PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | Entra ID | Microsoft Defender

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with more than five years of hands-on experience protecting enterprise environments through Security Information and Event Management (SIEM) operations, Security Orchestration, Automation and Response (SOAR) automation, Endpoint Detection and Response (EDR) management, and proactive threat hunting. At the University of the Arts London (UAL), I lead day-to-day security engineering across an estate of 8,000 users, managing CrowdStrike Falcon across prevention, insight, discover, and next-generation SIEM modules alongside Microsoft Sentinel and Microsoft Defender for Endpoint (MDE). I have deep hands-on expertise in CrowdStrike EDR configuration and tuning, Mimecast email security, Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), Entra ID Conditional Access, and Azure Active Directory. I build and maintain detection rules, respond to incidents using the NIST 800-61 framework, and apply MITRE ATT&CK to continuously improve coverage. I am looking for a permanent Senior Cyber Security Engineer role in a City of London financial services environment where I can bring this depth of CrowdStrike and SIEM/SOAR experience directly to a focused security team.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (Next-Generation SIEM, EDR Prevent, Falcon Insight, Falcon Discover) - Expert; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender - Strong
- **SIEM/SOAR:** Microsoft Sentinel with Kusto Query Language (KQL), CrowdStrike Next-Gen SIEM, Splunk SPL; SOAR playbook development and automation
- **Identity and Access Management:** Microsoft Entra ID (formerly Azure Active Directory), Conditional Access policies, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM)
- **Email and Web Security:** Mimecast email gateway administration and security policy management
- **Endpoint and Device Management:** Microsoft Intune MDM/MAM, Tanium, CrowdStrike Falcon Discover
- **Vulnerability Management:** Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS)
- **Firewall and Network Security:** Check Point Harmony firewall; network security policy review
- **Incident Response:** NIST 800-61 lifecycle; MITRE ATT&CK framework; end-to-end incident management
- **Scripting and Automation:** PowerShell scripting; SOAR automation integration
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Cloud:** Microsoft Azure (Entra ID, Sentinel, Defender for Cloud)
- **Certifications:** CISSP, CompTIA Security+, Microsoft Certified Solutions Associate (MCSA), CompTIA A+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) *March 2025 - Present*

Senior Cyber Security Analyst / Engineer

- Own and administer CrowdStrike Falcon across EDR Prevent, Falcon Insight, Falcon Discover, and Next-Generation SIEM modules for an estate of 8,000 users, tuning detection policies and managing threat intelligence feeds
- Manage Microsoft Sentinel with KQL-based detection rules and alert logic; operate Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender across the full user estate
- Develop and maintain SOAR playbooks to automate alert triage, enrichment, and response workflows, reducing mean time to respond (MTTR) to security incidents
- Administer Mimecast email security gateway, managing inbound and outbound filtering policies, sandboxing, and impersonation protection rules
- Manage Entra ID (Azure Active Directory) Conditional Access policies, MFA rollout, and SSO integrations across enterprise applications
- Administer Microsoft Intune MDM/MAM for device compliance and mobile application policies across Windows, iOS, and Android endpoints

- Lead incident response engagements following NIST 800-61 methodology, conducting root cause analysis and post-incident reviews
- Map detection coverage to MITRE ATT&CK tactics, techniques, and procedures (TTPs) and identify and close detection gaps
- Oversee vulnerability management using Tenable.io, AppCheck, and Pentera BAS; track remediation pipelines and report risk posture to stakeholders
- Manage BeyondTrust PAM to enforce least-privilege access for privileged accounts and service accounts

University of the Arts, London (UAL) *March 2022 - March 2025*

Cyber Security Analyst, Cyber Security and Identity

- Deployed and managed Microsoft Defender for Endpoint across 8,000 user devices, configuring policies, exclusions, and alert rules
- Triaged and investigated security alerts from Microsoft Sentinel and CrowdStrike Falcon, escalating incidents and coordinating response activities
- Administered Entra ID Conditional Access and MFA policies; managed BeyondTrust PAM for privileged access controls
- Supported Mimecast email security operations including policy tuning and threat intelligence integration
- Contributed to CIS Controls and Cyber Essentials Plus compliance programmes; prepared security documentation and risk registers
- Delivered security awareness training and phishing simulation campaigns across the university

HICX Solutions Ltd (Software as a Service / FinTech) *February 2021 - March 2022*

IT Engineer: Security, Quality and Infrastructure

- Administered endpoint security tools and managed vulnerability scanning using Nessus; tracked remediation activities against SLA targets
- Managed Microsoft 365 security configuration and identity services including Azure Active Directory and MFA
- Provided infrastructure support for cloud and on-premises environments, maintaining security controls and compliance with ISO 27001
- Supported penetration test engagements, coordinating findings remediation and liaising with the IT team on remediation prioritisation

KEY ACHIEVEMENTS

- Successfully deployed CrowdStrike Falcon EDR across an 8,000-user estate, achieving full endpoint coverage and measurably reducing detection and response times
- Designed and implemented SOAR automation playbooks that cut manual alert triage effort by an estimated 40 percent, freeing analyst capacity for higher-value investigations
- Delivered Entra ID Conditional Access and MFA rollout across the full UAL user base, reducing identity-based risk and achieving Cyber Essentials Plus certification
- Led incident response for multiple high-severity security events, from initial detection through containment, eradication, recovery, and post-incident review
- Deployed Microsoft Defender for Endpoint (MDE) across 8,000 users, establishing consistent endpoint detection and response coverage for the first time
- Built and maintained MITRE ATT&CK coverage maps to identify and close detection blind spots across the UAL environment

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+

- Google IT Support Professional Certificate
