

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike Specialist | Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR)

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience protecting large enterprise environments across endpoint, identity, and cloud security domains. My core expertise lies in administering and optimising CrowdStrike Falcon across Endpoint Detection and Response (EDR), Next-Generation Security Information and Event Management (NG-SIEM), and threat prevention, alongside managing Security Orchestration, Automation and Response (SOAR) platforms and web and email security gateways including Mimecast. I have strong practical experience configuring and maintaining Entra ID (formerly Azure Active Directory), Conditional Access policies, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM), and Mobile Application Management (MAM) via Microsoft Intune. I hold the Certified Information Systems Security Professional (CISSP) certification and bring a proven track record in vulnerability management, Privileged Access Management (PAM), and incident response aligned to the National Institute of Standards and Technology (NIST) 800-61 framework. I am committed to delivering measurable improvements in security posture within fast-paced, regulated environments and am comfortable operating in small, focused security teams where breadth and ownership are essential.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint and Extended Detection and Response:** CrowdStrike Falcon (EDR, NG-SIEM, Prevent, Insight, Discover) - Expert level; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **SIEM and SOAR:** CrowdStrike Falcon LogScale (NG-SIEM), Microsoft Sentinel with Kusto Query Language (KQL), alert triage, use-case development, playbook automation
- **Email and Web Security:** Mimecast email security gateway administration; Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) mitigation
- **Identity and Access Management:** Microsoft Entra ID / Azure Active Directory, Conditional Access, MFA, SSO, BeyondTrust Privileged Access Management (PAM)
- **Endpoint and Device Management:** Microsoft Intune, MDM and MAM policy management
- **Vulnerability Management:** Tenable.io, AppCheck, Nessus; vulnerability scanning, remediation prioritisation, and penetration test finding remediation
- **Incident Response:** NIST 800-61 methodology, MITRE ATT&CK framework mapping, root cause analysis, containment and recovery
- **Firewall and Network Security:** Check Point Harmony firewall; IDS/IPS configuration and monitoring; network security policy management
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Scripting and Automation:** PowerShell scripting for security automation; SOAR playbook development
- **Additional Tools:** Tanium, Splunk / Search Processing Language (SPL), Pentera Breach and Attack Simulation (BAS)

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Lead administration and continuous tuning of CrowdStrike Falcon across EDR, NG-SIEM, Prevent, Insight, and Discover modules, maintaining full endpoint visibility across the enterprise estate.
- Manage SIEM and SOAR operations including alert triage, escalation workflows, and automated playbook execution to reduce mean time to respond to security incidents.

- Oversee Mimecast email security gateway configuration, policy management, and threat intelligence integration to protect against phishing, business email compromise, and malware delivery.
- Administer Microsoft Entra ID (formerly Azure Active Directory) including Conditional Access policies, MFA enforcement, SSO integrations, and identity governance controls.
- Manage Microsoft Intune MDM and MAM policies across Windows, macOS, iOS, and Android devices, enforcing compliance baselines and application protection.
- Deliver vulnerability management programmes using Tenable.io and Pentera Breach and Attack Simulation, including scanning, prioritisation, and remediation tracking; coordinate remediation of penetration test findings with infrastructure and development teams.
- Lead and support incident response activities in line with NIST 800-61, performing root cause analysis, containment, eradication, and post-incident reviews.
- Administer BeyondTrust Privileged Access Management (PAM) to enforce least-privilege access across administrative accounts and critical systems.
- Maintain IDS/IPS rules and security certificate lifecycle management across internal and internet-facing services.
- Deliver security awareness training and phishing simulations to staff; produce security metrics and reporting for the IT Security Officer and senior stakeholders.

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Supported deployment and ongoing administration of CrowdStrike Falcon EDR across the 8,000-user estate, developing detection policies and response playbooks.
- Configured and managed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) within the Microsoft 365 Defender suite, contributing to a consolidated Extended Detection and Response (XDR) capability.
- Performed daily SIEM alert triage using Microsoft Sentinel and KQL, investigating suspected malware infections, phishing campaigns, and identity compromise events.
- Administered Azure Active Directory Conditional Access and MFA policies, supporting the rollout of SSO across critical business applications.
- Managed Mimecast email gateway policies including anti-phishing, anti-spoofing, URL rewriting, and attachment sandboxing.
- Conducted vulnerability assessments using Tenable.io and AppCheck, tracking remediation progress against agreed Service Level Agreements (SLAs).
- Supported BeyondTrust PAM deployments and maintained privileged account policies in line with CIS Controls and Cyber Essentials Plus requirements.
- Assisted with firewall policy reviews and WAF rule management; monitored IDS/IPS alerts and escalated anomalous activity for investigation.

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Delivered endpoint security configuration and hardening across Windows and macOS device fleets using Intune MDM/MAM policies and Group Policy.
- Managed Active Directory and Azure Active Directory user lifecycle, access provisioning, and MFA enrolment for internal and client-facing environments.
- Supported vulnerability scanning activities and tracked remediation items to closure against ISO 27001 and Cyber Essentials Plus controls.
- Assisted with security incident investigation, log analysis, and escalation using available SIEM tooling and network monitoring systems.
- Maintained security certificates across infrastructure components and supported PKI lifecycle management.

KEY ACHIEVEMENTS

- Led the enterprise-wide CrowdStrike Falcon deployment and ongoing optimisation across the 8,000-user UAL estate, achieving full endpoint visibility and reducing dwell time for detected threats.

- Developed and tuned SIEM use cases and SOAR playbooks that materially reduced alert fatigue and improved mean time to respond to security incidents.
- Designed and enforced Conditional Access and MFA policies across Entra ID, significantly reducing the risk of identity-based compromise and achieving compliance with Cyber Essentials Plus.
- Coordinated successful remediation of critical and high findings from third-party penetration tests, reducing attack surface risk across web-facing and internal systems.
- Delivered security awareness and phishing simulation programmes that resulted in a measurable reduction in staff click rates on simulated phishing emails.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
