

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike, SIEM/SOAR, EDR and Endpoint Security Specialist

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniproper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of experience implementing and maintaining robust security across enterprise infrastructure. I bring expert-level hands-on experience with CrowdStrike Falcon Endpoint Detection and Response (EDR), including the Prevent, Insight, Discover, and Next-Generation Security Information and Event Management (NG-SIEM) modules, alongside deep operational expertise in Security Orchestration, Automation and Response (SOAR), Web Application Firewall (WAF)/Distributed Denial of Service (DDoS) controls, web and email security gateways, Multi-Factor Authentication (MFA)/Single Sign-On (SSO), Mobile Device Management (MDM)/Mobile Application Management (MAM), Privileged Access Management (PAM), Intrusion Detection System (IDS)/Intrusion Prevention System (IPS), and vulnerability scanning and remediation. In my current role at the University of the Arts London, I report into the security leadership team and deliver security operations across an 8,000-user environment, managing alert response, penetration test remediation, security certificates, and security awareness training. I am confident, analytical, and experienced in working in small focused security teams where broad ownership and strong communication are essential.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, NG-SIEM, Insight, Discover) - Expert
- **SIEM/SOAR:** CrowdStrike NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL), Splunk/SPL
- **Email Security Gateway:** Mimecast - policy configuration, threat analysis, impersonation protection
- **Identity and Access Management (IAM):** Entra ID / Azure Active Directory (Azure AD) / Group Policy / Conditional Access
- **MFA / SSO:** Entra ID, Azure AD, Microsoft Authenticator; familiarity with Okta and Duo concepts
- **MDM / MAM:** Microsoft Intune - device compliance, application policies, conditional access
- **Privileged Access Management (PAM):** BeyondTrust (equivalent to CyberArk-class PAM)
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS)
- **Firewalls:** Check Point Harmony; familiarity with next-generation firewall policy management
- **WAF / DDoS / IDS / IPS:** Security gateway management, web filtering, perimeter defence
- **Endpoint and Identity Protection:** Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), Microsoft 365 (M365) Defender
- **Incident Response:** NIST 800-61 lifecycle; MITRE ATT&CK Framework-aligned threat analysis
- **Security Awareness Training:** Staff campaigns, phishing simulation oversight
- **Scripting and Automation:** PowerShell, KQL; SOAR playbook development
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)
Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Lead endpoint security operations using CrowdStrike Falcon EDR (Prevent, NG-SIEM, Insight, Discover), monitoring, triaging, and responding to alerts across an 8,000-user environment
- Manage SIEM and SOAR platform operations across CrowdStrike NG-SIEM and Microsoft Sentinel, writing and tuning detection rules and automating response playbooks using KQL
- Administer Mimecast email security gateway, configuring policies, investigating phishing campaigns, and managing impersonation and spoofing protections
- Oversee MDM/MAM policies through Microsoft Intune and enforce device compliance via Entra ID/Azure AD Conditional Access

- Manage MFA/SSO configurations, administering authentication policies and access controls through Entra ID
- Administer PAM controls using BeyondTrust, governing privileged account lifecycle, session monitoring, and access reviews
- Conduct vulnerability scans using Tenable.io and Nessus, tracking remediation through to closure and reporting risk to senior stakeholders
- Lead incident response lifecycle in line with NIST 800-61: detection, analysis, containment, eradication, recovery, and lessons learned
- Manage security certificates, IDS/IPS controls, and WAF/DDoS policy reviews across the infrastructure
- Deliver security awareness training and phishing simulation campaigns to staff and senior stakeholders
- Remediate penetration testing findings, coordinating resolution across infrastructure and application teams

University of the Arts, London (UAL)

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Monitored and triaged security alerts daily using CrowdStrike Falcon and Microsoft Sentinel, escalating critical incidents to senior engineers
- Supported the full deployment of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000 users
- Wrote KQL detection rules and contributed to alert tuning within Microsoft Sentinel to reduce false positives
- Performed vulnerability assessments using Tenable.io and AppCheck, maintaining remediation records and tracking risk closure
- Assisted in PAM administration (BeyondTrust), supporting privileged access reviews and onboarding
- Managed Mimecast email gateway security policies and investigated phishing and Business Email Compromise (BEC) campaigns
- Supported Microsoft Intune MDM/MAM policy management, device enrolment, and compliance reviews
- Assisted in configuring Entra ID/Azure AD Conditional Access policies and MFA enforcement rollouts
- Contributed to security awareness training delivery and end-user communications

HICX Solutions Ltd (SaaS/FinTech)

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Supported security operations for a Software as a Service (SaaS)/FinTech environment, managing endpoint protection and infrastructure hardening controls
- Administered network firewalls and maintained security gateway and perimeter defence configurations
- Assisted in vulnerability scanning, patch management, and remediation processes
- Supported identity management, access control reviews, and MFA configuration
- Managed IT quality and infrastructure assets, ensuring operational security standards were met

KEY ACHIEVEMENTS

- Deployed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000 users at UAL, significantly improving endpoint visibility and threat detection coverage
- Built and automated SOAR response playbooks that reduced mean time to respond (MTTR) to common alert types by eliminating manual triage steps
- Led Pentra Breach and Attack Simulation (BAS) exercises to validate and stress-test security controls, identifying critical gaps in detection coverage that informed the tuning roadmap
- Maintained UAL's Cyber Essentials Plus certification through continuous vulnerability management, control assurance, and evidence production
- Designed and delivered security awareness training programmes that measurably reduced click rates on phishing simulations across UAL staff

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
