

PROSPER AWUNI

Senior Cyber Security Engineer | Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR) and Security Operations Specialist

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience securing enterprise environments through Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR), and Security Orchestration, Automation and Response (SOAR). I am an expert in CrowdStrike Falcon including Next-Generation Security Information and Event Management (NG-SIEM), Prevent, Insight and Discover, and hold strong capability across Microsoft Sentinel with Kusto Query Language (KQL), Microsoft Defender for Endpoint (MDE), and Microsoft Defender for Identity (MDI). I am experienced in administering Mimecast email security, Entra ID (formerly Azure Active Directory) Conditional Access, Multi-Factor Authentication (MFA) and Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM), Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM), and vulnerability management platforms including Tenable.io, AppCheck and Nessus. In my current role as Senior Cyber Security Engineer at the University of the Arts London, I lead security operations and engineering across an estate of 8,000 users, covering alert triage, threat hunting, SOAR automation, incident response, and penetration test remediation. I am seeking a senior hybrid position in London where I can bring this broad technical depth to a high-performance security team.

CORE SKILLS AND TECHNICAL STACK

- **Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR):** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (Kusto Query Language / KQL), SOAR automation and playbook development
- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon Prevent, Insight, Discover; Microsoft Defender for Endpoint (MDE); Tanium
- **Identity and Access Management:** Microsoft Entra ID (Azure Active Directory), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust Privileged Access Management (PAM)
- **Email and Web Security Gateways:** Mimecast email security and archiving
- **Mobile Device and Application Management:** Microsoft Intune - Mobile Device Management (MDM) and Mobile Application Management (MAM)
- **Vulnerability Management:** Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS)
- **Network Security:** Check Point Harmony firewall, Intrusion Detection System (IDS) and Intrusion Prevention System (IPS), Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) protection
- **Incident Response:** National Institute of Standards and Technology (NIST) 800-61 lifecycle, MITRE ATT&CK framework, threat hunting
- **Cloud and Identity Platforms:** Microsoft Azure, Entra ID, Microsoft 365 Defender, Microsoft Defender for Identity (MDI)
- **Scripting and Automation:** PowerShell scripting for security automation
- **Frameworks and Compliance:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials+

PROFESSIONAL EXPERIENCE

Senior Cyber Security Engineer

March 2025 - Present

University of the Arts London (UAL)

- Lead security operations across an 8,000-user estate, managing CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) for alert triage, threat hunting and incident investigation

- Administer Microsoft Sentinel with Kusto Query Language (KQL) to build and tune custom detection rules, investigate incidents, and produce threat intelligence reports for senior stakeholders
- Design and implement Security Orchestration, Automation and Response (SOAR) playbooks to accelerate alert triage and reduce mean time to respond (MTTR) across the Security Operations Centre (SOC)
- Manage Mimecast email security gateway to defend against phishing, malware and business email compromise; configure web security filtering and policy controls
- Administer Conditional Access, Multi-Factor Authentication (MFA) and Single Sign-On (SSO) policies in Microsoft Entra ID (Azure Active Directory) for 8,000 staff and students
- Manage Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM) across Windows, iOS and Android devices
- Administer BeyondTrust Privileged Access Management (PAM) to control, audit and rotate privileged credentials across the estate
- Conduct vulnerability assessments using Tenable.io, AppCheck and Nessus; triage and prioritise findings for remediation; coordinate with infrastructure teams on patching cycles
- Lead incident response engagements following the National Institute of Standards and Technology (NIST) 800-61 lifecycle and MITRE ATT&CK framework, including containment, eradication and post-incident review
- Deliver security awareness training and phishing simulation campaigns for staff; manage and remediate penetration testing findings
- Manage Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) configurations and oversee security certificate lifecycle management
- Administer Check Point Harmony firewall and review policy rules to minimise attack surface
- Produce executive-level security reporting on posture, incidents and vulnerability trends

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

University of the Arts London (UAL)

- Led the deployment of Microsoft Defender for Endpoint (MDE) across an 8,000-user estate, establishing full endpoint visibility and alerting capability
- Monitored and triaged security alerts across CrowdStrike Falcon, Microsoft Sentinel, Mimecast and Microsoft Defender for Identity (MDI)
- Built Kusto Query Language (KQL) detection rules in Microsoft Sentinel to identify lateral movement, privilege escalation and data exfiltration indicators
- Implemented Conditional Access policies in Entra ID (Azure Active Directory) to enforce Zero Trust access controls and Multi-Factor Authentication (MFA) for all users
- Supported BeyondTrust Privileged Access Management (PAM) implementation, reducing uncontrolled privileged access across the estate
- Conducted vulnerability scanning using Tenable.io and AppCheck; tracked remediation progress and reported on risk posture
- Supported Cyber Essentials+ certification and ISO 27001 compliance activities including evidence collection and gap analysis
- Managed Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM) policies for the organisation's mobile estate
- Contributed to phishing simulation programmes and delivered targeted security awareness training to high-risk user groups

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (Software-as-a-Service / FinTech)

- Managed security infrastructure including firewall administration, email security gateway, endpoint protection, and Mobile Device Management (MDM) in a cloud-first SaaS environment
- Conducted vulnerability assessments across Windows and cloud environments and coordinated remediation with engineering teams
- Supported Multi-Factor Authentication (MFA) and Single Sign-On (SSO) integrations for internal and customer-facing systems
- Maintained security documentation and policies aligned to CIS Controls and ISO 27001

- Monitored security events and investigated anomalies in the SIEM environment, escalating incidents in line with defined response procedures
- Contributed to risk assessments and supported the information security programme across the SaaS platform

KEY ACHIEVEMENTS

- Deployed Microsoft Defender for Endpoint (MDE) across an 8,000-user estate, achieving full endpoint telemetry coverage and significantly reducing blind spots in the Security Operations Centre (SOC)
- Led CrowdStrike Falcon operationalisation including Next-Generation Security Information and Event Management (NG-SIEM), enabling advanced threat hunting and proactive Endpoint Detection and Response (EDR) across the enterprise
- Implemented Security Orchestration, Automation and Response (SOAR) playbooks to automate repetitive alert triage workflows, freeing analyst capacity for higher-value threat investigation
- Delivered Cyber Essentials+ certification for the University of the Arts London, demonstrating compliance with government-mandated security baseline controls
- Built a library of custom Kusto Query Language (KQL) detection rules in Microsoft Sentinel, materially improving threat detection coverage aligned to MITRE ATT&CK techniques
- Implemented BeyondTrust Privileged Access Management (PAM), establishing full audit trails for privileged access and eliminating unmanaged shared credentials across the estate
- Deployed Conditional Access and Multi-Factor Authentication (MFA) policies in Entra ID for 8,000 users, enforcing Zero Trust access principles across the organisation

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
