

PROSPER AWUNI

CrowdStrike Cyber Security Engineer | Security Information and Event Management (SIEM) | Security Operations

United Kingdom (Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a senior Cyber Security Engineer with over five years of hands-on security operations experience in large, complex enterprise environments. I specialise in Endpoint Detection and Response (EDR) using CrowdStrike Falcon, Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, and the full spectrum of perimeter and identity security tooling including email security gateways, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM), Mobile Application Management (MAM), and Privileged Access Management (PAM). I hold the Certified Information Systems Security Professional (CISSP) certification and bring proven experience in vulnerability management, penetration test remediation, and delivering security awareness training. In my current role as Senior Cyber Security Engineer at the University of the Arts London (UAL), I protect over 8,000 users and manage a wide portfolio of security tools. I am now seeking a senior engineering role within a focused, high-performing financial services security team where I can apply my technical depth to strengthen defences, reduce risk, and respond to threats effectively.

CORE SKILLS AND TECHNICAL STACK

- **EDR:** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM) - expert level, managing 8,000+ endpoints
- **SIEM/SOAR:** Microsoft Sentinel with Kusto Query Language (KQL), alert triage, detection engineering, playbook automation
- **Email and Web Security:** Mimecast email security gateway management, policy tuning, phishing and malware prevention
- **Identity and Access Management (IAM) / MFA / SSO:** Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, MFA, SSO; familiar with Okta and Duo frameworks
- **MDM/MAM:** Microsoft Intune, endpoint compliance and policy enforcement
- **PAM:** BeyondTrust Privileged Access Management, least-privilege enforcement, full audit trail
- **Firewalls and Network Security:** Check Point Harmony, Intrusion Detection and Prevention System (IDS/IPS) management, WAF/DDoS awareness, firewall policy management
- **Vulnerability Management:** Pentra Breach and Attack Simulation (BAS), Tenable.io, Nessus, AppCheck; scan, prioritise, remediate
- **Incident Response:** NIST 800-61, MITRE ATT&CK, threat hunting, forensic triage
- **Scripting and Automation:** PowerShell, SOAR automation workflows
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Additional:** Tanium, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender, Splunk/SPL

PROFESSIONAL EXPERIENCE

- University of the Arts London (UAL) - Senior Cyber Security Analyst / Engineer | March 2025 - Present
- Manage CrowdStrike Falcon EDR across 8,000+ endpoints, tuning detection logic, reducing false positives, and maintaining comprehensive endpoint telemetry for proactive threat response.
 - Manage Microsoft Sentinel SIEM, developing advanced KQL detection rules, onboarding critical log sources (Active Directory, firewalls, cloud workloads, endpoints), and building dashboards for continuous threat monitoring.
 - Operate SIEM/SOAR automation workflows to streamline alert triage, investigation escalation, and incident response, reducing mean time to detect and respond to security events.

- Administer Mimecast email security gateway, tuning inbound and outbound policies for phishing prevention, malware blocking, and data loss prevention.
- Manage MFA, SSO, and Conditional Access policies in Microsoft Entra ID, enforcing Zero Trust principles and controlling access for 8,000 users across cloud and hybrid environments.
- Administer Microsoft Intune MDM/MAM for endpoint compliance, policy enforcement, and mobile device governance.
- Manage BeyondTrust PAM to control and audit privileged account activity, enforcing least-privilege principles and supporting regulatory compliance.
- Conduct vulnerability scanning using Pentera BAS and Tenable.io, prioritising findings by risk and tracking remediation with IT and infrastructure teams.
- Lead incident response activities following NIST 800-61 procedures, from detection through containment, eradication, and recovery, producing detailed post-incident reports.
- Deliver security awareness training programmes to staff, embedding a security-conscious culture across the organisation.
- Coordinate penetration testing programmes with third-party providers, tracking and remediating identified findings to closure.
- Align all security operations to NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, and MITRE ATT&CK frameworks.

University of the Arts, London (UAL) – Cyber Security Analyst, Cyber Security and Identity
 Performed daily Security Operations Centre (SOC) activities across SIEM, EDR, and identity security platforms, investigating anomalous activity and escalating confirmed incidents. *March 2022 - March 2025*

- Supported deployment of Microsoft Defender for Endpoint, Microsoft Defender for Identity, and Microsoft 365 Defender across 8,000 users, consolidating endpoint, identity, and cloud security.
- Developed and refined detection rules in Microsoft Sentinel using KQL for threat detection, threat hunting, and security reporting.
- Managed vulnerability scanning using Nessus and AppCheck, producing prioritised remediation reports and supporting patch management cycles.
- Supported Entra ID Conditional Access policy design and implementation, including organisation-wide MFA rollout and SSO configuration.
- Administered Check Point Harmony firewall and IDS/IPS policies, maintaining perimeter security and network segmentation controls.
- Contributed to incident response investigations using NIST 800-61 and MITRE ATT&CK, producing detailed post-incident reports and lessons-learned documentation.
- Managed security certificates lifecycle, ensuring timely renewal and correct deployment across enterprise systems.

HCK Solutions Ltd (SaaS/FinTech) – IT Engineer, Security, Quality and Infrastructure
 Managed endpoint security and network security controls within a SaaS/FinTech environment, supporting a small, agile IT security function. *February 2021 - March 2022*

- Administered Active Directory, Group Policy, and identity management policies, enforcing access controls and reducing attack surface.
- Conducted security monitoring, incident triage, and vulnerability assessments, escalating risks and implementing remediation actions.
- Supported IT infrastructure and cloud migration projects, contributing security requirements and design review input.

KEY ACHIEVEMENTS

- Deployed and optimised CrowdStrike Falcon EDR across 8,000+ endpoints, significantly improving endpoint visibility, detection quality, and mean time to respond to threats.
- Built a comprehensive Microsoft Sentinel SIEM with custom KQL detection rules and automated SOAR playbooks, materially reducing false positive volumes and improving incident response times.
- Led organisation-wide deployment of the Microsoft Defender suite (MDE, MDI, M365 Defender) to 8,000 users, consolidating endpoint, identity, and cloud threat protection into a single management pane.
- Implemented BeyondTrust PAM, enforcing least-privilege access and delivering full audit trail for all privileged account activity across on-premises and cloud systems.

- Managed Pentera BAS and Tenable.io vulnerability programmes, driving a measurable reduction in critical and high-severity findings through structured remediation tracking.
- Contributed to successful ISO 27001 and Cyber Essentials Plus certification cycles, demonstrating alignment to recognised industry security frameworks.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
