PROSPER AWUNI

Senior Cyber Security Analyst | Enterprise-Wide Security Operations and Engineering

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Analyst with over five years of experience developing and enhancing enterprise-wide cyber security operations across global hybrid environments. I bring expert-level capability across Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR) / Extended Detection and Response (XDR), Intrusion Detection and Prevention Systems (IDS/IPS), firewall administration, and incident response, backed by a proven record of delivering high-impact security improvements at scale. I have operated as a senior security practitioner reporting to IT leadership, designing and implementing security controls and providing subject-matter expertise that enables informed risk-based decision-making across complex, multi-site organisations.

CORE SKILLS AND TECHNICAL STACK

- **SIEM and Analytics:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (Kusto Query Language (KQL)), Splunk (Search Processing Language (SPL))
- **EDR and XDR:** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Microsoft Defender for Endpoint (MDE), Microsoft Defender XDR, Microsoft Defender for Identity (MDI)
- **Network Security:** Check Point Harmony firewall, IDS/IPS monitoring and tuning, perimeter security management
- **Security Operations:** Alert triage, threat hunting, incident response, detection engineering, MITRE ATT&CK framework
- **Incident Response:** NIST SP 800-61 lifecycle, containment, eradication, recovery, post-incident review and lessons learned
- **Vulnerability Management:** Tenable.io, Nessus, Pentera Breach and Attack Simulation (BAS), AppCheck
- **Identity and Access Management (IAM):** Azure Active Directory (Azure AD) / Microsoft Entra ID, Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM)
- **Cloud Security:** Microsoft Azure, Microsoft Intune Mobile Device Management (MDM) / Mobile Application Management (MAM), hybrid cloud security operations
- **Scripting and Automation:** PowerShell security scripting, Security Orchestration, Automation and Response (SOAR) playbook engineering
- **Frameworks:** NIST Cybersecurity Framework (CSF), Center for Internet Security (CIS) Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)
Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Lead the development and enhancement of enterprise-wide cyber security operations, managing SIEM, EDR/XDR, and SOAR platforms across a complex, multi-site hybrid environment serving approximately 8,000 users.
- Administer and tune CrowdStrike Falcon EDR, Microsoft Defender XDR, and Microsoft Sentinel SIEM, maintaining high-fidelity detection coverage and minimising false-positive alert volumes.
- Oversee firewall policy management and IDS/IPS monitoring, reviewing and adjusting rules to reflect current threat intelligence and infrastructure changes.
- Direct incident response operations following the NIST SP 800-61 framework, coordinating cross-functional teams through investigation, containment, eradication, and recovery phases.
- Manage the Vulnerability Management programme using Tenable.io and Pentera BAS, prioritising remediation based on exploitability and business impact across both internal and external attack surfaces.
- Collaborate with IT and infrastructure teams to embed security controls into cloud migration and digital transformation projects, ensuring security-by-design principles are applied throughout.

University of the Arts, London (UAL)

Cyber Security Analyst, Cyber Security and Identity *March 2022 – March 2025*

- Performed comprehensive SIEM alert triage and investigation across Microsoft Sentinel and CrowdStrike Falcon, classifying incidents and escalating confirmed threats in line with operational procedures.
- Supported the deployment and ongoing management of Microsoft Defender for Endpoint and CrowdStrike Falcon EDR, contributing to endpoint hardening and policy tuning across the institution.
- Administered Azure Active Directory (Azure AD) / Microsoft Entra ID and Conditional Access policies, strengthening identity security controls and enforcing least-privilege access principles.
- Supported Check Point Harmony firewall administration and IDS/IPS monitoring, reviewing alerts and assisting with rule optimisation to maintain effective perimeter defences.
- Assisted with vulnerability assessments using Tenable.io and AppCheck, tracking remediation through to completion and contributing to Cyber Essentials Plus certification.
- Authored security runbooks, incident response playbooks, and operational procedures, improving analytical consistency and documentation standards across the security team.

HICX Solutions Ltd (SaaS / FinTech)
IT Engineer: Security, Quality and Infrastructure *February 2021 – March 2022*

- Designed, implemented, and maintained security controls across cloud and on-premise infrastructure within a Software as a Service (SaaS) FinTech organisation, covering endpoint, network, and identity security domains.
- Supported security monitoring, alert investigation, and access control administration, contributing to a reduction in unmitigated risk across the production environment.
- Assisted with security quality assurance, internal audits, and compliance reporting, ensuring alignment with organisational security policies and customer contractual requirements.

KEY ACHIEVEMENTS

- Delivered enterprise-wide deployment of Microsoft Defender for Endpoint (MDE) across approximately 8,000 users, achieving comprehensive EDR and XDR coverage across a complex global environment.
- Implemented BeyondTrust Privileged Access Management (PAM) controls, reducing privileged account risk and providing comprehensive session recording for audit and compliance purposes.
- Built and operationalised a threat-hunting capability aligned to MITRE ATT&CK, proactively identifying attacker behaviours before escalation to full incidents.
- Led UAL's successful Cyber Essentials Plus certification, coordinating technical evidence gathering and remediating gaps across all five control categories.
- Engineered SOAR automation playbooks that streamlined alert triage and reduced mean time to respond (MTTR) for common incident patterns across endpoint, identity, and email vectors.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
