PROSPER AWUNI

Senior Cyber Security Engineer | Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) Specialist

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of experience delivering enterprise security operations across SIEM and SOAR platforms, Endpoint Detection and Response (EDR) and Extended Detection and Response (XDR), email and web security gateways, Privileged Access Management (PAM), and vulnerability management. I have deep hands-on expertise with CrowdStrike Falcon (Next-Generation Security Information and Event Management (NG-SIEM), EDR, Prevent, Insight and Discover) and Microsoft Sentinel, and I have led security engineering and detection engineering initiatives at scale, including an 8,000-user Microsoft Defender for Endpoint (MDE) deployment. I bring a strong track record of remediating penetration test findings, contributing to security architecture, managing Multi-Factor Authentication (MFA) and Single Sign-On (SSO) environments via Microsoft Entra ID, and automating incident response workflows through SOAR playbooks. I am seeking a permanent hybrid Senior Cyber Security Engineer role where I can apply this expertise to protect a complex, fast-paced organisation.

CORE SKILLS AND TECHNICAL STACK

- **SIEM and SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (KQL), SOAR automation and playbook development, Rapid7 InsightIDR (IDR)
- **EDR and XDR:** CrowdStrike Falcon EDR/Prevent/Insight/Discover, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 (M365) Defender
- **Email and Web Security Gateways:** Mimecast, Menlo Security, Microsoft Defender for Office 365
- **Identity and Access Management:** Microsoft Azure Active Directory (Azure AD) / Entra ID, Conditional Access, MFA, SSO, Okta (working knowledge)
- **Privileged Access Management (PAM):** BeyondTrust
- **Mobile Device Management (MDM) and Mobile Application Management (MAM):** Microsoft Intune
- **Firewalls and Network Security:** Check Point Harmony, Intrusion Detection Systems (IDS) and Intrusion Prevention Systems (IPS), WAF/DDoS management
- **Vulnerability Management:** Pentera Breach and Attack Simulation (BAS), Tenable.io, AppCheck, Nessus; remediation of penetration test findings
- **Scripting and Automation:** PowerShell, KQL, detection rule engineering (MITRE ATT&CK framework)
- **Frameworks:** NIST Cybersecurity Framework (CSF), NIST SP 800-61, CIS Controls, ISO/IEC 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Security Awareness:** Security awareness programme development and delivery; experience with KnowBe4-equivalent platforms

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) | Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Lead detection engineering and alert triage across CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, managing SOAR playbooks to reduce mean time to respond (MTTR) for high-severity security incidents.
- Oversee EDR and XDR operations across CrowdStrike Falcon Prevent and MDE, covering threat hunting, behavioural analysis, and containment of advanced threats.
- Manage the full Mimecast email security gateway configuration, including policy enforcement, anti-phishing, and impersonation protection for a 5,000+ user organisation.
- Administer Entra ID Conditional Access policies, MFA rollout and SSO integrations, strengthening identity and access management across on-premises and cloud environments.
- Oversee BeyondTrust PAM for privileged account lifecycle management, session monitoring, and least-privilege enforcement.

- Manage Intune MDM and MAM for endpoint compliance and mobile device security policy enforcement across Windows, iOS, and Android devices.
- Lead vulnerability management programme using Tenable.io and AppCheck, tracking remediation of penetration test findings and reporting to IT leadership.
- Contribute to security architecture review and design, evaluating new tooling and advising on secure-by-design principles for infrastructure projects.
- Deliver internal security awareness training to staff, covering phishing, social engineering, and safe data handling practices.
- Apply NIST CSF, CIS Controls, and ISO 27001 frameworks to maintain compliance posture and drive continuous security improvement.

University of the Arts, London (UAL) | Cyber Security Analyst, Cyber Security and Identity *March 2022 - March 2025*

- Performed day-to-day alert triage and incident investigation across SIEM platforms, escalating and managing incidents in line with NIST SP 800-61 incident response procedures.
- Supported deployment and tuning of CrowdStrike Falcon EDR across the enterprise, developing detection rules aligned to MITRE ATT&CK.
- Assisted in Mimecast email gateway policy management and monitored for phishing, malware, and Business Email Compromise (BEC) indicators.
- Supported Entra ID and Conditional Access configuration, contributing to MFA and SSO deployment projects.
- Conducted vulnerability assessments using Nessus and Tenable.io, working with infrastructure teams to track and remediate findings.
- Authored and maintained SOAR automation playbooks to streamline repetitive incident response tasks and reduce analyst toil.
- Supported Check Point Harmony firewall policy reviews and IDS/IPS monitoring activities.
- Contributed to Cyber Essentials Plus certification programmes and ISO 27001 audit preparation activities.

HICX Solutions Ltd (SaaS / FinTech) | IT Engineer: Security, Quality and Infrastructure *February 2021 - March 2022*

- Provided security and infrastructure engineering support for a cloud-native SaaS environment, including endpoint security, identity management, and patch management.
- Administered Azure Active Directory, managing user lifecycle, group policies, and MFA enrolment.
- Supported vulnerability scanning and remediation processes, coordinating with development and infrastructure teams to address findings promptly.
- Maintained MDM and MAM policies for a distributed remote workforce, ensuring device compliance and data protection.
- Assisted with network security monitoring and contributed to security incident triage and documentation.

KEY ACHIEVEMENTS

- Led the deployment of CrowdStrike Falcon EDR across an 8,000-user Microsoft 365 and Entra ID environment, achieving full endpoint visibility and reducing mean time to detect (MTTD) for endpoint threats.
- Designed and implemented SOAR automation playbooks integrating CrowdStrike, Microsoft Sentinel, and Mimecast, reducing manual analyst workload by automating phishing triage, alert enrichment, and containment actions.
- Established a continuous vulnerability management programme using Pentera BAS and Tenable.io, enabling prioritised remediation of penetration test findings and improving security posture measurably quarter-on-quarter.
- Strengthened identity security by deploying Entra ID Conditional Access policies and enforcing phishing-resistant MFA across the organisation, significantly reducing account compromise incidents.
- Supported UAL's Cyber Essentials Plus certification and ISO 27001 compliance activities, contributing to successful audit outcomes.

EDUCATION

- Master of Science (M.Sc.), Environmental and Resource Engineering
- Bachelor of Science (B.Sc.), Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)

- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
