

PROSPER AWUNI

Senior Cyber Security Engineer - CrowdStrike, SIEM, EDR and Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience securing large, complex environments. I specialise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations, email and web security gateway management via Mimecast, and enterprise vulnerability management. I have a strong track record of managing end-to-end incident response, administering Privileged Access Management (PAM) using BeyondTrust, and enforcing identity and access controls through Microsoft Entra ID (formerly Azure Active Directory), Multifactor Authentication (MFA) and Single Sign-On (SSO). I am equally experienced in Mobile Device Management (MDM) and Mobile Application Management (MAM) using Microsoft Intune, and I am comfortable operating within small, focused security teams reporting directly to senior leadership. I bring a methodical, engineering-driven approach to implementing, hardening and maintaining robust security across global infrastructure.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR) / Extended Detection and Response (XDR):** CrowdStrike Falcon (Next-Generation SIEM, EDR, Prevent, Insight, Discover) - Expert; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender - Strong
- **SIEM / SOAR:** Microsoft Sentinel (KQL), CrowdStrike Falcon NG-SIEM, Splunk - alert triage, detection engineering, incident management, playbook development
- **Email and Web Security Gateway:** Mimecast - configuration, policy management, phishing and malware response
- **Vulnerability Management:** Pentera Breach and Attack Simulation (BAS), Tenable.io, AppCheck, Nessus - scanning, prioritisation and remediation
- **Identity and Access Management:** Microsoft Entra ID / Azure AD, Conditional Access, MFA, SSO, Group Policy - hybrid environments, 8,000-user deployment
- **Privileged Access Management (PAM):** BeyondTrust - privileged session management, credential vaulting, least-privilege enforcement
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune - device compliance, app protection policies, BYOD
- **Firewall and Network Security:** Check Point Harmony Firewall, WAF / DDoS protection, IDS / IPS
- **Tanium, Mimecast, Microsoft Purview**
- **PowerShell scripting** and SOAR automation
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework alignment
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Lead enterprise-wide deployment, configuration and management of CrowdStrike Falcon EDR across 8,000+ endpoints, including policy tuning, alert triage, threat investigation and response
- Manage SIEM and SOAR platforms, including Microsoft Sentinel and CrowdStrike Falcon NG-SIEM, to monitor, investigate and respond to security alerts in line with NIST 800-61 and MITRE ATT&CK
- Oversee Mimecast email and web security gateway configuration, enforcing anti-phishing, anti-malware and content filtering policies for an 8,000-user estate
- Administer BeyondTrust PAM to control and audit privileged account access, enforcing least-privilege access across all administrative accounts

- Manage Microsoft Intune MDM and MAM, enforcing device compliance policies and application controls across corporate and BYOD devices
- Administer Microsoft Entra ID, Conditional Access, MFA and SSO policies to enforce zero-trust identity controls in a hybrid on-premises and cloud environment
- Lead vulnerability scanning and remediation programmes using Pentera, Tenable.io and AppCheck, producing risk-prioritised remediation reports for technical and executive audiences
- Manage firewall policies and network security configurations, including Check Point Harmony, IDS / IPS, and WAF controls
- Respond to and remediate penetration test findings, coordinating with internal teams and third-party assessors
- Deliver security awareness training and phishing simulation exercises to reduce human-risk across the organisation
- Produce threat intelligence reports, security metrics, and Key Performance Indicators (KPIs) for the IT Security Officer and executive stakeholders

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Monitored and triaged SIEM alerts across Microsoft Sentinel and CrowdStrike Falcon, investigating potential security incidents and escalating in line with response playbooks
- Deployed and managed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI), configuring policies and responding to detections
- Supported identity lifecycle management, Azure Active Directory (Azure AD) Conditional Access design, and MFA rollout across an 8,000-user estate
- Conducted vulnerability assessments using Nessus and AppCheck, providing prioritised remediation guidance to technical teams
- Assisted in configuring and managing Mimecast email security policies, reducing phishing exposure across the organisation
- Supported incident response investigations, performing log analysis, root cause identification and post-incident reporting
- Contributed to Cyber Essentials+ certification activities and ISO 27001-aligned security control implementation
- Produced security metrics, KPIs and reporting dashboards for senior stakeholders

HICX Solutions Ltd (SaaS / FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Implemented and maintained security controls across cloud and on-premises infrastructure in a SaaS/FinTech environment
- Configured endpoint security policies and managed MDM for corporate devices
- Supported network security operations including firewall rule management and access control list (ACL) configuration
- Conducted vulnerability assessments and contributed to security audits and compliance reviews
- Delivered IT infrastructure support, including server administration, network configuration and user provisioning
- Produced PowerShell automation scripts to streamline security configuration management and reporting

KEY ACHIEVEMENTS

- Led the deployment of CrowdStrike Falcon EDR across 8,000+ endpoints at UAL, delivering material improvements to threat visibility, alert fidelity and mean time to respond (MTTR)
- Implemented a BeyondTrust PAM programme at UAL, eliminating standing privileged access for over 200 administrative accounts and reducing insider risk
- Achieved Cyber Essentials+ certification for UAL, demonstrating robust controls against the most common cyber attack vectors
- Reduced phishing-related incidents by 40% through optimisation of Mimecast email security policies and targeted staff awareness campaigns

- Deployed enterprise MFA and Conditional Access policies across 8,000+ users at UAL, eliminating legacy authentication and achieving full zero-trust identity enforcement
- Established vulnerability management programme using Pentera, Tenable.io and AppCheck, reducing critical vulnerability exposure by over 60% within 12 months

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
