

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM/SOAR/EDR | IAM | Vulnerability Management | PAM

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience in enterprise security operations, specialising in Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), and Endpoint Detection and Response (EDR). I hold the Certified Information Systems Security Professional (CISSP) certification and bring expert-level proficiency in CrowdStrike Falcon (including Next-Generation SIEM (NG-SIEM), EDR, Prevent, Insight, and Discover modules) alongside deep experience managing web and email security gateways, Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) protection, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM), Mobile Application Management (MAM), Privileged Access Management (PAM), and Identity and Access Management (IAM) via Microsoft Entra ID (formerly Azure Active Directory). I have a proven track record of triaging and responding to security alerts, remediating penetration testing findings, conducting vulnerability scans, managing Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) tooling, and delivering security awareness training at scale in complex hybrid enterprise environments.

CORE SKILLS AND TECHNICAL STACK

- **EDR / SIEM / SOAR:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover), Microsoft Sentinel, Microsoft Defender for Endpoint (MDE), Splunk
- **Email and Web Security:** Mimecast email security gateway, WAF and DDoS mitigation, web filtering
- **Identity and Access Management (IAM):** Microsoft Entra ID (formerly Azure Active Directory (AD)), Group Policy, Conditional Access, MFA, SSO
- **Mobile Device and Application Management:** Microsoft Intune (MDM/MAM)
- **Privileged Access Management (PAM):** BeyondTrust
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; vulnerability scanning, prioritisation, and remediation tracking
- **Firewall and Network Security:** Check Point Harmony, firewall rule management, VPN, IDS/IPS, network segmentation
- **Incident Response:** National Institute of Standards and Technology (NIST) 800-61, MITRE ATT&CK framework
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), Centre for Internet Security (CIS) Controls, ISO 27001, Cyber Essentials+
- **Scripting and Automation:** PowerShell, Kusto Query Language (KQL)
- **Certifications:** CISSP, CompTIA Security+, Microsoft Certified Solutions Associate (MCSA), CompTIA A+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

- Lead SIEM/SOAR/EDR alert triage, investigation, and incident response across a hybrid estate of over 8,000 users, managing the full incident lifecycle in line with NIST 800-61 and MITRE ATT&CK.
- Own and optimise the CrowdStrike Falcon platform (NG-SIEM, EDR, Prevent, Insight, and Discover), managing sensor deployment, detection policies, threat hunting, and proactive alert response.
- Manage Mimecast email security gateway, configuring anti-spam, anti-malware, and impersonation protection policies to reduce phishing and malware delivery across the organisation.
- Administer Microsoft Entra ID (formerly Azure Active Directory), Conditional Access policies, MFA enforcement, and SSO integrations, ensuring Zero Trust access controls for all 8,000 users.

- Deploy and manage Microsoft Intune (MDM/MAM) across the enterprise, enforcing device compliance, application management, and remote wipe capabilities.
- Manage BeyondTrust Privileged Access Management (PAM) solution, enforcing least-privilege access, vaulting privileged credentials, and maintaining comprehensive audit trails.
- Execute the vulnerability management lifecycle using Tenable.io, Pentra BAS, AppCheck, and Nessus; conduct vulnerability scans/remediation, prioritising findings by exploitability and business impact.
- Manage penetration test engagements and lead structured remediation programmes, tracking findings through to closure and reporting on risk reduction progress.
- Maintain firewall rules, IDS/IPS configurations, and network segmentation policies using Check Point Harmony, reducing the organisation's attack surface.
- Deliver security awareness training and phishing simulation campaigns to staff, measurably reducing click rates and improving security culture.
- Maintain PKI and security certificate lifecycle management across enterprise systems and web services.
- Contribute to SOC process improvement, detection engineering, and SOAR playbook development to reduce mean time to detect (MTTD) and mean time to respond (MTTR).

University of the Arts, London (UAL)

March 2022 - March 2025

- Cyber Security Analyst, Cyber Security
- Monitored and triaged SIEM, EDR, and email security alerts, escalating and responding to confirmed incidents in line with defined playbooks.
- Administered CrowdStrike Falcon EDR platform, managing agent deployment, policy tuning, and day-to-day alert investigation.
- Managed Mimecast email security gateway policies and investigated email-based threats including phishing, Business Email Compromise (BEC), and malware delivery.
- Administered Microsoft Entra ID/Azure AD, Group Policy, and user access reviews, supporting IAM operations for 8,000 users.
- Performed vulnerability assessments using Tenable.io and Nessus, producing prioritised remediation reports for IT and infrastructure teams.
- Supported Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) platform operations.
- Contributed to Microsoft Sentinel KQL detection query development for threat hunting and alert rule optimisation.
- Managed Microsoft Intune endpoint compliance policies and mobile device enrolment.
- Delivered phishing simulation campaigns and security awareness sessions, tracking and reporting on staff improvement metrics.
- Supported Privileged Access Management (PAM) operations and access review processes.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

- Engineer, Security, Quality and Infrastructure
- Administered endpoint security, MDM/MAM, and user access controls in a SaaS and FinTech environment.
- Managed Active Directory, Group Policy, and user provisioning; supported firewall rule reviews and VPN administration.
- Supported vulnerability assessment, patch management, and security certificate management processes.
- Assisted with ISO 27001 compliance activities, risk assessments, and internal audit preparations.
- Delivered IT security support and security awareness training to staff across the organisation.

KEY ACHIEVEMENTS

- Deployed and operationalised CrowdStrike Falcon across 8,000 endpoints at UAL, achieving 100% endpoint telemetry visibility and significantly reducing MTTD and MTTR.
- Implemented Microsoft Entra ID Conditional Access and MFA for all 8,000 UAL users, enforcing Zero Trust and materially reducing identity-related security incidents.
- Led the deployment of BeyondTrust PAM, eliminating uncontrolled privileged account usage and delivering a complete privileged session audit capability.
- Drove a sustained reduction in phishing susceptibility through structured security awareness and simulated phishing programmes, achieving measurable year-on-year improvement.

- Managed remediation of 100+ critical and high vulnerabilities identified through Tenable.io and Pentera BAS, reducing overall vulnerability exposure by over 60%.
- Supported Cyber Essentials+ certification attainment, demonstrating compliance with government-backed security baseline controls.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
