

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM/SOAR/EDR | Hybrid

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) Senior Cyber Security Engineer with over five years of hands-on experience securing large enterprise environments across endpoint detection and response (EDR), Security Information and Event Management (SIEM), Security Orchestration Automation and Response (SOAR), firewall and gateway management, identity and access management, mobile device management, and vulnerability management. I bring expert-level proficiency in CrowdStrike Falcon EDR, alongside deep experience in SIEM/SOAR alert triage and response, Microsoft Entra ID and Azure Active Directory (AD), Multi-Factor Authentication (MFA) and Single Sign-On (SSO), Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), Privileged Access Management (PAM), and email security via Mimecast. At the University of the Arts London (UAL), I have protected an 8,000-user environment, leading detection engineering, threat hunting, and continuous vulnerability remediation programmes. I am equally comfortable working hands-on within a focused security team and contributing to ad hoc security projects and penetration test finding remediation.

CORE SKILLS AND TECHNICAL STACK

- **EDR/Endpoint Security:** CrowdStrike Falcon (EDR, NG-SIEM, Prevent, Insight, Discover) - Expert
- **SIEM/SOAR:** SIEM/SOAR platform administration, alert triage, detection rule development, automated playbooks
- **Email and Web Security Gateways:** Mimecast email security gateway, web content filtering
- **Identity and Access Management:** Microsoft Entra ID/Azure AD, Conditional Access, MFA/SSO, Group Policy
- **MDM/MAM:** Microsoft Intune, Mobile Device Management (MDM), Mobile Application Management (MAM)
- **Privileged Access Management (PAM):** BeyondTrust PAM, least-privilege enforcement
- **Vulnerability Management:** Tenable.io, AppCheck, Pentra Breach and Attack Simulation (BAS), Nessus
- **Firewall and Network Security:** Check Point Harmony, firewall rule management, IDS/IPS, WAF/DDoS mitigation
- **Microsoft Security Stack:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Microsoft Sentinel and KQL:** Microsoft Sentinel SIEM, Kusto Query Language (KQL) queries and analytics rules
- **Incident Response:** NIST 800-61 framework, MITRE ATT&CK, containment and eradication
- **Scripting and Automation:** PowerShell scripting, security automation, SOAR playbook development
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Certifications:** CISSP, CompTIA Security+, Microsoft Certified Solutions Associate (MCSA), CompTIA A+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Deployed, configured and managed CrowdStrike Falcon across the enterprise estate, administering EDR, NG-SIEM, Prevent, Insight and Discover modules to deliver comprehensive endpoint detection and protection across 8,000+ users
- Managed SIEM/SOAR platform operations including alert triage, incident escalation, detection rule development and automated playbook authoring to reduce mean time to detect and respond to security events
- Administered Microsoft Entra ID/Azure AD identity controls, Conditional Access policies, MFA/SSO configurations and Group Policy Objects (GPOs) to enforce least-privilege access and secure user

authentication

- Maintained Microsoft Intune MDM/MAM policies, enforcing device compliance, data loss prevention (DLP) and mobile application management across corporate and bring-your-own-device (BYOD) endpoints
- Managed Mimecast email and web security gateway, configuring anti-phishing, anti-spoofing and malware scanning rules to protect the organisation from email-borne threats
- Led vulnerability management programme using Pentera BAS, Tenable.io and AppCheck, prioritising high-severity vulnerabilities and driving remediation through liaison with infrastructure teams
- Administered BeyondTrust PAM solution to enforce privileged account governance and reduce risk from insider threats and credential compromise
- Conducted advanced threat hunting aligned to MITRE ATT&CK, identifying adversary activity and strengthening detection coverage
- Maintained firewall rules (Check Point Harmony), IDS/IPS configurations and WAF/DDoS mitigation policies in collaboration with the network team
- Delivered penetration test finding remediation, tracking and closing identified vulnerabilities within agreed timeframes
- Planned and delivered security awareness training and phishing simulation campaigns across the university community

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Performed day-to-day alert triage and incident response using CrowdStrike Falcon EDR and Microsoft Defender for Endpoint (MDE), investigating and containing security incidents in line with NIST 800-61
- Managed Microsoft Entra ID/Azure AD identity lifecycle, Conditional Access policies and MFA rollout across the university estate
- Administered Microsoft Intune MDM/MAM controls, ensuring device compliance and enforcing mobile application policies
- Supported vulnerability scanning with Tenable.io/Nessus and coordinated remediation with system owners to reduce risk exposure
- Developed SIEM detection rules and conducted log correlation to identify suspicious activity and support incident investigations
- Maintained Mimecast email gateway rules, managing spam, phishing and malware filtering policies
- Contributed to penetration test remediation activities and supported the continuous improvement of security controls
- Supported ISO 27001 certification preparation and Cyber Essentials Plus accreditation activities

HICX Solutions Ltd (Software as a Service/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Deployed and configured endpoint security tooling including EDR solutions, supporting organisation-wide rollout of endpoint protection controls
- Administered MFA/SSO integrations and managed Active Directory identity and access lifecycle
- Managed vulnerability assessments and remediation tracking for cloud and on-premises infrastructure
- Supported firewall rule reviews, security gateway maintenance and network access control (NAC) policies
- Automated routine security and infrastructure tasks using PowerShell scripting, improving operational efficiency
- Assisted with MDM/MAM policy configuration and device compliance monitoring

KEY ACHIEVEMENTS

- Deployed and operationalised CrowdStrike Falcon NG-SIEM and EDR across a complex, multi-site university environment, achieving full endpoint visibility and detection capability
- Led Microsoft Defender for Endpoint (MDE) rollout covering 8,000 users, significantly reducing malware dwell time and improving incident response speed
- Designed and implemented SOAR playbooks automating incident triage and response workflows, reducing mean time to respond (MTTR) to security incidents by over 40%

- Achieved and maintained Cyber Essentials Plus certification, identifying and remediating technical control gaps across the estate
- Delivered enterprise-wide security awareness training programme, reducing phishing simulation click rates by over 50% within 12 months
- Implemented BeyondTrust PAM governance framework, eliminating standing privileged access for high-risk administrative accounts

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
