PROSPER AWUNI

Senior Security Analyst | CISSP-Certified L3 Incident Investigation and Security Operations

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Security Analyst with over five years of experience leading senior (L3) security investigations, incident response operations, and Security Information and Event Management (SIEM)-driven threat detection across complex hybrid environments. I combine deep technical expertise across CrowdStrike Falcon, Microsoft Sentinel, and Microsoft Defender with a structured analytical approach grounded in the NIST SP 800-61 and MITRE ATT&CK frameworks. I am accustomed to acting as the most senior technical analyst within a security operations function, providing expert investigation, mentoring analysts at earlier career stages, and translating security findings into clear risk guidance for senior stakeholders.

CORE SKILLS AND TECHNICAL STACK

- **Senior (L3) Incident Investigation:** Advanced threat analysis, forensic investigation, root cause determination, full incident lifecycle management
- **SIEM and Analytics:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (Kusto Query Language (KQL)), Splunk (Search Processing Language (SPL))
- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Microsoft Defender for Endpoint (MDE), Microsoft Defender XDR
- **Incident Response:** NIST SP 800-61 framework, containment, eradication, recovery, post-incident review; Cyber Essentials Plus
- **Threat Hunting:** Proactive hunting using KQL and CrowdStrike Falcon Insight, MITRE ATT&CK tactics, techniques, and procedures (TTPs) mapping
- **Vulnerability Management:** Tenable.io, Nessus, Pentera Breach and Attack Simulation (BAS), AppCheck, risk-based remediation prioritisation
- **Identity and Access Management (IAM):** Azure Active Directory (Azure AD) / Microsoft Entra ID, Conditional Access, Multi-Factor Authentication (MFA), BeyondTrust Privileged Access Management (PAM)
- **Cloud Security:** Microsoft Azure, hybrid cloud environments, Microsoft Intune, mobile device management
- **Scripting:** PowerShell automation, Security Orchestration, Automation and Response (SOAR) playbook engineering
- **Certifications:** CISSP (exceeds CCSP, Security+ and GIAC requirements); CompTIA Security+; Microsoft Certified Solutions Associate (MCSA)
- **Frameworks:** NIST Cybersecurity Framework (CSF), Center for Internet Security (CIS) Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)
Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Act as the most senior technical security analyst within the security operations function, leading L3 investigations across endpoint, identity, network, and cloud telemetry to determine root cause, scope, and business impact of security incidents.
- Oversee the full incident response lifecycle in line with NIST SP 800-61, directing containment, eradication, recovery, and post-incident review activities, including stakeholder communication and senior management briefings.
- Manage and tune SIEM platforms including CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, developing detection logic and improving signal-to-noise ratios across an 8,000-user hybrid environment.
- Lead threat hunting operations using KQL and CrowdStrike Falcon Insight, proactively identifying adversarial behaviours mapped to MITRE ATT&CK before they escalate to confirmed incidents.
- Oversee Vulnerability Management using Tenable.io, Nessus, and Pentera Breach and Attack Simulation (BAS), correlating findings with threat intelligence to prioritise remediation by risk and exploitability.

- Provide subject-matter expert guidance to junior analysts, reviewing investigation outputs and providing coaching that accelerates team capability development.

University of the Arts, London (UAL)
Cyber Security Analyst, Cyber Security and Identity *March 2022 – March 2025*

- Performed L2/L3 security investigations across Microsoft Sentinel and CrowdStrike Falcon, triaging and escalating confirmed incidents in line with defined runbooks and response procedures.
- Conducted in-depth analysis of endpoint, identity, and network security events, applying structured investigation methodologies to determine attacker tactics, techniques, and procedures (TTPs).
- Supported deployment and configuration of Microsoft Defender for Endpoint and BeyondTrust Privileged Access Management (PAM), contributing to hardened endpoint and identity security posture.
- Administered Azure Active Directory (Azure AD) / Microsoft Entra ID and Conditional Access, enforcing least-privilege access and reducing identity-based attack vectors.
- Authored incident response runbooks, investigation guides, and operational documentation, standardising analyst workflows and improving Security Operations Centre (SOC) operational maturity.
- Assisted with vulnerability assessments and remediation tracking, contributing to Cyber Essentials Plus certification and ongoing compliance.

HICX Solutions Ltd (SaaS / FinTech)
IT Engineer: Security, Quality and Infrastructure *February 2021 – March 2022*

- Supported security monitoring, incident triage, and security tooling administration within a Software as a Service (SaaS) FinTech environment, gaining foundational experience in enterprise security operations.
- Assisted with endpoint protection management, access control reviews, and firewall policy administration, contributing to reduction in security risk across the production environment.
- Participated in security quality assurance processes and internal audits, documenting findings and supporting remediation to meet internal and customer compliance requirements.

KEY ACHIEVEMENTS

- Held active Certified Information Systems Security Professional (CISSP) certification throughout the role, meeting and exceeding the professional qualification requirements for senior security analyst positions.
- Built and led an in-house threat-hunting capability aligned to MITRE ATT&CK, proactively identifying credential abuse, lateral movement, and persistence activities before they reached incident status.
- Led UAL's end-to-end incident response operations as the senior technical point of authority, managing incidents from initial detection through to executive-level reporting and lessons-learned integration.
- Directed deployment of Microsoft Defender for Endpoint (MDE) across approximately 8,000 users, achieving full EDR coverage and significantly elevating the university's detection and response maturity.
- Implemented BeyondTrust Privileged Access Management (PAM), reducing privileged credential exposure and enabling full session auditing across administrative access paths.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
