

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR, SIEM/SOAR, Identity and Access Management
United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of experience in senior cyber security engineering roles across higher education and SaaS/FinTech environments. I have deep, hands-on expertise in deploying and managing the CrowdStrike Falcon endpoint detection and response (EDR) platform, including building a hybrid Security Operations Centre (SOC) environment from the ground up. I have strong experience operating Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) tooling, including managing day-to-day alert triage, tuning detections, and responding to incidents across endpoint, email gateway, identity, and network layers. I am well versed in managing web and email security gateways, multi-factor authentication (MFA), single sign-on (SSO), mobile device management (MDM), mobile application management (MAM), privileged access management (PAM), intrusion detection and prevention systems (IDS/IPS), and vulnerability scanning and remediation programmes. I am experienced in delivering security awareness training and remediating penetration test findings, and I thrive in focused security teams where operational rigour and breadth of coverage are essential.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) -- expert level; deployed, managed and built hybrid SOC
- **SIEM/SOAR:** Microsoft Sentinel (workspace design, KQL, analytics rules, automated playbooks, workbooks); CrowdStrike NG-SIEM; Splunk/SPL
- **Email Security Gateways:** Mimecast email security and continuity platform
- **Mobile Device and Application Management (MDM/MAM):** Microsoft Intune; Tanium endpoint management
- **Identity and Access Management (IAM):** Microsoft Entra ID (formerly Azure Active Directory); Conditional Access policies; MFA/SSO; Group Policy
- **Privileged Access Management (PAM):** BeyondTrust PAM platform
- **Vulnerability Management:** Tenable.io; AppCheck; Nessus; Pentra Breach and Attack Simulation (BAS)
- **Firewall and Network Security:** Check Point Harmony firewall; IDS/IPS management and tuning
- **Incident Response and Threat Detection:** NIST 800-61 lifecycle; MITRE ATT&CK framework; detection engineering; threat hunting
- **Scripting and Automation:** PowerShell; SOAR playbook development
- **Security Frameworks:** NIST Cybersecurity Framework (CSF); CIS Controls; ISO 27001; Cyber Essentials+; JISC cyber security

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Lead day-to-day security operations for an 8,000-user institution, managing CrowdStrike Falcon EDR and Microsoft Defender for Endpoint (MDE) across the full estate, including SIEM/SOAR alert response and platform tuning
- Operate and maintain web and email security gateways including Mimecast, enforcing policies to protect against phishing, malware, and data loss
- Configure and maintain MFA/SSO controls, Microsoft Entra ID Conditional Access policies, and Group Policy to enforce identity security across the organisation
- Manage MDM/MAM profiles and mobile security policies via Microsoft Intune, ensuring secure provisioning and compliance of endpoints

- Administer BeyondTrust privileged access management (PAM) platform, governing access to privileged accounts and critical systems
- Operate IDS/IPS tooling and conduct SIEM-driven threat hunting, analysing event data and using threat intelligence to proactively identify adversary activity
- Oversee vulnerability scanning and remediation programme using Tenable.io, AppCheck, and Pentera breach and attack simulation (BAS); track and drive resolution of penetration test findings
- Serve as senior escalation lead for complex cyber incidents, managing end-to-end response in line with NIST 800-61; author and maintain incident response playbooks
- Design and deliver security awareness training and phishing simulation campaigns to staff across the institution
- Report to senior security leadership and contribute to ad hoc security improvement projects across the estate

University of the Arts, London (UAL)

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Deployed and managed CrowdStrike Falcon EDR platform, building and operating a hybrid SOC capability covering endpoint detection, alert triage, and threat investigation
- Performed day-to-day SIEM alert triage and investigation, IDS/IPS monitoring, and EDR event analysis, escalating incidents in accordance with defined playbooks
- Supported 8,000-user Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) deployment, including policy configuration, onboarding, and ongoing alert management
- Maintained Mimecast email gateway policies and Microsoft Intune MDM/MAM profiles, ensuring consistent security posture across managed endpoints and mobile devices
- Administered BeyondTrust PAM controls and Microsoft Entra ID (Azure Active Directory) including Conditional Access, MFA, and SSO
- Conducted vulnerability scanning using Tenable.io and Nessus, reporting findings and tracking remediation to closure
- Contributed to security awareness training delivery and supported ISO 27001 and Cyber Essentials+ compliance programmes

HICX Solutions Ltd (SaaS/FinTech)

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Administered endpoint security tooling, Check Point Harmony firewall, and identity management solutions in a SaaS/FinTech environment
- Managed MDM/MAM provisioning and MFA/SSO configuration, maintaining secure access across a distributed workforce
- Monitored SIEM platforms, triaged security alerts, and escalated incidents in line with internal policies
- Assisted with vulnerability scanning, patch management, and remediation tracking; supported penetration test finding resolution
- Delivered IDS/IPS monitoring and contributed to ISO 27001 and IT governance compliance activities

KEY ACHIEVEMENTS

- Deployed and built the CrowdStrike Falcon NG-SIEM and EDR platform from the ground up, establishing a hybrid SOC environment at UAL from initial architecture through to full operational capability
- Led the 8,000-user Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) rollout at UAL, covering onboarding, policy configuration, and sustained alert operations
- Authored enterprise incident response playbooks and served as senior escalation lead, consistently reducing mean time to respond (MTTR) for complex security incidents
- Delivered a vulnerability management programme integrating Pentera BAS, Tenable.io, and AppCheck, directly reducing the attack surface and driving timely remediation of critical and high findings
- Designed and maintained Microsoft Sentinel workspace, data connectors, analytics rules, and SOAR playbooks, enabling automated detection and response across the security estate

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
