

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | MFA/SSO | MDM/MAM

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniproper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) Senior Cyber Security Engineer with over five years of experience securing enterprise environments across endpoint detection and response (EDR), Security Information and Event Management (SIEM) and Security Orchestration Automation and Response (SOAR), web and email security gateway management, firewall administration, Multi-Factor Authentication (MFA) and Single Sign-On (SSO), Mobile Device Management (MDM) and Mobile Application Management (MAM), Privileged Access Management (PAM), vulnerability scanning and remediation, and security awareness. I am an expert in CrowdStrike Falcon EDR and bring extensive experience in Microsoft Entra ID and Azure Active Directory (AD), Microsoft Intune MDM/MAM, Mimecast email security, and BeyondTrust PAM. I have spent five years at the University of the Arts London (UAL) protecting an 8,000-user hybrid environment, working as part of a small security team on a wide variety of operational and engineering tasks including incident response, penetration test finding remediation, IDS/IPS management, and Intrusion Detection System configuration. I am comfortable working across rotating shifts, contributing to ad hoc security projects, and delivering security awareness training to a non-technical audience.

CORE SKILLS AND TECHNICAL STACK

- **CrowdStrike Falcon EDR:** Endpoint Detection and Response (EDR), NG-SIEM, Prevent, Insight, Discover - Expert level
- **SIEM/SOAR:** SIEM administration, alert triage, detection rule development, SOAR playbook authoring, automated response workflows
- **Web and Email Security Gateways:** Mimecast email security gateway, web content filtering, anti-phishing, anti-spoofing controls
- **WAF/DDoS:** Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) mitigation management
- **MFA/SSO:** Multi-Factor Authentication (MFA) administration, Single Sign-On (SSO) integration, Microsoft Entra ID/Azure Active Directory (AD), Conditional Access
- **MDM/MAM:** Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM) policy management
- **Privileged Access Management (PAM):** BeyondTrust PAM, least-privilege access enforcement, privileged account governance
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus, vulnerability scanning and remediation tracking
- **Firewall and IDS/IPS:** Check Point Harmony firewall, Intrusion Detection and Prevention System (IDS/IPS) administration, firewall rule management
- **Microsoft Security Stack:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender, Microsoft Sentinel, KQL
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework, threat containment and remediation
- **Scripting and Automation:** PowerShell scripting, security automation, Tanium
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Certifications:** CISSP, CompTIA Security+, Microsoft Certified Solutions Associate (MCSA), CompTIA A+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Administered CrowdStrike Falcon EDR across the enterprise, managing endpoint detection, prevention, threat insight and discovery modules to protect 8,000+ users and devices

- Managed SIEM/SOAR platform operations including alert triage, security event investigation, detection rule development and SOAR playbook authoring to automate incident response workflows
- Maintained Mimecast email and web security gateway, configuring anti-phishing, anti-spoofing, malware scanning and URL protection rules to defend against email-borne threats
- Administered WAF/DDoS mitigation policies, working with the network and infrastructure teams to protect web-facing services from application layer and volumetric attacks
- Managed Microsoft Entra ID/Azure AD, Conditional Access policies, MFA/SSO integrations and Group Policy Objects (GPOs) to enforce strong authentication and least-privilege access across the estate
- Administered Microsoft Intune MDM/MAM policies, enforcing device compliance, encryption, data loss prevention (DLP) and application management across mobile and desktop endpoints
- Managed BeyondTrust PAM to enforce privileged account governance, vaulting and session monitoring for administrative access
- Led vulnerability management programme using Pentera BAS, Tenable.io and AppCheck, conducting regular scans, prioritising findings by risk and coordinating remediation with infrastructure teams
- Maintained firewall rule sets (Check Point Harmony) and IDS/IPS configurations, reviewing policies and responding to network-level alerts
- Conducted security certificate lifecycle management, including SSL/TLS certificate renewal, revocation and deployment
- Led penetration test finding remediation activities, tracking open findings and driving closure within agreed timescales
- Delivered security awareness training and phishing simulation campaigns to staff and students across the university
- Contributed to out-of-hours security operations, responding to critical incidents and supporting the shift pattern security rota

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Performed day-to-day SIEM/SOAR alert triage and incident response using CrowdStrike Falcon and Microsoft Defender for Endpoint (MDE), investigating and containing security incidents
- Managed Microsoft Entra ID/Azure AD identity lifecycle, MFA roll-out and SSO integrations
- Administered Microsoft Intune MDM/MAM device policies, maintaining device compliance and data protection controls
- Supported vulnerability scanning with Tenable.io/Nessus and coordinated remediation with service owners
- Maintained Mimecast email security gateway rules and supported web content filtering policy management
- Conducted log analysis, SIEM query development and firewall rule reviews
- Supported ISO 27001 certification preparation and Cyber Essentials Plus accreditation activities
- Assisted with penetration test finding remediation and ad hoc security engineering projects

HICX Solutions Ltd (Software as a Service/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Deployed and configured endpoint security and EDR tooling across the corporate estate
- Administered MFA/SSO integrations and managed Active Directory identity and access controls
- Managed vulnerability assessments and remediation tracking for cloud and on-premises infrastructure
- Supported firewall and security gateway administration, including rule reviews and network access policy management
- Automated routine security tasks using PowerShell scripting to improve operational efficiency
- Assisted with MDM policy configuration and device compliance monitoring

KEY ACHIEVEMENTS

- Deployed and operationalised CrowdStrike Falcon NG-SIEM and EDR across a complex multi-site university environment, delivering full endpoint visibility and detection capability
- Led Microsoft Defender for Endpoint (MDE) deployment covering 8,000 users, significantly reducing malware dwell time and improving incident detection speed

- Designed SOAR playbooks to automate incident triage and response workflows, reducing mean time to respond (MTTR) by over 40%
- Implemented BeyondTrust PAM governance, eliminating standing privileged access for high-risk administrative accounts across the estate
- Achieved and maintained Cyber Essentials Plus certification, remediating technical control gaps across the MDM/MAM, firewall and vulnerability management domains
- Delivered enterprise-wide security awareness training programme, reducing phishing simulation click rates by over 50% within 12 months

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
