

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM/SOAR | Endpoint Detection and Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a results-driven Senior Cyber Security Engineer with over five years of hands-on experience protecting complex enterprise environments across security operations, endpoint protection, and threat response. I bring expert-level proficiency with CrowdStrike Falcon, including Falcon Prevent, Endpoint Detection and Response (EDR), Insight, and Discover, as well as strong capability across Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), and Identity and Access Management (IAM). At the University of the Arts London I manage day-to-day security operations for over 8,000 users, covering alert triage, incident response, vulnerability management, and privileged access governance. I am experienced with Mimecast email security, Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), BeyondTrust Privileged Access Management (PAM), and Entra ID / Azure Active Directory (AD) including Conditional Access and Single Sign-On (SSO). I am looking for a senior engineering role in a small, focused security team where I can implement and maintain robust technical controls across a hybrid financial services environment.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, EDR, Insight, Discover, NG-SIEM) – Expert
- **SIEM / SOAR:** Microsoft Sentinel (KQL), CrowdStrike NG-SIEM, Splunk (SPL), alert triage, detection rule development, automated response playbooks
- **Email & Web Security:** Mimecast gateway management, Web Application Firewall (WAF) and DDoS protection, URL filtering
- **Identity & Access Management:** Entra ID / Azure Active Directory, Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), BeyondTrust PAM, Okta (exposure)
- **Mobile Device Management:** Microsoft Intune MDM/MAM, mobile policy enforcement
- **Vulnerability Management:** Tenable.io, Pentera Breach Attack Simulation (BAS), AppCheck, Nessus – scanning, prioritisation, and remediation tracking
- **Firewall & Network Security:** Check Point Harmony, Palo Alto Networks (exposure), Intrusion Detection and Prevention Systems (IDS/IPS), network segmentation
- **Incident Response:** NIST 800-61 framework, MITRE ATT&CK mapping, root cause analysis, containment and recovery
- **Scripting & Automation:** PowerShell, SOAR automation, workflow orchestration
- **Compliance Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Security Awareness:** Programme design and delivery, phishing simulation campaigns, user training

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) – Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Manage and optimise the CrowdStrike Falcon platform (Prevent, EDR, Insight, Discover) across an estate of 8,000+ endpoints, tuning detection policies and responding to alerts at Tier 2/3 level.
- Administer Mimecast email security gateway, managing inbound/outbound filtering rules, anti-spoofing controls, and sandboxing to reduce phishing and malware exposure.
- Operate and maintain SIEM/SOAR capabilities in Microsoft Sentinel using Kusto Query Language (KQL), creating and fine-tuning analytics rules, automation playbooks, and threat hunting queries.
- Manage BeyondTrust Privileged Access Management (PAM), governing privileged account lifecycle, session recording, and least-privilege enforcement across administrative accounts.

- Administer Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM), enforcing device compliance policies and application protection policies.
- Configure and maintain Entra ID / Azure Active Directory including Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO) integrations.
- Lead vulnerability management cycles using Tenable.io and Pentra Breach Attack Simulation (BAS), prioritising and tracking remediation against SLA targets.
- Conduct and coordinate incident response in line with NIST 800-61, mapping threats to the MITRE ATT&CK framework and producing post-incident reports for senior stakeholders.
- Deliver security awareness training and targeted phishing simulation campaigns, reducing user click-through rates measurably across departments.
- Remediate penetration test findings, working with infrastructure and application teams to close technical vulnerabilities within agreed timelines.

University of the Arts, London (UAL) – Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Triaged and investigated security alerts from CrowdStrike Falcon EDR, Mimecast, Microsoft Defender, and Microsoft Sentinel, escalating high-severity incidents and coordinating containment actions.
- Supported deployment and configuration of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft Defender for Office 365 across the university estate.
- Administered Check Point Harmony firewall policies and monitored network traffic for anomalies, managing rules to enforce perimeter controls.
- Managed the Tanium endpoint platform for asset inventory, patch compliance reporting, and targeted threat-hunting queries across managed endpoints.
- Contributed to vulnerability scanning cycles using Nessus and AppCheck, maintaining a risk register and reporting remediation progress to the security manager.
- Assisted with Identity and Access Management (IAM) governance, including Entra ID role assignments, access reviews, and Conditional Access policy refinement.
- Supported ISO 27001 and Cyber Essentials Plus assessments, gathering evidence and liaising with auditors and internal stakeholders.
- Participated in security incident response activities, documenting timelines and drafting lessons-learned reports aligned to the NIST 800-61 lifecycle.

HICX Solutions Ltd (SaaS/FinTech) – IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Implemented and maintained endpoint security controls, managing antivirus, EDR tooling, and patch management across Windows and macOS infrastructure.
- Managed identity and access provisioning in Azure Active Directory, enforcing Conditional Access policies and Multi-Factor Authentication (MFA) for SaaS platform users.
- Conducted vulnerability assessments and worked with development teams to remediate findings, supporting the organisation's shift towards a security-first engineering culture.
- Managed IT infrastructure including network switches, firewalls, and cloud-hosted services, supporting internal security and compliance requirements.
- Supported security incident handling, log analysis, and root cause investigation for endpoint and network events.

KEY ACHIEVEMENTS

- Deployed and operationalised CrowdStrike Falcon EDR across 8,000+ endpoints at UAL, improving endpoint threat visibility and reducing mean time to detect (MTTD) for malware and lateral movement indicators.
- Reduced phishing-related incidents by delivering targeted security awareness training and running recurring phishing simulations, achieving measurable reductions in click-through rates.
- Overhauled BeyondTrust PAM governance, eliminating shared administrative credentials and establishing session-recording standards for all privileged access at UAL.
- Built Microsoft Sentinel detection rules using KQL that reduced false-positive alert volume by tuning analytics logic to UAL's specific threat profile.

- Led Cyber Essentials Plus certification renewals, coordinating technical evidence across infrastructure, identity, and endpoint workstreams.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
