

# PROSPER AWUNI

Senior Security Engineer | CrowdStrike EDR | SIEM/SOAR | Entra ID | PAM | MDM/MAM | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

## PROFESSIONAL PROFILE

I am an experienced Senior Security Engineer with over five years of enterprise-level hands-on experience managing and optimising security tooling across large, complex environments. I have deep expertise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) protection, email and web security gateways, and Privileged Access Management (PAM) using BeyondTrust. I am highly proficient in Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), and Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Intune. I have a strong record in vulnerability assessments, penetration test remediation, and delivering cyber security awareness training. I hold the Certified Information Systems Security Professional (CISSP) certification and consistently bring a structured, proactive approach to managing enterprise-grade security controls, with excellent communication skills and a collaborative mindset suited to both small focused teams and wider IT functions.

## CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Falcon NG-SIEM, Falcon Discover; Microsoft Defender for Endpoint (MDE); Microsoft Defender for Identity (MDI); Microsoft 365 Defender
- **SIEM/SOAR:** CrowdStrike Falcon NG-SIEM; Microsoft Sentinel with Kusto Query Language (KQL); SOAR playbook development and automation
- **Identity and Access Management (IAM):** Microsoft Entra ID, Azure Active Directory (AD), Conditional Access, MFA, SSO, Group Policy Objects (GPO), Virtual Private Network (VPN)
- **Privileged Access Management (PAM):** BeyondTrust
- **Email and Web Security Gateways:** Mimecast
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune (8,000-user deployment)
- **Web Application Firewall (WAF) / DDoS Protection:** WAF policy management; web security gateway administration
- **Vulnerability Management:** Tenable.io; Pentera Breach and Attack Simulation (BAS); AppCheck; Nessus
- **Firewall and Network Security:** Check Point Harmony Firewall; Intrusion Detection System (IDS) / Intrusion Prevention System (IPS)
- **Incident Response:** NIST Special Publication 800-61 Computer Security Incident Handling Guide; MITRE ATT&CK framework
- **Scripting and Automation:** PowerShell; SOAR automation
- **Security Frameworks:** NIST Cybersecurity Framework (CSF); Centre for Internet Security (CIS) Controls; ISO 27001; Cyber Essentials Plus; MITRE ATT&CK

## PROFESSIONAL EXPERIENCE

**University of the Arts London (UAL) - Senior Cyber Security Analyst / Engineer** *March 2025 - Present*

- Manage and optimise enterprise-grade security tools including SIEM, SOAR, and EDR platforms, with hands-on administration of CrowdStrike Falcon EDR, Falcon NG-SIEM, and Falcon Prevent for alert triage, threat detection, and endpoint protection across a large multi-site organisation
- Administer email and web security gateways, including Mimecast, to protect against phishing, Business Email Compromise (BEC), malware, and data exfiltration threats

- Manage WAF policies and web security controls, supporting defence against web application attacks and maintaining gateway integrity
- Oversee identity and access security through Microsoft Entra ID, Azure Active Directory, Conditional Access policies, MFA, and SSO, enforcing Zero Trust and least-privilege principles
- Administer Group Policy Objects (GPO) and Virtual Private Network (VPN) configurations to maintain secure and consistent endpoint and network access controls
- Implement and manage Privileged Access Management (PAM) using BeyondTrust, controlling and auditing access to critical systems and sensitive assets
- Conduct vulnerability assessments using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), remediating findings and managing risk across cloud and on-premises infrastructure
- Administer Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Intune across 8,000 users, ensuring device compliance and secure data access
- Lead incident response activities following NIST SP 800-61 and the MITRE ATT&CK framework, coordinating containment, investigation, and remediation across IT and business teams
- Remediate penetration test and vulnerability assessment findings, maintaining risk registers and reporting on remediation progress to senior stakeholders
- Deliver cyber security awareness training across the organisation, improving human risk awareness and security behaviour
- Automate security workflows through PowerShell scripting and SOAR playbooks, improving operational efficiency and reducing Mean Time to Respond (MTTR)

#### **University of the Arts London (UAL) - Cyber Security Analyst, Cyber Security and Identity**

*March 2022 - March 2025*

- Supported the management and optimisation of enterprise security tooling including CrowdStrike Falcon EDR, Mimecast, and Microsoft Defender platforms, contributing to alert triage, EDR alert response, and incident handling
- Assisted in managing Microsoft Entra ID, Conditional Access policies, MFA, SSO, and GPO to enforce identity security and access governance across the organisation
- Contributed to vulnerability management activities using Tenable.io and Nessus, tracking and remediating security findings across IT infrastructure
- Supported BeyondTrust PAM administration, conducting access reviews and maintaining least-privilege enforcement for privileged accounts
- Administered Microsoft Intune MDM/MAM policies, supporting device compliance, conditional access enforcement, and endpoint security
- Assisted in delivering cyber security awareness training and contributed to security documentation and policy maintenance
- Participated in penetration test remediation activities, coordinating with IT teams to address identified vulnerabilities
- Contributed to the development of SOAR automation to improve alert enrichment and response efficiency

#### **HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure**

*February 2021 - March 2022*

- Delivered IT security, infrastructure quality, and operational engineering support within a fast-paced Software as a Service (SaaS) and Financial Technology (FinTech) environment
- Managed endpoint security controls, firewall configurations, patch management, and identity and access management processes to maintain a strong security posture
- Contributed to vulnerability management activities and security policy implementation, supporting compliance with industry standards
- Provided technical infrastructure support, collaborating with development and IT teams to resolve security and operational issues

#### **KEY ACHIEVEMENTS**

- Deployed and administered CrowdStrike Falcon across a large enterprise environment, delivering end-to-end EDR, Prevent, Insight, NG-SIEM, and Discover coverage with real-time threat visibility

- Led the deployment of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender across 8,000 users, substantially improving detection coverage and reducing threat exposure
- Implemented BeyondTrust Privileged Access Management (PAM) across the organisation, enforcing least-privilege principles and reducing the risk of credential-based attacks on critical systems
- Implemented Mimecast email security controls across the enterprise, significantly reducing exposure to phishing and email-borne threats
- Developed and automated SOAR playbooks using PowerShell, reducing manual alert investigation time and improving incident response efficiency
- Managed a vulnerability management programme using Tenable.io, Pentera BAS, AppCheck, and Nessus, achieving measurable reduction in critical and high-severity vulnerabilities across cloud and on-premises environments
- Contributed to Cyber Essentials Plus certification, demonstrating a strong, audited baseline security posture across the organisation

## EDUCATION

---

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

## CERTIFICATIONS

---

- Certified Information Systems Security Professional (CISSP)
  - CompTIA Security+
  - Microsoft Certified Solutions Associate (MCSA)
  - CompTIA A+
  - Google IT Support Professional Certificate
-
