

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | Identity and Access Management |
Financial Services

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Cyber Security Engineer with over five years of hands-on experience implementing and maintaining robust cyber security across enterprise IT infrastructures. I specialise in managing Endpoint Detection and Response (EDR) through CrowdStrike Falcon, Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, enterprise firewalls, Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) protection, email and web security gateways, and identity and access management including Multi-Factor Authentication (MFA), Single Sign-On (SSO) and Privileged Access Management (PAM). I am experienced in vulnerability scanning and remediation, penetration test finding remediation, Mobile Device Management (MDM) and Mobile Application Management (MAM), and delivering security awareness training. I am comfortable reporting to senior IT security leadership and operating in regulated financial services environments with shift patterns supporting financial market hours.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR Platforms:** CrowdStrike Falcon (Prevent, Insight, Discover, Next-Gen SIEM) - Expert; SIEM/SOAR/EDR alert response and triage
- **SIEM and SOAR:** Microsoft Sentinel with Kusto Query Language (KQL); CrowdStrike Next-Gen SIEM; SOAR automation and playbook development
- **WAF and DDoS Protection:** Imperva WAF and DDoS protection; web application firewall policy management
- **Email and Web Security Gateways:** Mimecast; Menlo (familiar)
- **Enterprise Firewalls:** Check Point Harmony; Palo Alto (familiar); Cisco Security
- **Identity and Access Management:** Microsoft Entra ID (formerly Azure Active Directory); Okta; Duo MFA; BeyondTrust PAM; Conditional Access; MFA; SSO
- **MDM and MAM:** Microsoft Intune MDM/MAM; Tanium; device compliance management
- **Vulnerability Management:** Rapid7 IVM; Tenable.io; AppCheck; Pentera Breach and Attack Simulation (BAS); Nessus; penetration test finding remediation
- **IDS/IPS:** Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) configuration and monitoring
- **Scripting and Automation:** PowerShell; SOAR playbook authoring; security automation
- **Security Awareness Training:** KnowBe4; bespoke phishing simulation campaigns
- **Frameworks and Standards:** NIST CSF; CIS Controls; ISO 27001; Cyber Essentials Plus; NIST 800-61; MITRE ATT&CK

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer

March 2025 - Present

University of the Arts, London (UAL)

- Implement and maintain robust cyber security across a complex multi-site enterprise environment, managing SIEM/SOAR/EDR (CrowdStrike Falcon), enterprise firewalls (Check Point Harmony), email security (Mimecast), MDM/MAM (Intune), MFA/SSO and Privileged Access Management (PAM) via BeyondTrust
- Manage CrowdStrike Falcon (Prevent, Insight, Discover, Next-Gen SIEM) for enterprise-wide Endpoint Detection and Response (EDR) and Extended Detection and Response (XDR) alert response, threat hunting and real-time security triage

- Administer identity and access management via Microsoft Entra ID, Okta and BeyondTrust PAM, enforcing least-privilege access, Conditional Access policies, MFA and SSO across all user populations
- Manage WAF/DDoS controls, email security gateways and Intrusion Detection System (IDS)/Intrusion Prevention System (IPS) alerting to maintain a resilient and layered security perimeter
- Oversee vulnerability scanning and remediation using Tenable.io, AppCheck and Pentera Breach and Attack Simulation (BAS), tracking and driving remediation of penetration test findings to closure within agreed timescales
- Manage Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, maintaining device compliance posture across all managed endpoints
- Develop and maintain SOAR automation playbooks and PowerShell scripts to streamline security operations and reduce manual intervention
- Lead incident response aligned to NIST 800-61 and the MITRE ATT&CK framework, coordinating containment, eradication, recovery and post-incident improvement
- Manage security certificate lifecycle, web application scanning and ad-hoc security improvement projects
- Deliver security awareness training and phishing simulation campaigns (KnowBe4-style), reducing human risk across the user population
- Report directly to senior IT security leadership on security posture, incidents, vulnerability status and project delivery

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

University of the Arts, London (UAL)

- Managed daily security operations including SIEM/SOAR alert triage, event investigation and escalation across the Microsoft Defender for Endpoint (MDE) suite deployed to 8,000 users
- Operated CrowdStrike Falcon Insight and Prevent for continuous endpoint monitoring, threat hunting and real-time EDR/XDR alert response
- Administered identity and access controls via Azure Active Directory (now Microsoft Entra ID), including Conditional Access, MFA, SSO and Group Policy management
- Managed Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, maintaining device compliance posture across the organisation
- Conducted vulnerability scanning using Tenable.io and Nessus, producing risk-prioritised remediation tracking reports and coordinating remediation with infrastructure owners
- Managed Mimecast email security gateway, configuring policies to protect against phishing, malware and business email compromise threats
- Contributed to BeyondTrust Privileged Access Management (PAM) administration, managing privileged account provisioning and periodic access reviews
- Delivered security awareness training and phishing simulation exercises to reduce susceptibility and improve security culture across the user base
- Supported penetration test finding remediation, tracking and closing identified vulnerabilities in collaboration with infrastructure and application teams

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (SaaS/FinTech)

- Implemented and maintained security controls across a cloud-based Software-as-a-Service (SaaS) FinTech platform, covering endpoint protection, network security, firewall configuration and identity access management
- Managed identity provisioning, MDM, device compliance and patch management processes for a distributed workforce in a regulated financial technology environment
- Supported vulnerability assessment and penetration test remediation activities, tracking findings through to closure
- Managed IT infrastructure quality assurance and contributed to security policy development aligned to financial technology regulatory requirements
- Delivered security awareness communications and contributed to staff training on phishing and social engineering risks

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR and Next-Gen SIEM across the enterprise, establishing real-time endpoint threat visibility across all devices and materially improving alert detection and response times
- Led the Microsoft Defender for Endpoint (MDE) rollout across 8,000 users, delivering a fully managed EDR/XDR environment at scale that transformed endpoint and identity threat detection capability
- Operationalised SOAR automation playbooks to streamline SIEM/SOAR alert triage, reducing manual workload for recurring high-volume alert categories and accelerating incident response cycles
- Established a structured vulnerability management programme using Tenable.io, Pentera BAS and AppCheck, achieving consistent reduction in open critical and high-severity findings across the organisation
- Achieved Cyber Essentials Plus certification and maintained alignment to ISO 27001 and NIST CSF, providing independently verified security posture evidence to senior leadership and external auditors

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
