

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon EDR | SIEM/SOAR | Infrastructure Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) Senior Cyber Security Engineer with more than five years of hands-on experience protecting large enterprise environments. I specialise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations, vulnerability management, infrastructure hardening, and privileged access control. In my current role at the University of the Arts, London (UAL), I manage endpoint and identity security across 8,000 users and devices, administering CrowdStrike Falcon, Microsoft Defender for Endpoint (MDE), Mimecast email security, BeyondTrust Privileged Access Management (PAM), Microsoft Entra ID, Multi-Factor Authentication (MFA), Single Sign-On (SSO), and Microsoft Intune Mobile Device Management (MDM) within a focused security team. I am adept at leading SIEM/SOAR alert triage and incident response, delivering security awareness training, conducting vulnerability scanning and remediation, and maintaining robust perimeter defences including firewall management and Intrusion Detection and Prevention System (IDS/IPS) oversight. I am looking to bring this breadth of enterprise security experience to a challenging senior role within a fast-paced, security-conscious organisation.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (EDR, Prevent, Next-Generation SIEM (NG-SIEM), Insight, Discover) - Expert; Microsoft Defender for Endpoint (MDE), Microsoft Defender XDR (Extended Detection and Response)
- **SIEM/SOAR:** Microsoft Sentinel, CrowdStrike Falcon NG-SIEM, Kusto Query Language (KQL), SOAR automation, Logic Apps, alert triage, detection rule development
- **Email and Web Security:** Mimecast, Check Point Harmony, Microsoft Defender for Office 365; experience with web proxy and content inspection platforms
- **Identity and Access Management (IAM):** Microsoft Entra ID (Azure Active Directory), Conditional Access, MFA, SSO, Privileged Identity Management (PIM), Identity Protection
- **Privileged Access Management (PAM):** BeyondTrust PAM - credential vaulting, session recording, least-privilege enforcement, access certification
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS) - scanning, risk prioritisation, remediation coordination
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune - device enrolment, compliance policy, endpoint hardening
- **Perimeter Security:** Check Point Harmony firewalls, WAF/DDoS awareness, IDS/IPS rule management, network segmentation
- **Scripting and Automation:** PowerShell, KQL; SOAR playbook development and automation of incident response workflows
- **Frameworks and Standards:** MITRE ATT&CK, NIST 800-61, NIST Cybersecurity Framework (CSF), ISO 27001, Cyber Essentials Plus, CIS Controls

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Manage and optimise the CrowdStrike Falcon platform (EDR, Prevent, NG-SIEM, Insight, and Discover modules) across 8,000 endpoints, ensuring comprehensive threat coverage, visibility, and detection capability across the enterprise.
- Operate SIEM and SOAR workflows, triaging EDR and XDR alerts, correlating events across data sources, and coordinating structured incident response in line with NIST 800-61 incident response

procedures and the MITRE ATT&CK framework.

- Administer Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and the wider Microsoft 365 Defender suite to protect identities, endpoints, and collaboration workloads from advanced threats.
- Lead enterprise vulnerability management programmes using Tenable.io, AppCheck, and Pentera BAS, prioritising findings by risk severity and coordinating remediation across infrastructure, application, and cloud teams.
- Manage Microsoft Entra ID (formerly Azure Active Directory) security configurations, including Conditional Access policies, MFA enforcement, SSO integration, Privileged Identity Management (PIM), and Identity Protection alerts.
- Administer BeyondTrust PAM to enforce least-privilege access across privileged accounts and systems, including credential vaulting, session recording, and access request lifecycle management.
- Maintain Mimecast email security gateway, configuring anti-phishing, anti-spoofing, URL rewriting, sandboxing, and threat intelligence feeds to protect against email-borne threats at scale.
- Oversee Microsoft Intune MDM and MAM policies, enforcing device compliance, application controls, and security baselines across 8,000 corporate and BYOD endpoints.
- Conduct threat hunting in Microsoft Sentinel using KQL and CrowdStrike Falcon Insight to proactively identify indicators of compromise and develop detection rules aligned with MITRE ATT&CK tactics and techniques.
- Deliver security awareness training programmes and phishing simulation campaigns, improving user reporting rates and reducing the organisation's susceptibility to social engineering attacks.
- Support firewall management and IDS/IPS policy review using Check Point Harmony, maintaining perimeter security controls and monitoring for anomalous traffic patterns.

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Monitored and investigated security alerts from CrowdStrike Falcon, Microsoft Sentinel, and Microsoft Defender, performing triage, root-cause analysis, and incident containment in accordance with defined incident response procedures.
- Supported the deployment and configuration of Microsoft Defender for Endpoint across 8,000 devices, onboarding endpoints, tuning detection policies, and reducing false-positive alert volumes.
- Assisted in managing Microsoft Entra ID configurations including Conditional Access policies, Identity Protection, and Privileged Identity Management (PIM), supporting zero-trust identity controls across the organisation.
- Conducted vulnerability assessments using Nessus and Tenable.io, producing risk-prioritised remediation reports for infrastructure owners and senior stakeholders.
- Maintained Mimecast email security policies, reviewing quarantine reports, adjusting filtering rules, and integrating updated threat intelligence to address emerging phishing and malware campaigns.
- Contributed to BeyondTrust PAM operations including account provisioning, session monitoring, and access certification reviews to maintain privileged account governance.
- Developed PowerShell automation scripts to streamline repetitive security tasks, reducing Mean Time to Detect (MTTD) and Mean Time to Respond (MTTR) across the security operations function.
- Maintained endpoint compliance configurations through Microsoft Intune MDM and MAM policies, supporting device enrolment, quarantine remediation, and policy enforcement.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Administered endpoint protection, patch management, and vulnerability scanning across the cloud-hosted SaaS infrastructure, identifying and remediating security weaknesses to reduce attack surface.
- Managed identity and access controls, firewall rule sets, and IDS/IPS configurations to maintain a strong network security posture across a multi-tenant environment.
- Monitored security event logs and SIEM alerts, escalating anomalies through defined incident response processes and contributing to post-incident reviews.

- Supported IT security audits, ISO 27001 documentation, and risk assessment activities, ensuring alignment with compliance requirements and industry best practice.
- Maintained hardware and software asset inventories, supporting endpoint compliance tracking and lifecycle management across the organisation.

KEY ACHIEVEMENTS

- Led CrowdStrike Falcon EDR deployment and ongoing optimisation across 8,000 endpoints at UAL, achieving full endpoint visibility and significantly reducing mean time to detect and respond to security incidents.
- Deployed Microsoft Defender for Endpoint at scale across 8,000 users, integrating MDE with Microsoft Sentinel to establish a unified detection and response capability across endpoints, identities, and Microsoft 365 workloads.
- Designed and implemented SOAR automation and PowerShell workflows to reduce manual SIEM triage effort, improving analyst throughput and consistency of incident response.
- Developed MITRE ATT&CK-aligned detection rules within Microsoft Sentinel (KQL) and CrowdStrike Falcon NG-SIEM, measurably improving detection fidelity and reducing noise from low-confidence alerts.
- Managed BeyondTrust PAM across all enterprise privileged accounts, reducing the risk of credential misuse and lateral movement through enforced least-privilege access and continuous session monitoring.
- Attained CISSP certification, validating expertise across all eight domains of the Common Body of Knowledge including Security Operations, Identity and Access Management, and Security Assessment and Testing.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
