

PROSPER AWUNI

Senior Cyber Security Analyst | CrowdStrike Falcon | SIEM/SOAR | Vulnerability Management | Incident Response | CISSP

London, United Kingdom (Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a CISSP-certified Senior Cyber Security Analyst with over five years of experience protecting complex enterprise environments through proactive monitoring, detection, vulnerability management and incident response. I bring deep operational expertise across CrowdStrike Falcon EDR, Microsoft Sentinel, Mimecast email security, BeyondTrust PAM and Microsoft Intune — having applied these tools daily across a large, mission-critical UK public sector institution. In my current role at the University of the Arts London I lead security operations for an 8,000-endpoint environment, covering SIEM alert triage, threat hunting, vulnerability management and end-to-end incident response in line with NIST 800-61 and MITRE ATT&CK. I understand the rigours of operating within a regulated, public-sector-adjacent organisation where security controls must be proportionate, evidence-based and aligned to recognised frameworks. I am seeking a Cyber Security Analyst role at DfT Operator where I can apply my breadth of operational security experience to protect critical UK transport infrastructure.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR/XDR):** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM), Microsoft Defender for Endpoint (MDE)
- **SIEM/SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (KQL), Splunk (SPL); SOAR playbook development for automated alert response
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; risk-based prioritisation aligned to CVSS, business impact and regulatory requirements
- **Incident Response:** NIST 800-61 lifecycle; MITRE ATT&CK TTP mapping; containment, eradication, recovery and post-incident review
- **Identity and Access Management (IAM):** Entra ID / Azure Active Directory, Conditional Access, MFA, SSO; BeyondTrust PAM for privileged account governance
- **Email Security:** Mimecast (anti-phishing, anti-spoofing, URL rewriting, DLP, quarantine management)
- **MDM/MAM:** Microsoft Intune; endpoint compliance policy management and enforcement
- **Network and Perimeter Security:** Check Point Harmony, Tanium; IDS/IPS rule management; certificate lifecycle management
- **Security Frameworks:** NIST CSF, NIST 800-61, CIS Controls, ISO 27001, Cyber Essentials Plus
- **Scripting and Automation:** PowerShell; SOAR playbook development; automated vulnerability reporting
- **Microsoft Defender Suite:** MDE, Microsoft Defender for Identity (MDI), Microsoft 365 Defender

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 to Present

Senior Cyber Security Analyst (Engineer)

- Manage and optimise CrowdStrike Falcon EDR across an 8,000-endpoint environment, configuring detection policies, prevention settings and performing proactive threat hunting to identify and contain advanced threats.
- Lead SIEM/SOAR alert triage and response, investigating and escalating security events across CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, reducing MTTR through automated playbooks.
- Administer Mimecast email security gateway, configuring anti-phishing, anti-spoofing, URL rewriting, and DLP policies to protect against email-borne threats.
- Manage BeyondTrust PAM solution, enforcing least-privilege access across all privileged accounts and critical infrastructure to reduce the organisation's attack surface.
- Conduct vulnerability management using Tenable.io, Pentera BAS and AppCheck, prioritising remediation based on CVSS severity, exploitability and business risk.

- Lead incident response activities in line with NIST 800-61 and MITRE ATT&CK, coordinating containment, eradication and recovery across all incident types.
- Configure and maintain MFA and SSO policies via Entra ID Conditional Access, enforcing Zero Trust access controls across cloud and on-premises applications.
- Remediate penetration test findings and contribute to security improvement projects, reporting progress to the IT Security Officer and senior leadership.
- Deliver security awareness training and phishing simulation campaigns, reducing phishing click rates across the institution.

University of the Arts, London (UAL) Cyber Security Analyst, Cyber Security and Identity

March 2022 to March 2025

- Performed daily alert triage and monitoring across SIEM, EDR and email security platforms, applying structured investigation and escalation procedures in line with agreed SLAs.
- Supported CrowdStrike Falcon EDR deployment and policy management, maintaining endpoint protection coverage across the university estate.
- Developed incident response playbooks and runbooks aligned to NIST 800-61 and MITRE ATT&CK, improving response consistency and reducing dwell time.
- Conducted vulnerability scanning and remediation tracking using Tenable.io and Nessus, reporting compliance posture to senior management.
- Managed Azure AD / Entra ID identity lifecycle, Conditional Access policy review and MFA configuration.
- Maintained IDS/IPS rule sets and security certificate lifecycle management, ensuring continuous perimeter protection.

HEX Solutions Ltd (SaaS/FinTech) Engineer, Security, Quality and Infrastructure

February 2021 to March 2022

- Administered endpoint security, email security and IAM across a SaaS/FinTech cloud-first environment, supporting both cloud and on-premises workloads.
- Supported vulnerability management programme and security risk assessments, contributing findings and remediation recommendations to the security risk register.
- Configured PAM controls for privileged accounts and managed MFA/SSO configuration across cloud and on-premises infrastructure.

KEY ACHIEVEMENTS

- Achieved full CrowdStrike Falcon EDR deployment and policy optimisation across 8,000 endpoints at UAL, reducing malware dwell time and improving MTTR for endpoint threats.
- Implemented BeyondTrust PAM to enforce least-privilege access across all privileged accounts, materially reducing the organisation's privileged attack surface.
- Delivered SOAR automation playbooks within CrowdStrike Falcon and Microsoft Sentinel, reducing manual alert triage workload and accelerating response to high-volume alerts.
- Successfully deployed Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender across an 8,000-user estate, providing unified cross-domain threat protection.
- Reduced phishing click rates through targeted security awareness training and phishing simulation campaigns.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**
