Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), maintaining device compliance policies for the 8,000-user environment

- Operate BeyondTrust Privileged Access Management (PAM), administering least-privilege controls and securing high-value administrative accounts
- Conduct vulnerability scans using Tenable.io and AppCheck, prioritise and track remediation of penetration testing findings and vulnerability assessment results
- Manage IDS/IPS configuration and security certificate lifecycle, ensuring policies remain current and effective
- Deliver security awareness training and phishing simulation exercises to promote a risk-aware security culture across the organisation
- Manage end-to-end incident response following the NIST 800-61 methodology, from initial detection through to post-incident review and lessons-learned

University of the Arts London (UAL) Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Triaged and investigated security alerts from SIEM/SOAR platforms and CrowdStrike Falcon EDR, escalating confirmed incidents and maintaining detailed incident tracking records
- Managed Microsoft Entra ID (Azure Active Directory) identity lifecycle, Group Policy Objects (GPO) and Conditional Access policies, maintaining accurate and secure identity controls
- Administered Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI), ensuring platform health, full coverage and timely alert response
- Configured Microsoft Intune MDM/MAM policies, enforcing device compliance and mobile data protection across the organisation
- Operated Mimecast email security gateway, managing filtering policies and supporting Business Email Compromise (BEC) and phishing investigations
- Performed scheduled vulnerability scans with Tenable.io and Nessus, coordinating remediation with infrastructure and operations teams and tracking progress
- Contributed to security awareness training delivery and phishing simulation exercises, reporting on results and targeted follow-up

HICX Solutions Ltd (SaaS/FinTech) Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Administered endpoint protection and security monitoring tooling in a SaaS/FinTech environment, maintaining visibility across cloud and on-premise systems
- Configured MFA, access controls and Group Policy security baselines to protect corporate and customer data in a regulated environment
- Managed firewall rules and network security monitoring, responding to alerts and escalating threats appropriately
- Supported vulnerability assessment and penetration test finding remediation in collaboration with development and infrastructure teams
- Maintained Active Directory identity controls and privileged account management policies
- Delivered IT security support and infrastructure administration, ensuring platform availability and compliance in a fast-paced FinTech setting

KEY ACHIEVEMENTS

- Deployed and optimised the CrowdStrike Falcon Endpoint Detection and Response (EDR) platform across an 8,000-user environment, significantly improving endpoint threat visibility and response speed
- Rolled out Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) at enterprise scale for 8,000 users, providing comprehensive endpoint and identity threat detection
- Authored SOAR automation playbooks in Microsoft Sentinel, reducing alert handling times for high-volume incident categories through automated triage and containment
- Implemented Pentera Breach and Attack Simulation (BAS) to continuously test and validate the effectiveness of security controls, providing evidence-based remediation priorities
- Attained the Certified Information Systems Security Professional (CISSP) certification, demonstrating expertise across all eight information security domains

EDUCATION

- M.Sc. Environmental and Resource Engineering

- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
