PROSPER AWUNI

Senior Security Engineer | SIEM, SOAR, EDR and Vulnerability Management Specialist

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Security Engineer with over five years of experience managing the full spectrum of enterprise security tooling, including Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), Endpoint Detection and Response (EDR), email and web security gateways, Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) protection, Privileged Access Management (PAM), Intrusion Detection and Prevention Systems (IDS/IPS), Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM), and vulnerability management. I have deep hands-on expertise with CrowdStrike Falcon NG-SIEM and EDR, Mimecast, Microsoft Entra ID and Conditional Access, BeyondTrust PAM, Microsoft Intune MDM and Mobile Application Management (MAM), and Pentera Breach and Attack Simulation (BAS). I thrive in fast-moving financial services and technology environments and am seeking a permanent hybrid Senior Security Engineer role where I can deliver broad, hands-on security engineering excellence.

CORE SKILLS AND TECHNICAL STACK

- **SIEM and SOAR:** CrowdStrike Falcon Next-Generation SIEM (NG-SIEM), Rapid7 InsightIDR (IDR), Microsoft Sentinel (KQL), SOAR playbook development and automation
- **EDR and XDR:** CrowdStrike Falcon EDR/Prevent/Insight/Discover, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI)
- **Email and Web Security Gateways:** Mimecast, Microsoft Defender for Office 365; web gateway security management
- **WAF and DDoS:** Web Application Firewall (WAF) management and policy configuration; DDoS mitigation systems
- **Identity and Access:** Microsoft Entra ID / Azure Active Directory (Azure AD), Conditional Access, MFA, SSO; Okta (working knowledge)
- **Privileged Access Management (PAM):** BeyondTrust; least-privilege enforcement and privileged session monitoring
- **MDM and MAM:** Microsoft Intune; device compliance policy management across Windows, iOS, and Android
- **Firewalls, IDS/IPS and Network Security:** Check Point Harmony; Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) monitoring; VPN and perimeter security
- **Certificates and Key Management:** Digital certificate lifecycle management
- **Vulnerability Management:** Pentera BAS, Tenable.io, AppCheck, Nessus; remediation of penetration test findings
- **Scripting:** PowerShell, KQL, detection rule development (MITRE ATT&CK)
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO/IEC 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) | Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Manage the full enterprise security toolset, including SIEM/SOAR (CrowdStrike Falcon NG-SIEM, Microsoft Sentinel), EDR/XDR (CrowdStrike Falcon, MDE), email gateway (Mimecast), identity protection (Entra ID), PAM (BeyondTrust), and endpoint management (Intune MDM/MAM).
- Administer the Mimecast email security gateway, managing anti-phishing, anti-spam, and data loss prevention (DLP) policies for a 5,000+ user organisation.
- Oversee WAF and DDoS protection configurations, coordinating with network and infrastructure teams to maintain perimeter security posture.
- Manage Entra ID Conditional Access policies, enforcing phishing-resistant MFA and SSO standards across on-premises and cloud-connected systems.
- Administer BeyondTrust PAM, overseeing privileged account lifecycle, session monitoring, and least-privilege policy enforcement.

- Manage Intune MDM and MAM for endpoint compliance across a diverse device estate including Windows, iOS, and Android.
- Lead vulnerability management programme using Pentera BAS and Tenable.io, triaging and tracking remediation of penetration test findings and reporting progress to IT leadership.
- Manage digital certificate and key lifecycle, including renewal scheduling and monitoring for expiry risks.
- Oversee IDS/IPS monitoring and Check Point Harmony firewall policy management, maintaining network security controls and reviewing logs for anomalous activity.
- Deliver security awareness training to staff, covering phishing simulation, social engineering awareness, and safe computing practices.
- Contribute to security architecture review boards, advising on secure design for new and existing infrastructure projects.

University of the Arts, London (UAL) | Cyber Security Analyst, Cyber Security and Identity *March 2022 - March 2025*

- Performed security monitoring and incident triage across SIEM platforms including Microsoft Sentinel and CrowdStrike Falcon EDR, escalating and managing incidents in line with NIST SP 800-61.
- Supported deployment and ongoing management of CrowdStrike Falcon EDR, developing detection rules mapped to MITRE ATT&CK and tuning alert policies to reduce false positives.
- Assisted in the administration of Mimecast email security gateway, managing policy updates and responding to email-borne threats.
- Supported Entra ID and Conditional Access rollout, contributing to MFA and SSO implementation projects.
- Conducted vulnerability assessments using Nessus and Tenable.io, working with infrastructure and application teams to remediate critical findings.
- Assisted in the management of BeyondTrust PAM, supporting privileged account onboarding and session monitoring.
- Supported Check Point Harmony firewall policy reviews and contributed to IDS/IPS log monitoring activities.
- Supported Intune MDM/MAM policy management for endpoint compliance across the institution.

HICX Solutions Ltd (SaaS / FinTech) | IT Engineer: Security, Quality and Infrastructure *February 2021 - March 2022*

- Provided security and infrastructure engineering for a cloud-native SaaS environment, encompassing endpoint security, identity management, patch management, and network security.
- Administered Azure Active Directory (Azure AD), managing user lifecycle, group policies, MFA enrolment, and SSO configuration for a distributed remote workforce.
- Supported vulnerability scanning and remediation coordination, managing findings across infrastructure and applications.
- Maintained MDM and MAM policies to ensure device compliance and mobile data protection.
- Assisted with network security monitoring, contributing to firewall policy reviews and incident triage.

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR across an 8,000-user Microsoft 365 and Entra ID environment, delivering full endpoint telemetry coverage and materially reducing mean time to detect (MTTD) for endpoint threats.
- Developed SOAR automation playbooks integrating CrowdStrike Falcon NG-SIEM, Microsoft Sentinel, and Mimecast, automating phishing triage, alert enrichment, and containment actions to reduce analyst workload significantly.
- Established a mature vulnerability management programme using Pentera BAS and Tenable.io, enabling prioritised remediation of penetration test findings and demonstrating measurable improvement in security posture quarter-on-quarter.
- Strengthened identity and access security by deploying Entra ID Conditional Access and phishing-resistant MFA, reducing account compromise incidents across the organisation.
- Supported UAL's Cyber Essentials Plus certification and ISO 27001 compliance activities, contributing to successful audit outcomes.

EDUCATION

- Master of Science (M.Sc.), Environmental and Resource Engineering
- Bachelor of Science (B.Sc.), Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
