

PROSPER AWUNI

Senior Cyber Security Engineer

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience leading Security Information and Event Management (SIEM) operations, Endpoint Detection and Response (EDR) tuning, and incident response within complex enterprise environments. I bring deep expertise in CrowdStrike Falcon across the full product suite, including Falcon Prevent, Falcon Insight, Falcon Discover, and CrowdStrike NG-SIEM, alongside strong knowledge of Microsoft Defender for Endpoint (MDE), Microsoft Entra ID (formerly Azure Active Directory), and Microsoft Intune for Mobile Device Management and Mobile Application Management (MDM/MAM). I am proven in leading and supporting incident response aligned to the National Institute of Standards and Technology (NIST) 800-61 framework, threat monitoring, root-cause analysis, and the remediation of penetration test findings. I hold the Certified Information Systems Security Professional (CISSP) certification and bring a structured, engineering-led approach to securing multi-platform environments, email and web security gateways, Privileged Access Management (PAM) platforms, and cloud infrastructure. I am comfortable operating as a senior technical resource within a small, focused security team, reporting directly to a security leadership function, and contributing to ad-hoc security architecture projects.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM, EDR) - Expert | Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 (M365) Defender - Strong
- **SIEM/SOAR:** Microsoft Sentinel with Kusto Query Language (KQL) | CrowdStrike NG-SIEM | Splunk/Security Processing Language (SPL) - Moderate | Security Orchestration, Automation and Response (SOAR) automation and playbook development
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (AD) | Conditional Access | Multi-Factor Authentication (MFA) / Single Sign-On (SSO) | BeyondTrust Privileged Access Management (PAM)
- **Endpoint and MDM:** Microsoft Intune (MDM/MAM) | Tanium | CrowdStrike Falcon Prevent
- **Email and Web Security:** Mimecast | Check Point Harmony
- **Vulnerability Management:** Pentera Breach and Attack Simulation (BAS) | Tenable.io | AppCheck | Nessus
- **Firewall and Network:** Check Point Harmony | Firewall policy management
- **Scripting and Automation:** PowerShell | Kusto Query Language (KQL)
- **Frameworks:** NIST Cybersecurity Framework (CSF) | NIST 800-61 | MITRE ATT&CK | CIS Controls | ISO 27001 | Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

- University of the Arts, London (UoA) | Senior Cyber Security Analyst / Engineer** *March 2025 - Present*
- University of the Arts, London (UoA) | Senior Cyber Security Analyst / Engineer
- and coordinating remediation across a university environment of over 8,000 users.
- Tune and optimise CrowdStrike Falcon EDR and CrowdStrike NG-SIEM for maximum effectiveness, reducing alert fatigue and improving detection fidelity across endpoint telemetry.
 - Manage SIEM and SOAR platforms including Microsoft Sentinel and CrowdStrike NG-SIEM; author custom Kusto Query Language (KQL) detection rules, analytics rules, and automated response playbooks.
 - Oversee email and web security gateway operations using Mimecast, including policy configuration, threat response, and quarantine management.
 - Administer Identity and Access Management (IAM) infrastructure including Microsoft Entra ID (Azure AD), Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO) integration.

- Manage Mobile Device Management and Mobile Application Management (MDM/MAM) via Microsoft Intune, enforcing device compliance and application control policies.
- Execute vulnerability scanning and remediation cycles using Pentera Breach and Attack Simulation (BAS), Tenable.io, and AppCheck; track remediation of penetration test findings and track closure against agreed timelines.
- Administer BeyondTrust Privileged Access Management (PAM) platform, managing privileged credential vaulting, session monitoring, and least-privilege access enforcement.
- Lead threat hunting operations using CrowdStrike Falcon Insight and Microsoft Sentinel, leveraging MITRE ATT&CK framework to identify adversary techniques and improve detection coverage.
- Develop and maintain security policies and standards aligned to NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, and Cyber Essentials Plus.
- Deliver security awareness training and phishing simulation programmes to staff across the institution.

University of the Arts London (UAL) | Cyber Security Analyst, Cyber Security and Identity
 Investigated and investigated threats from Crowdstrike Falcon, Microsoft Defender for Endpoint (MDE), escalating confirmed incidents to the senior engineering function. *March 2022 - March 2025*

- Supported the deployment and configuration of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the 8,000-user estate, ensuring endpoint telemetry coverage and identity-based threat visibility.
- Administered Microsoft Entra ID (Azure AD) and Conditional Access, enforcing Multi-Factor Authentication (MFA) and managing user access reviews.
- Maintained BeyondTrust Privileged Access Management (PAM) platform and supported onboarding of privileged accounts in line with least-privilege principles.
- Conducted vulnerability assessments using Tenable.io and AppCheck, reporting findings to relevant system owners and tracking remediation progress.
- Managed Mimecast email security policies, including anti-phishing, anti-spoofing, and URL protection configuration.
- Developed PowerShell automation scripts to streamline account provisioning, compliance reporting, and security event enrichment.
- Contributed to security governance activities, including policy drafting and Cyber Essentials Plus certification maintenance.

HGX Solutions Ltd (SaaS/FinTech) | IT Engineer, Security, Quality and Infrastructure
 Implemented and maintained security controls across a Software as a Service (SaaS) and Financial Technology (FinTech) environment, aligning operations to regulatory and security best practice requirements. *February 2021 - March 2022*

- Managed endpoint protection, identity governance, and network security controls, supporting a rapidly scaling technology organisation.
- Contributed to infrastructure quality assurance, security policy development, and internal security awareness initiatives.
- Supported incident triage and operational security monitoring, escalating risks and vulnerabilities in line with internal policies.

KEY ACHIEVEMENTS

- Led the deployment of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the full 8,000-user UAL estate, delivering comprehensive Endpoint Detection and Response (EDR) and identity threat coverage.
- Built and maintained a comprehensive detection library in Microsoft Sentinel using Kusto Query Language (KQL), significantly improving Security Operations Centre (SOC) detection fidelity and reducing mean time to detect (MTTD).
- Designed and implemented SOAR automation playbooks that reduced manual triage effort by automating routine alert enrichment and response actions across the SIEM and EDR stack.
- Drove Cyber Essentials Plus certification renewal across UAL, coordinating remediation of identified gaps across network segmentation, patch management, and access control.
- Implemented Pentera Breach and Attack Simulation (BAS) programme to continuously validate security controls, enabling data-driven prioritisation of vulnerability remediation.

- Streamlined BeyondTrust Privileged Access Management (PAM) onboarding process through PowerShell automation, reducing manual provisioning time and enforcing consistent least-privilege policy.
-

EDUCATION

- M.Sc. Environmental and Resource Engineering
 - B.Sc. Chemical Engineering
-

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
-
