

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike | SIEM/SOAR | Entra ID | Mimecast | Intune

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Cyber Security Engineer with over five years of hands-on experience managing and optimising enterprise security platforms including CrowdStrike Falcon for Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, email and web security gateways, and Identity and Access Management (IAM) infrastructure. I bring extensive practical experience in CrowdStrike Falcon EDR alert triage and optimisation, Mimecast email gateway management, Microsoft Entra ID (formerly Azure Active Directory) and Conditional Access administration, and Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM). I am experienced in leading and supporting incident response aligned to the National Institute of Standards and Technology (NIST) 800-61 framework, conducting vulnerability scanning and remediation, remediating penetration test findings, and delivering security awareness training. I hold the Certified Information Systems Security Professional (CISSP) certification and have a strong background in threat monitoring, root-cause analysis, and the practical day-to-day operation of a multi-technology security stack within a large, complex organisation.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (Prevent, Insight, Discover, EDR, NG-SIEM) - Expert | Microsoft Defender for Endpoint (MDE) - Strong | Microsoft Defender for Identity (MDI) | Microsoft 365 (M365) Defender
- **SIEM/SOAR:** Microsoft Sentinel with Kusto Query Language (KQL) | CrowdStrike NG-SIEM | Splunk / Security Processing Language (SPL) | SOAR playbook development and automation
- **Email and Web Security:** Mimecast email gateway (policy configuration, threat response, quarantine management) | Check Point Harmony
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (AD) | Conditional Access | Multi-Factor Authentication (MFA) | Single Sign-On (SSO) | BeyondTrust Privileged Access Management (PAM)
- **Endpoint and MDM:** Microsoft Intune (MDM/MAM) | Tanium | CrowdStrike Falcon Prevent | Device compliance and application control
- **Vulnerability Management:** Pentra Breach and Attack Simulation (BAS) | Tenable.io | AppCheck | Nessus | Penetration test finding remediation
- **Incident Response:** NIST 800-61 | Threat monitoring | Root-cause analysis | Containment and recovery | Security awareness training
- **Scripting:** PowerShell | Kusto Query Language (KQL)
- **Frameworks:** MITRE ATT&CK | NIST Cybersecurity Framework (CSF) | CIS Controls | ISO 27001 | Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

- University of the Arts, London (UoA) | Senior Cyber Security Analyst / Engineer** March 2025 - Present
- Manage CrowdStrike Falcon EDR platform, tuning detection policies, alert thresholds, and response actions to maximise effectiveness and minimise false positives across the endpoint estate.
 - Administer SIEM and SOAR platforms including Microsoft Sentinel and CrowdStrike NG-SIEM, monitoring security events and developing Kusto Query Language (KQL) detection rules and automated response playbooks.
 - Manage Mimecast email security gateway, including anti-phishing policy configuration, URL protection, impersonation detection, and quarantine management.

- Administer Microsoft Entra ID (Azure AD), Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO), maintaining secure identity governance across the institution.
- Manage Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, enforcing device compliance, encryption standards, and application control policies.
- Execute vulnerability scanning and remediation tracking using Pentera Breach and Attack Simulation (BAS), Tenable.io, and AppCheck; remediate penetration test findings within agreed timelines and produce clear reporting for management.
- Administer BeyondTrust Privileged Access Management (PAM) platform, managing privileged credential vaulting, session monitoring, and least-privilege access reviews.
- Deliver security awareness training and phishing simulation campaigns, reducing employee susceptibility to social engineering attacks.
- Manage security certificates and cryptographic asset inventory across institutional systems.

University of the Arts London (UAL) | Cyber Security Analyst, Cyber Security and Identity
 Investigated and investigated security alerts using CrowdStrike Falcon, Microsoft Sentinel, and Microsoft Defender for Endpoint (MDE), applying structured analysis to confirm incidents and coordinate appropriate response actions. *March 2022 - March 2025*

- Supported deployment and ongoing configuration of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across an estate of over 8,000 users, establishing comprehensive endpoint and identity threat visibility.
- Administered Microsoft Entra ID (Azure AD) and Conditional Access, managing user access reviews, Multi-Factor Authentication (MFA) enforcement, and privileged account governance.
- Managed Mimecast email security policies, configuring anti-phishing, anti-spoofing, Sender Policy Framework (SPF)/DomainKeys Identified Mail (DKIM)/Domain-based Message Authentication, Reporting and Conformance (DMARC) enforcement, and quarantine release processes.
- Maintained BeyondTrust Privileged Access Management (PAM) platform and Microsoft Intune MDM/MAM, supporting onboarding of managed devices and privileged accounts.
- Conducted vulnerability assessments using Tenable.io and AppCheck, reporting findings to system owners and tracking remediation to closure.
- Developed PowerShell automation scripts to improve efficiency of alert enrichment, account management, and security reporting.

HUX Solutions Ltd (SaaS/FinTech) | IT Engineer, Security, Quality and Infrastructure
 Implemented and maintained security controls including endpoint protection, email security, and identity governance within a Software as a Service (SaaS) and Financial Technology (FinTech) environment. *February 2021 - March 2022*

- Managed security event monitoring and incident response activities, supporting rapid identification and escalation of security incidents within the organisation.
- Contributed to infrastructure quality assurance, security policy development, and security awareness initiatives aligned to industry best practices.

KEY ACHIEVEMENTS

- Led the enterprise deployment of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000+ users at UAL, achieving full endpoint and identity threat visibility and enabling comprehensive EDR alert triage.
- Optimised CrowdStrike Falcon EDR detection policies and alert tuning, significantly reducing false-positive alert volume and improving signal quality across the endpoint estate.
- Built Microsoft Sentinel Security Information and Event Management (SIEM) detection library using Kusto Query Language (KQL), creating custom analytics rules aligned to MITRE ATT&CK that improved mean time to detect (MTTD) across priority threat categories.
- Designed and implemented Security Orchestration, Automation and Response (SOAR) playbooks automating alert enrichment and triage for over 60% of common alert types, reducing manual investigation time.
- Streamlined BeyondTrust Privileged Access Management (PAM) onboarding through PowerShell automation, reducing provisioning time and ensuring consistent least-privilege enforcement.

- Implemented Pentera Breach and Attack Simulation (BAS) as part of the vulnerability management programme, providing continuous evidence of security control effectiveness and enabling prioritised remediation.
-

EDUCATION

- M.Sc. Environmental and Resource Engineering
 - B.Sc. Chemical Engineering
-

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
