PROSPER AWUNI

Senior Cyber Security Engineer | SIEM, SOAR, EDR/XDR & Incident Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience across Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), and Endpoint Detection and Response (EDR) and Extended Detection and Response (XDR) platforms. I have led the deployment, tuning, and ongoing operation of enterprise SIEM and SOAR solutions protecting over 8,000 users, with deep expertise in CrowdStrike Falcon (Endpoint Detection and Response, Next-Generation SIEM, Insight, Discover, and Prevent) and Microsoft Sentinel. I am experienced in alert triage, incident response, and threat hunting mapped to the MITRE ATT&CK framework, and I bring a track record of reducing mean time to detect and respond across complex hybrid environments. I am seeking a senior cyber security engineering role in London where I can contribute to the advancement of SIEM, SOAR, and XDR capabilities within a high-performing security team.

CORE SKILLS AND TECHNICAL STACK

- **SIEM Platforms:** CrowdStrike Falcon NG-SIEM (Expert), Microsoft Sentinel (Strong), Splunk/SPL (Moderate)
- **EDR/XDR:** CrowdStrike Falcon EDR, Prevent, Insight, Discover; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender; Rapid7 IDR awareness
- **SOAR & Automation:** Azure Logic Apps, Microsoft Sentinel Playbooks, BeyondTrust Privileged Access Management (PAM) automation, PowerShell scripting
- **Incident Response:** NIST SP 800-61 lifecycle, MITRE ATT&CK framework, alert triage, threat hunting, Digital Forensics and Incident Response (DFIR)
- **Identity & Access Management:** Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Privileged Identity Management
- **Vulnerability Management:** Tenable.io, Nessus, Pentera Breach and Attack Simulation (BAS), AppCheck
- **Cloud Security:** Microsoft Azure security, Microsoft 365 E5 security stack, cloud workload protection
- **Network & Endpoint:** Check Point Harmony firewall, Mimecast email security, Tanium, Microsoft Intune Mobile Device Management (MDM)
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials+, MITRE ATT&CK
- **Scripting:** PowerShell, Kusto Query Language (KQL), SPL

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer *March 2025 – Present*

University of the Arts, London (UAL)

- Operate and mature enterprise SIEM and SOAR platforms, including CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, managing detection rule libraries mapped to MITRE ATT&CK and tuning analytics to reduce false positives.
- Lead alert triage and incident response for high-severity security events across EDR and XDR platforms, using CrowdStrike Falcon EDR and Microsoft Defender XDR to investigate, contain, and eradicate threats affecting 8,000+ users.
- Design and deploy SOAR automation playbooks using Azure Logic Apps and Microsoft Sentinel, automating incident enrichment, containment actions, and stakeholder notification workflows.
- Conduct proactive threat hunting campaigns using CrowdStrike Falcon Insight and Microsoft Sentinel KQL, identifying adversary techniques and improving detection coverage across the MITRE ATT&CK matrix.
- Oversee Microsoft Defender for Endpoint, Microsoft Defender for Identity, and Microsoft 365 Defender configurations, ensuring policy alignment with the organisation's risk appetite and compliance requirements.
- Collaborate with network and infrastructure teams to investigate alerts from Check Point Harmony firewall and Mimecast, correlating signals across SIEM for holistic threat visibility.

- Present risk and incident briefings to senior stakeholders, translating technical findings into business impact assessments and actionable remediation recommendations.
- Mentor junior security analysts, establish SOC workflows, and develop runbooks to ensure consistent and high-quality incident handling.

Cyber Security Analyst, Cyber Security and Identity *March 2022 – March 2025*

University of the Arts, London (UAL)

- Performed day-to-day alert triage across CrowdStrike Falcon EDR and Microsoft Sentinel SIEM, escalating and investigating incidents in line with NIST 800-61 procedures.
- Built and maintained CrowdStrike Falcon policies (EDR, Prevent, Discover, Insight) for endpoint detection, prevention, and asset visibility across the enterprise estate.
- Authored custom KQL detection rules and dashboards in Microsoft Sentinel to identify threats including phishing, credential abuse, privilege escalation, and lateral movement.
- Administered Microsoft Entra ID (Azure Active Directory), Conditional Access policies, MFA enforcement, and Privileged Identity Management to enforce zero-trust principles.
- Managed enterprise vulnerability management using Tenable.io, Nessus, and AppCheck, coordinating remediation priorities with infrastructure and application teams.
- Deployed BeyondTrust PAM controls, enforcing least-privilege access for privileged accounts and service accounts across critical systems.
- Automated security reporting and response tasks via PowerShell scripting, reducing manual operational overhead and improving SOC efficiency.
- Contributed to Cyber Essentials+ accreditation by implementing and evidencing required security controls.

IT Engineer: Security, Quality and Infrastructure *February 2021 – March 2022*

HICX Solutions Ltd (SaaS/FinTech)

- Supported SIEM deployment, configuration, and ongoing monitoring for security event detection across the SaaS platform and corporate infrastructure.
- Managed endpoint protection and network security controls, ensuring consistent policy enforcement and timely response to security alerts.
- Coordinated penetration testing activities using Nessus and external consultants, tracking findings and driving remediation to closure.
- Maintained ISO 27001-aligned information security policies and contributed to audit readiness and compliance evidence collection.
- Administered Microsoft Intune MDM/MAM for device compliance and mobile application policies across the hybrid workforce.

KEY ACHIEVEMENTS

- Deployed and tuned CrowdStrike Falcon EDR across 8,000+ endpoints, achieving comprehensive endpoint visibility and dramatically reducing dwell time for high-severity detections.
- Reduced mean time to detect (MTTD) for high-priority threats by 40% through targeted SIEM detection rule development and suppression of low-fidelity alerts.
- Automated incident enrichment and triage through SOAR playbooks, freeing analyst capacity equivalent to 15+ hours per week for proactive threat hunting.
- Established a structured threat hunting programme using CrowdStrike Falcon Insight and Microsoft Sentinel, uncovering previously undetected persistent threats across the network.
- Supported successful Cyber Essentials+ certification, strengthening the organisation's baseline security controls and demonstrating compliance to external stakeholders.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)

- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
