

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike | Security Information and Event Management (SIEM) | Endpoint Detection and Response (EDR) | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Cyber Security Engineer with over five years of hands-on experience implementing and managing enterprise security controls across endpoint, network, and cloud environments. I have extensive expertise operating the CrowdStrike Falcon platform for Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM), and Security Orchestration, Automation and Response (SOAR) workflows, alongside deep knowledge of Mimecast email security, BeyondTrust Privileged Access Management (PAM), Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), and Azure Active Directory (Azure AD) with Conditional Access and Multi-Factor Authentication (MFA) and Single Sign-On (SSO). In my current role at the University of the Arts, London (UAL) I protect an 8,000-user estate, managing alert response, vulnerability scanning and remediation, identity and access governance, and security awareness training. I am experienced in remediating penetration test findings, managing Intrusion Detection and Prevention Systems (IDS/IPS), and coordinating cross-functional security projects. I am seeking a permanent, hybrid Cyber Security Engineer position where I can apply these skills within a focused, high-performing security team.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR) and SIEM/SOAR:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover), Microsoft Sentinel, Splunk
- **Email Security and Web Gateway:** Mimecast email security gateway; web application firewall (WAF) and Distributed Denial-of-Service (DDoS) protection concepts
- **Identity and Access Management (IAM):** Microsoft Azure Active Directory (Azure AD) / Entra ID, Conditional Access, MFA, SSO, Group Policy; BeyondTrust PAM
- **Mobile Device and Application Management:** Microsoft Intune MDM/MAM, Microsoft Endpoint Manager
- **Vulnerability Management:** Pentra Breach and Attack Simulation (BAS), Tenable.io, AppCheck, Nessus; penetration test remediation
- **Firewall and Network Security:** Check Point Harmony firewall; IDS/IPS management; network segmentation
- **Security Frameworks:** MITRE ATT&CK, NIST Cybersecurity Framework (CSF), NIST SP 800-61, CIS Controls, ISO 27001, Cyber Essentials Plus
- **Cloud Security:** Microsoft Azure / Entra ID; Microsoft Defender for Cloud; cloud security posture management
- **Microsoft Defender Suite:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Scripting and Automation:** PowerShell; SOAR playbook development; detection rule tuning
- **Security Awareness Training:** Designing and delivering phishing simulations and security awareness programmes
- **Digital Certificates:** PKI/SSL certificate lifecycle management

PROFESSIONAL EXPERIENCE

- University of the Arts, London (UAL) – Senior EDR/Cyber Security Analyst/Engineer – March 2025 – Present
- Operate and manage the CrowdStrike Falcon EDR platform for an 8,000-user estate, managing alert triage, threat detection, and incident response in line with NIST SP 800-61.
- Manage Mimecast email security gateway, configuring policies to block phishing, malware, and Business Email Compromise (BEC) threats; monitor inbound/outbound email flows and remediate security incidents.
 - Administer BeyondTrust PAM, enforcing least-privilege access controls and managing privileged session recording and password vaulting across IT and operational systems.

- Configure and maintain Microsoft Intune MDM and MAM policies to govern corporate-owned and Bring Your Own Device (BYOD) endpoints, ensuring compliance across Windows, macOS, iOS, and Android devices.
- Manage MFA and SSO across Azure Active Directory (Azure AD) / Entra ID, enforcing Conditional Access policies and reducing identity-related risk across the user estate.
- Lead vulnerability scanning and remediation cycles using Pentera BAS, Tenable.io, and AppCheck, prioritising findings by risk severity and tracking remediation through to closure.
- Manage IDS/IPS rule sets and network security controls, investigating alerts and escalating confirmed incidents to Tier 2 response procedures.
- Remediate penetration test findings, translating technical recommendations into actionable remediation plans and tracking progress with stakeholders.
- Manage digital security certificates (PKI/SSL), monitoring expiry dates and coordinating renewal across critical services.
- Design and deliver security awareness training programmes including phishing simulations, achieving measurable reductions in click rates.
- Contribute to ad-hoc security improvement projects, including WAF policy reviews, security certificate audits, and Group Policy hardening.

University of the Arts London (UAL) – Cyber Security Analyst, Cyber Security and Identity (MDI), and
 Deployed and managed Microsoft Defender for Endpoint (MDP), Microsoft Security and Compliance Center (SCC), and Microsoft 365 Defender across the 8,000-user UAL estate, building detection rules and responding to alerts.

- Deployed and maintained Microsoft Sentinel SIEM, building Kusto Query Language (KQL) analytics rules, workbooks, and SOAR playbooks to automate alert triage and incident response.
- Administered Azure AD / Entra ID, including Conditional Access, Privileged Identity Management (PIM), and MFA enforcement for all users.
- Managed Tanium agent deployment and endpoint compliance reporting across the estate.
- Conducted threat hunting exercises aligned to MITRE ATT&CK TTPs, proactively identifying lateral movement, credential theft, and persistence indicators.
- Led vulnerability assessments using Nessus and Tenable.io, presenting risk-prioritised remediation plans to IT leadership.
- Produced security metrics dashboards and monthly reporting for senior stakeholders, communicating risk posture in accessible, non-technical language.

HGX Solutions Ltd (SaaS/FinTech) – IT Engineer, Security, Quality and Infrastructure
 Implemented and managed endpoint security controls and vulnerability scanning across a cloud-hosted SaaS environment, remediating findings from internal and third-party assessments.

- Configured and maintained firewall policies, access controls, and network security monitoring, responding to security alerts and escalating incidents as required.
- Administered identity and access management systems, enforcing MFA and least-privilege access across cloud and on-premises platforms.
- Supported ISO 27001 compliance activities and contributed to security policy development and risk assessments.
- Delivered security awareness content to staff and provided end-user security guidance across a distributed workforce.

KEY ACHIEVEMENTS

- Led CrowdStrike Falcon EDR and NG-SIEM deployment across an 8,000-user estate at UAL, reducing mean time to detect (MTTD) and mean time to respond (MTTR) through SOAR automation and tuned detection rules.
- Deployed Microsoft Defender for Endpoint, Defender for Identity, and Microsoft Sentinel across UAL, integrating SIEM telemetry with SOAR playbooks to reduce manual triage workload by over 40%.
- Reduced phishing-related security incidents through a structured security awareness training programme, cutting simulated phishing click rates significantly within six months.
- Drove end-to-end vulnerability remediation cycles using Pentera BAS and Tenable.io, reducing the organisation's critical and high-severity vulnerability exposure.

- Implemented BeyondTrust PAM controls to enforce least-privilege access for all privileged accounts, eliminating standing admin access across critical systems.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
