

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | Entra ID | PAM | Incident Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience protecting large enterprise environments against evolving cyber threats. I bring deep specialist expertise in CrowdStrike Falcon, including Endpoint Detection and Response (EDR), Falcon Prevent, Falcon Insight, Next-Generation Security Information and Event Management (NG-SIEM), and Falcon Discover, and I have extensive experience managing Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms across complex, multi-site environments. I have a strong track record in email and web security gateway management using Mimecast, identity and access security through Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, Multi-Factor Authentication (MFA), and Single Sign-On (SSO), and Privileged Access Management (PAM) using BeyondTrust. I am adept at vulnerability scanning and remediation, Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) monitoring, Mobile Device Management (MDM) and Mobile Application Management (MAM), and delivering security awareness training. I hold the Certified Information Systems Security Professional (CISSP) certification and bring a measured, methodical approach to security operations, with strong communication skills and a proven ability to contribute effectively within focused security teams.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Falcon NG-SIEM, Falcon Discover; Microsoft Defender for Endpoint (MDE); Microsoft Defender for Identity (MDI); Microsoft 365 Defender
- **SIEM/SOAR:** CrowdStrike Falcon NG-SIEM; Microsoft Sentinel (Kusto Query Language (KQL)); SOAR playbook development and automation
- **Identity and Access Management (IAM):** Microsoft Entra ID, Azure Active Directory, Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Group Policy Objects (GPO)
- **Privileged Access Management (PAM):** BeyondTrust
- **Email and Web Security:** Mimecast; email gateway configuration and tuning
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune (8,000-user deployment)
- **Vulnerability Management:** Tenable.io; Pentera Breach and Attack Simulation (BAS); AppCheck; Nessus
- **Firewall and Network Security:** Check Point Harmony Firewall; IDS/IPS configuration and monitoring
- **Incident Response:** NIST Special Publication 800-61 Computer Security Incident Handling Guide; MITRE ATT&CK framework
- **Scripting and Automation:** PowerShell; SOAR automation
- **Security Frameworks:** NIST Cybersecurity Framework (CSF); Centre for Internet Security (CIS) Controls; ISO 27001; Cyber Essentials Plus; MITRE ATT&CK
- **Additional Tools:** Tanium; Splunk/SPL (moderate); Microsoft Defender for Cloud

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL) - Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Manage and optimise SIEM, SOAR, and EDR infrastructure, including CrowdStrike Falcon EDR, Falcon NG-SIEM, and Falcon Prevent, providing real-time endpoint visibility and alert triage and response across a large enterprise environment
- Administer email and web security gateways, including Mimecast, to defend against phishing, Business Email Compromise (BEC), malware delivery, and data exfiltration
- Oversee identity and access security through Microsoft Entra ID, Conditional Access policies, MFA, and SSO, enforcing Zero Trust principles and reducing identity-based risk

- Implement and manage Privileged Access Management (PAM) using BeyondTrust, enforcing least-privilege access to critical systems and sensitive data
- Lead vulnerability scanning and remediation programmes using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), identifying and remediating vulnerabilities across cloud and on-premises environments
- Administer Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Intune across 8,000 users, ensuring device compliance and data protection
- Lead incident response activities in accordance with NIST SP 800-61 and the MITRE ATT&CK framework, coordinating containment, investigation, and remediation across IT teams
- Manage IDS/IPS configurations and firewall rules using Check Point Harmony Firewall, maintaining robust perimeter and network security controls
- Remediate penetration test and vulnerability assessment findings, managing risk registers and tracking remediation progress to completion
- Deliver security awareness training across the organisation to reduce human risk and build a security-conscious culture
- Automate security workflows through PowerShell scripting and SOAR playbooks, reducing manual effort and improving Mean Time to Respond (MTTR) for security incidents
- Contribute to ad-hoc security projects and continuous improvement initiatives, supporting strategic security roadmap delivery

University of the Arts London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Supported the management of enterprise security tooling including CrowdStrike Falcon, Mimecast, and Microsoft Defender platforms, contributing to daily alert triage, EDR alert response, and incident handling workflows
- Assisted in administering Microsoft Entra ID, Conditional Access policies, and MFA to secure identity across the organisation, supporting SSO configuration and access governance
- Contributed to vulnerability management activities using Tenable.io and Nessus, identifying, prioritising, and tracking remediation of security findings across IT infrastructure
- Supported BeyondTrust PAM controls and access reviews, maintaining compliance with least-privilege principles and supporting privileged account lifecycle management
- Administered Microsoft Intune MDM/MAM policies, supporting device enrolment, compliance enforcement, and conditional access for corporate and bring-your-own devices
- Assisted in delivering security awareness training to staff and contributed to the maintenance of security documentation, policies, and procedures
- Participated in incident response activities, triaging alerts, gathering evidence, and supporting containment and remediation workflows
- Contributed to the development and tuning of SOAR playbooks to automate alert enrichment and response actions

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Delivered IT security, infrastructure quality, and operational engineering support within a fast-paced Software as a Service (SaaS) and Financial Technology (FinTech) environment
- Managed endpoint security controls, firewall configurations, and patch management processes to maintain a strong security posture and reduce attack surface
- Administered identity and access management processes, ensuring appropriate user provisioning, access controls, and regular access reviews
- Contributed to vulnerability management activities and security policy implementation, supporting compliance with industry security standards
- Provided technical support for infrastructure systems, collaborating with IT and development teams to resolve security and operational issues

KEY ACHIEVEMENTS

- Deployed and administered CrowdStrike Falcon across a large enterprise environment, delivering comprehensive EDR, Prevent, Insight, NG-SIEM, and Discover coverage, establishing real-time endpoint visibility and automated threat detection
- Led the deployment of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender across 8,000 users, significantly improving detection coverage and reducing threat exposure
- Implemented BeyondTrust Privileged Access Management (PAM) across the organisation, enforcing least-privilege principles and substantially reducing the risk of credential-based attacks on critical systems
- Implemented Mimecast email security controls across the enterprise, reducing the organisation's exposure to phishing and email-borne threats
- Developed and automated SOAR playbooks using PowerShell, reducing manual analyst workload and improving incident response Mean Time to Respond (MTTR)
- Managed a comprehensive vulnerability management programme using Tenable.io, Pentera BAS, AppCheck, and Nessus, driving measurable reduction in critical and high-severity vulnerabilities
- Contributed to achieving and maintaining Cyber Essentials Plus certification, demonstrating the organisation's commitment to robust baseline security controls

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
