

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike, Security Information and Event Management (SIEM) and Security Operations Specialist

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Cyber Security Engineer with over five years of enterprise security experience specialising in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM), and Security Orchestration, Automation and Response (SOAR). I have expert-level hands-on proficiency across the CrowdStrike Falcon platform, including Next-Generation Security Information and Event Management (NG-SIEM), Prevent, Insight and Discover, and strong capability in Microsoft Sentinel with Kusto Query Language (KQL), Microsoft Defender for Endpoint (MDE), and the wider Microsoft Defender suite. I am experienced in managing Mimecast email and web security gateways, Entra ID (formerly Azure Active Directory) with Conditional Access, Multi-Factor Authentication (MFA) and Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM), and Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM). In my current role as Senior Cyber Security Engineer at the University of the Arts London, I manage security operations and engineering for 8,000 users, including alert triage, threat hunting, SOAR automation, vulnerability remediation, and penetration test finding management. I am seeking a hybrid Security Engineer role in London where I can apply my CrowdStrike and SIEM expertise within a demanding, fast-paced team.

CORE SKILLS AND TECHNICAL STACK

- **CrowdStrike Falcon Platform:** Next-Generation Security Information and Event Management (NG-SIEM), Endpoint Detection and Response (EDR), Prevent, Insight, Discover - expert-level administration and operations
- **Security Information and Event Management (SIEM):** Microsoft Sentinel with Kusto Query Language (KQL), detection rule development, log ingestion, threat investigation
- **Security Orchestration, Automation and Response (SOAR):** Automated playbook development, alert triage automation, workflow integration
- **Email and Web Security Gateways:** Mimecast email security, anti-phishing, archiving and filtering; web security gateway policy management
- **Identity, Access and Multi-Factor Authentication:** Microsoft Entra ID (Azure Active Directory), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO)
- **Privileged Access Management (PAM):** BeyondTrust PAM - privileged credential control, session recording and audit
- **Mobile Device and Application Management:** Microsoft Intune - Mobile Device Management (MDM) and Mobile Application Management (MAM)
- **Vulnerability Management:** Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS)
- **Incident Response:** National Institute of Standards and Technology (NIST) 800-61 lifecycle, MITRE ATT&CK framework
- **Network and Perimeter Security:** Check Point Harmony firewall, Intrusion Detection System (IDS) / Intrusion Prevention System (IPS), Web Application Firewall (WAF), Distributed Denial of Service (DDoS) protection, security certificate management
- **Additional Tools:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Tanium, PowerShell scripting
- **Frameworks and Compliance:** CIS Controls, ISO 27001, NIST Cybersecurity Framework (CSF), Cyber Essentials+, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

Senior Cyber Security Engineer

March 2025 - Present

University of the Arts London (UAL)

- Administer and optimise the CrowdStrike Falcon platform (NG-SIEM, EDR, Prevent, Insight, Discover) across an 8,000-user estate; manage alert response, detection tuning, threat hunting and proactive Security Operations Centre (SOC) operations
- Manage Microsoft Sentinel Security Information and Event Management (SIEM) environment using Kusto Query Language (KQL); develop and tune custom detection rules aligned to MITRE ATT&CK techniques and investigate escalated incidents
- Build and maintain Security Orchestration, Automation and Response (SOAR) playbooks to automate alert triage, reducing analyst handling time and improving mean time to respond (MTTR)
- Administer Mimecast email security gateway - configure anti-phishing, anti-malware, URL rewriting and email archiving policies; manage web security filtering controls
- Manage Multi-Factor Authentication (MFA), Single Sign-On (SSO) and Conditional Access policy enforcement in Microsoft Entra ID (Azure Active Directory) for the full user population
- Administer Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM) across Windows, iOS and Android endpoints; enforce compliance policies and application security controls
- Manage BeyondTrust Privileged Access Management (PAM) to control and audit privileged credential access across the estate
- Execute vulnerability assessments using Tenable.io, AppCheck and Nessus; triage findings by severity and coordinate remediation with infrastructure and engineering teams
- Lead and manage security incidents following the National Institute of Standards and Technology (NIST) 800-61 incident response lifecycle, including containment, eradication and post-incident review
- Manage Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) policies and security certificate lifecycle; administer Check Point Harmony firewall rules
- Coordinate and remediate penetration testing findings; manage the penetration test programme and track finding closure across teams
- Deliver security awareness training and phishing simulation campaigns; produce management-level reporting on security posture and incident trends

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

University of the Arts London (UAL)

- Deployed Microsoft Defender for Endpoint (MDE) to 8,000 users, establishing full endpoint telemetry and EDR coverage across the estate
- Monitored and triaged security alerts from CrowdStrike Falcon, Microsoft Sentinel SIEM, Mimecast and Microsoft Defender for Identity (MDI)
- Developed Kusto Query Language (KQL) detection logic in Microsoft Sentinel to identify MITRE ATT&CK-mapped threat behaviours including lateral movement, privilege escalation and data exfiltration
- Implemented Conditional Access and Multi-Factor Authentication (MFA) policies in Entra ID (Azure Active Directory) to enforce Zero Trust controls across 8,000 users
- Supported BeyondTrust Privileged Access Management (PAM) deployment, reducing uncontrolled privileged access across the organisation
- Managed Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM) policies for the mobile estate
- Conducted vulnerability scanning using Tenable.io and AppCheck; tracked remediation progress and reported on risk exposure to management
- Supported Cyber Essentials+ certification and ISO 27001 compliance activities
- Administered Mimecast email gateway controls including anti-spam, DKIM/DMARC configuration, and targeted phishing protection policies

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (Software-as-a-Service / FinTech)

- Managed security infrastructure including firewall administration, email security gateway, endpoint protection and Mobile Device Management (MDM) in a cloud-first SaaS/FinTech environment

- Administered Security Information and Event Management (SIEM) monitoring, investigated security events and escalated confirmed incidents in line with response procedures
- Conducted vulnerability assessments across Windows and cloud infrastructure; coordinated remediation with engineering teams
- Supported Multi-Factor Authentication (MFA) and Single Sign-On (SSO) rollouts for internal systems
- Maintained security policies and documentation aligned to CIS Controls and ISO 27001 standards
- Managed security certificates, patch deployment cycles, and contributed to information security risk assessments

KEY ACHIEVEMENTS

- Deployed and operationalised the CrowdStrike Falcon platform (including NG-SIEM, EDR, Prevent, Insight and Discover), enabling proactive threat hunting and full endpoint Detection and Response coverage across an 8,000-user estate
- Rolled out Microsoft Defender for Endpoint (MDE) to 8,000 users, achieving complete endpoint telemetry coverage and significantly strengthening Security Operations Centre (SOC) visibility
- Developed Security Orchestration, Automation and Response (SOAR) automation workflows to reduce repetitive alert triage workload and measurably improve mean time to respond (MTTR)
- Built a comprehensive library of Kusto Query Language (KQL) detection rules in Microsoft Sentinel, improving threat detection coverage mapped to MITRE ATT&CK
- Delivered Cyber Essentials+ certification for the University of the Arts London, meeting government-mandated baseline security controls
- Implemented BeyondTrust Privileged Access Management (PAM), establishing controlled and auditable privileged access and eliminating unmanaged shared credentials
- Rolled out Conditional Access and Multi-Factor Authentication (MFA) in Entra ID for 8,000 users, enforcing consistent Zero Trust access controls across the organisation

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
